UNIVERSITY OF MINNESOTA

# 56<sup>th</sup> Annual Arboretum Plant Sale

Friday, May 10  
Saturday, May 11  
2024

Farm at the Arb  
[arb.umn.edu/plantsale](http://arb.umn.edu/plantsale)

# Welcome to the 56<sup>th</sup> Annual Arboretum Plant Sale

The Arboretum Auxiliary started the Arboretum's plant sale in 1968, and today the tradition continues with Arboretum staff and help from volunteers. Money raised from the plant sale supplies a crucial support to the Arboretum's general operations fund, helping the Arboretum maintain 1,200 acres of gardens and plant collections, natural areas and trails. Thank you for your support!

## SHOP THE SALE

**Hours:** 8 a.m.-3 p.m. Friday & Saturday, May 10-11.

**Location:** Farm at the Arb, 3210 W. 82nd St., Chanhassen. Shoppers will enter the sale from W. 82nd St. There is no entrance to the sale from the Arboretum's main gatehouse off MN Hwy 5 or Peter C. Moe Drive.

**Reservations:** All shoppers must make free online reservations to shop the sale at [arb.umn.edu/plantsale](http://arb.umn.edu/plantsale). Choose early timeslots for the best selection.

**Please note:** Reservations to shop the sale will give you access only to the plant sale. If you'd like to visit the rest of the Arboretum, you'll need to get advance tickets and enter the Arboretum through the main gatehouse off MN Hwy 5.

