

Up in the treetops, lots of great spots.

Lean back and look.
Where would you eat, hide,
and sleep if you were a ...
Bluejay? Chipmunk? Beetle?

Your ideas:

Just freeze, listen by the trees.

What do you hear?
Rustle Croak Trill Chirp
Splash Whisper Plop Caw

Your sounds:

Roots, wings, fins, fur... look who lives here.

What plants and animals do you see?
Scan the sky, what flies by?
Deep in the pond? Swimming beyond?
Standing tall? Green and small?

Your notes:

Look all around, look on the ground.

Are there any tracks? Teeth-marks?

Beaver stump

Deer

Wild turkey

Chewed leaf

Muskrat

Raccoon

Your sketch:

Play the plant game, "Give-It-A-Name"

1. Find a plant. (Don't tell!)
2. Think up words to describe it (like "twisty, tall, purple top").
3. Tell your friends its new name—can they find your plant?

Your plant name:

Let's go on a Bog Walk 'round Green Heron Pond