## TIPS FOR SHOPPING THE SALE

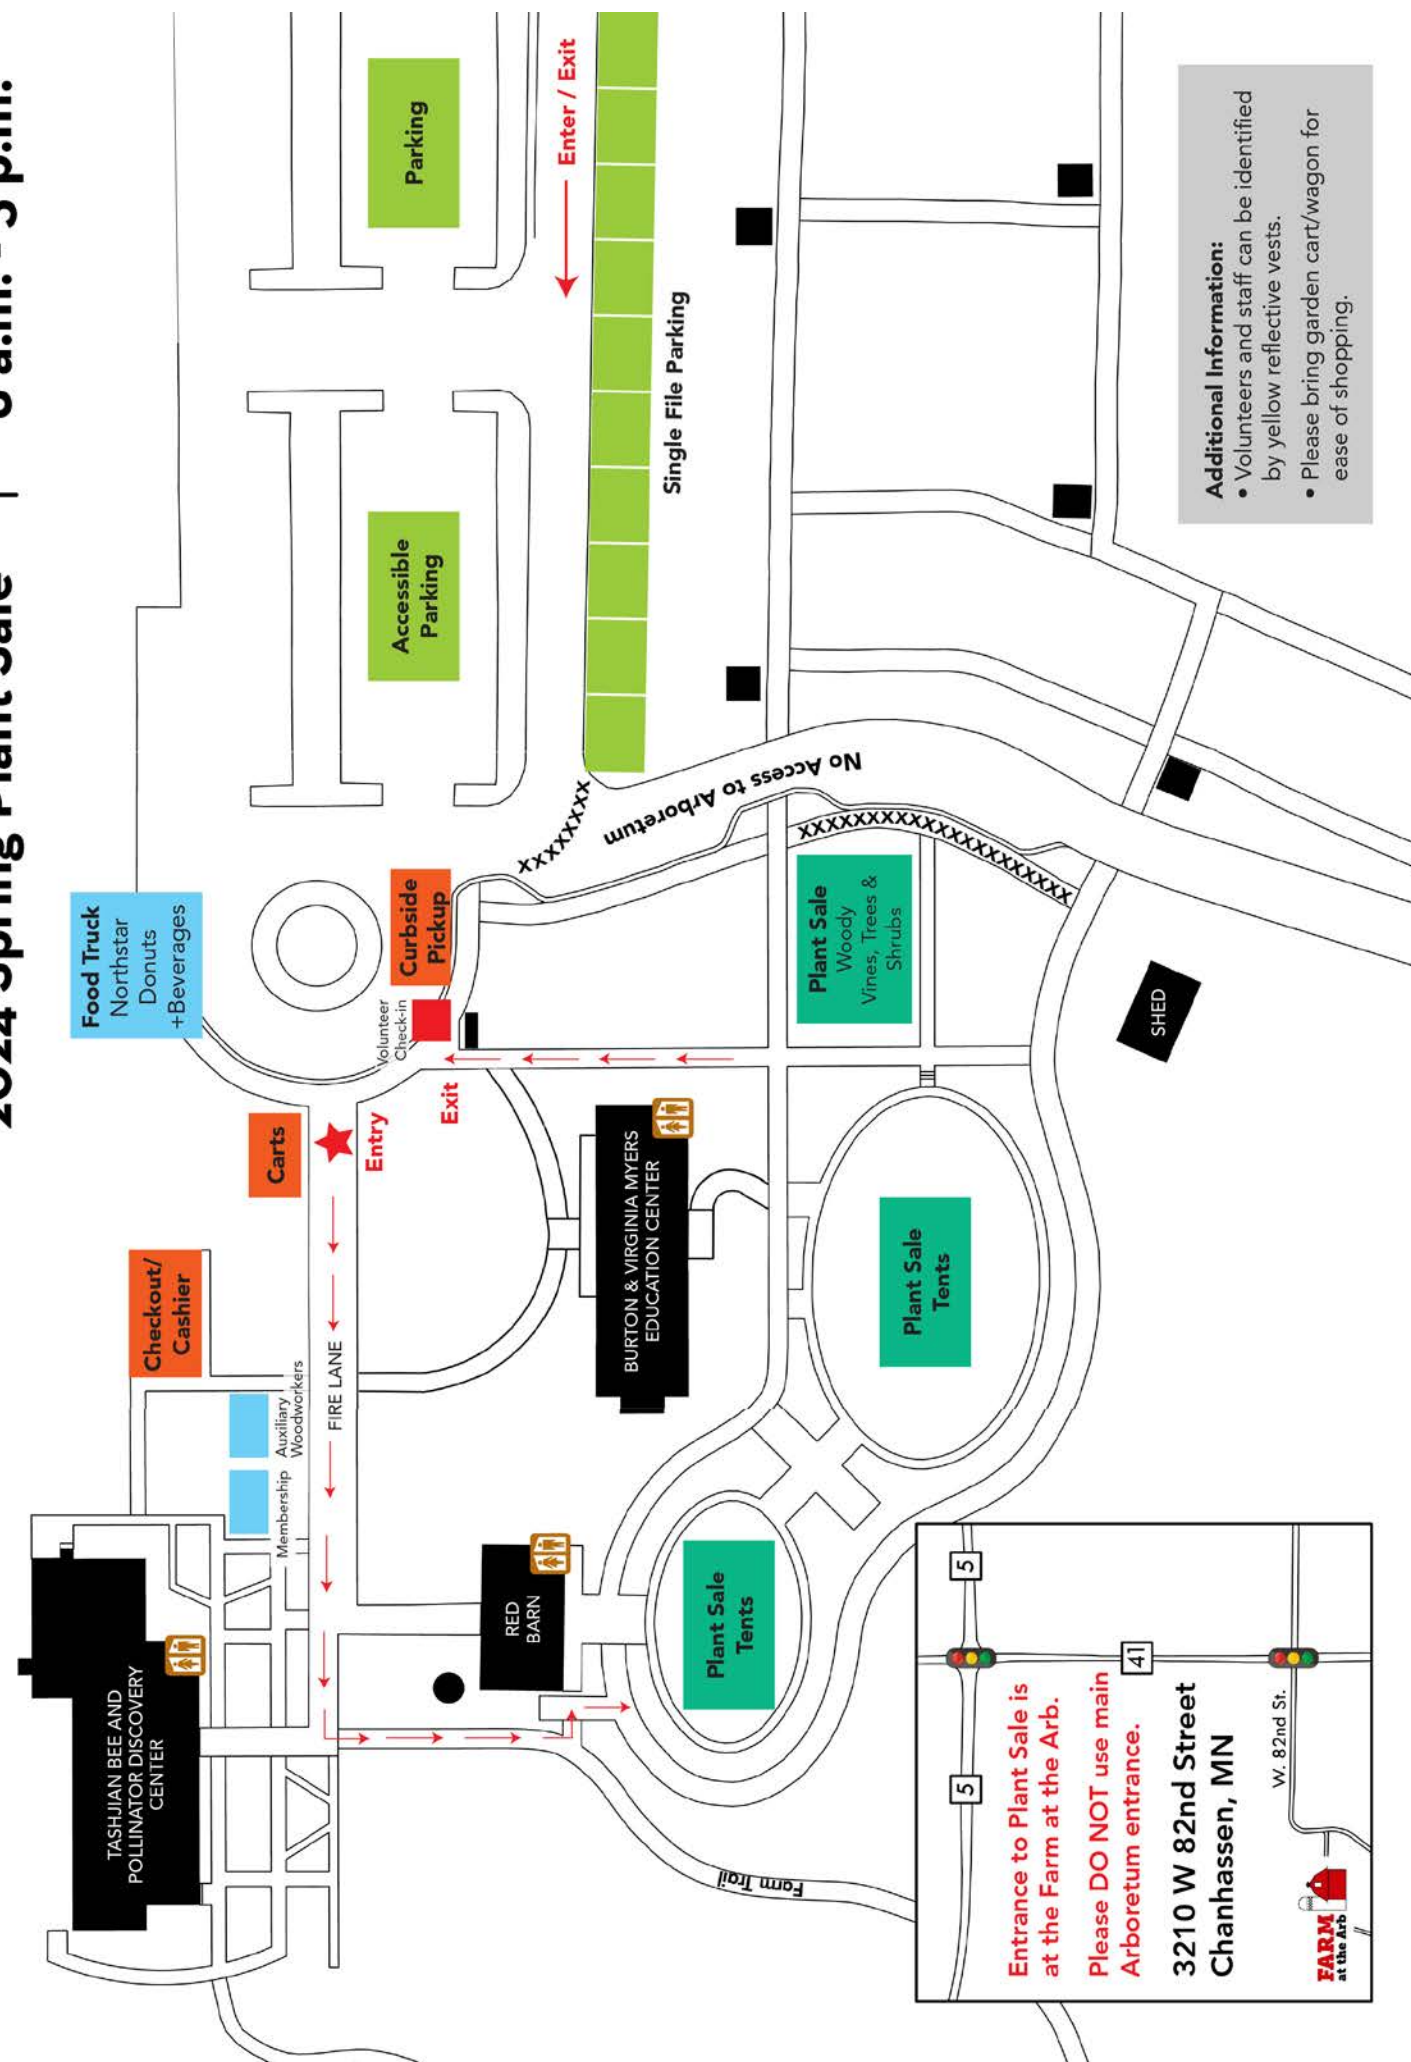

- Please arrive within 15 minutes of your scheduled reservation time and have your tickets ready to scan.
- Arboretum wagons are always in short supply. Please bring carrying containers for your purchases, such as sleds, wagons or carts.
- There will be a pickup area where you can drive up to load your plants.
- Arboretum member discounts don't apply at this sale.
- All sales are final — no refunds or guarantees.

## PAYING FOR YOUR PLANTS

- Shop early for the best selection.
- Cash, checks and credit cards will be accepted. Credit cards are preferred.
- This sale is required to charge tax on all purchases. The transactions will be processed by the Arboretum's Gift & Garden Store.
- Please keep your receipt as you may need to show it to security personnel as you exit.

## Minnesota Landscape Arboretum 2024 Spring Plant Sale

May 10-11  
8 a.m. - 3 p.m.

# 2024 Plant Sale List

## SHADE PERENNIALS

- Actaea pachypoda***  
White Baneberry, Doll's Eyes  
2' H. Also called Doll's Eyes for the distinctive dark "pupil" mark on the ends of their white berries. Persisting for four to six weeks in late summer to early fall, the berries extend from the stem on thick, reddish stalks. MN Native.
- Actaea racemosa***  
Bugbane  
4-6' H. A striking woodland species that creates a strong vertical statement in a shade or border garden. The white, candle-like flower spires provide late summer blooms.
- Actaea simplex***  
Atropurpurea Group Snakeroot  
5-6' H. Fragrant, pale pink flowers. Deep green to bronzy-purple foliage. Early fall.
- Actaea simplex 'Brunette'***  
Atropurpurea Group Snakeroot  
4-5' H. Fragrant creamy-white to pale pink plumes. Black-purple lacy foliage. Rich moist soil, shade to part shade behind border. Avoid disturbing once established. Aug-Sept.
- Actaea simplex 'Hillside Black Beauty'***  
Atropurpurea Group Snakeroot  
4-7'H x 3-4'W. Zones: 4-9. Forms an upright clump of striking, dark purplish-black foliage contrasted by long, white bottlebrush blooms late in the season. Though the young foliage tends to be green, it quickly deepens to an almost iridescent purple-black. In late summer, the 4-7' tall stems are topped with foot-long, fragrant, white flowers blushed with pale pink.
- Aegopodium podagraria 'Variegatum'***  
Snow on the Mountain  
10-12"H x 24-36" spread. Variegated groundcover that quickly forms a dense, weed-proof carpet, even under difficult growing conditions. A good choice for sites where nothing else seems to succeed. Site carefully, this is difficult to eradicate once established, so don't let this loose in the border! Especially nice in containers.

- Ajuga reptans 'Binblasca'***  
Black Scallop™ Bugleweed  
3-6" H. Compact spreading habit. Large, glossy dark purple-black scalloped leaves. Deep blue spikes of flowers in early spring to early summer. Good ground cover.
- Ajuga reptans 'Catlin's Giant'***  
Carpet Bugle  
3-6" H x 12-24" spread. An excellent spreading groundcover that forms a dense, carpet-like mat of lush foliage - even in shady areas! Large green leaves have attractive purple-bronze hues and feature deep blue flower spikes from spring to summer. Great for use in containers, around shrubs or between stepping stones.
- Ajuga tenorei 'Valfredda'***  
Chocolate Chip Dwarf Bugleweed  
4" H. Rich chocolate-colored foliage. Blue flowers. Spring. Good ground cover.
- Ajuga 'Cordial Canary'***  
Feathered Friends™ Fancy Finch Dwarf Bugleweed  
4-6"H x 18"w. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Brilliant gold foliage with cobalt flowers.
- Ajuga 'Fanfin'***  
Feathered Friends™ Dwarf Bugleweed  
4-6"H x 18" W. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Gorgeous tri colored leaves with cobalt blue flowers.
- Ajuga Fierce Falcon***  
Feathered Friends™ Dwarf Bugleweed  
4-6"H x 9-18" spread. A striking large-leaved variety. The deeply textured and puckered foliage of this evergreen ground cover is extremely glossy and is deep purple, almost black. It provides excellent texture to shady areas and is set off by cobalt blue blooms in spring. Zones: 4-9
- Ajuga 'Nobnig'***  
Feathered Friends™ Noble Nightingale Dwarf Bugleweed  
4-6" H 18" W. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Leaves are a deep-purple, lovely blue flowers.

***Ajuga Parrot Paradise***

Feathered Friends™ Dwarf Bugleweed  
4-6”H x 18-24” spread. ‘Parrot Paradise’ combine tones of yellow, red and orange, making this exceptionally cold-hardy perennial a standout ground cover and showy addition to rock gardens, slopes, small spaces, and the crevices between stepping stones where it provides year-round color.  
Zones: 4-9

***Ajuga Petite Parakeet***

Feathered Friends™ Dwarf Bugleweed  
4-6”H x 9-18” spread. ‘Petite Parakeet’ Ajuga is the industry’s first gold colored small-leaved variety and has a striking orange flush and veining. The foliage of this evergreen ground cover provides excellent texture and glowing color to shady areas and sets off the cobalt blue blooms that appear in spring. Zones: 4-9

***Ajuga Pleasant Pheasant***

Feathered Friends™ Dwarf Bugleweed  
4-6”H x 18” W. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Leaves range in colors of burnished copper to crimson gold, lovely blue flowers.

***Ajuga ‘Trotou’***

Feathered Friends™ Tropical Toucan Dwarf Bugleweed  
4-6” H x 9-18” spread. ‘Tropical Toucan’ Ajuga is the industry’s first gold colored large-leaved variety. The striking foliage of this evergreen ground cover provides excellent texture and glowing color to shady areas and sets off the cobalt blue blooms that appear in spring. Zones: 4-9

***Alchemilla mollis ‘Thriller’***

Lady’s Mantle  
12-24”H x 12-24”W Vivid golden yellow flowers held on stems in open, airy sprays above the scalloped, shiny, gray-green leaves.

***Anemone multifida ‘Rubra’***

Rocky Mountain Windflower  
12-18” H. Glowing carmine-red flowers. Deeply divided, hairy basal leaves. May-June.

***Anemone sylvestris***

Snowdrop Windflower  
18” H. Single pure white solitary flowers about 1-1/2” wide and often nodding. May-June.

***Anemone ‘Curtain Call Deep Rose’***

Windflower  
18”H x18”W. Beginning in late summer, this graceful anemone, produces dark rose pink flowers and blooms well into the fall. Spreads by underground rhizomes.

***Anemone ‘Honorine Jobert’***

Japanese Anemone  
30” H. silvery-white single flowers. Rich, well-drained soil. Prefers partial shade. Aug-Oct. 2016 Perennial Plant of the Year.

***Anemone ‘September Charm’***

Japanese Anemone  
30” H. rosy-pink single flowers. Rich, well-drained soil. Prefers partial shade. Aug-Oct.

***Anemonella thalictroides***

Rue Anemone  
See: *Thalictrum thalictroides*.

***Aquilegia canadensis***

Columbine  
2-3’H x 1-1.5’W This beautiful woodland native has red and yellow bell-like flowers with unique, backward-pointed nectar tubes. Attracts a variety of pollinators. Full Sun/Part Shade. MN Native.

***Aquilegia ‘Bluebird’***

Songbird Columbine  
12-14” H. Attractive clumps of delicate foliage with sprays of colorful, blue and white upright facing flowers.

***Aquilegia ‘PAS1258487’***

EARLYBIRD™ Purple Blue Columbine  
16” H. Extra-large blue-violet flowers with white centers are held upright on compact plants.

***Aquilegia ‘PAS1258488’***

EARLYBIRD™ Purple Yellow Columbine  
9-11”H x 8-12”W. a variety of columbine that is known for its bright purple and yellow flowers. It is a popular choice for gardens due to its striking color combination and ability to attract pollinators such as bees and butterflies. Zones: 3-9

***Aquilegia ‘PAS1258489’***

EARLYBIRD™ Yellow Columbine  
10-12”H x 10-12”W. Earlybird™ Yellow Columbine has a compact, mounding shape with short stems that showcase the cheerful, yellow flowers. This easy-to-grow perennial blooms in early spring throughout summer with a 10-12-day flowering window in US Hardiness Zones 4-9.

***Aralia cordata ‘Sun King’***

Japanese Spikenard, Golden Aralia  
3-6’ H. Shrub-like herbaceous perennial. Bright gold compound leaves. Tall spikes of tiny white flowers followed by ornamental black fruit.

***Aralia racemosa***

American Spikenard  
3-5’ H. Shrub-like herbaceous perennial. Stately white plumes, clusters of black drupes. Ginseng family. MN Native.

***Arisaema triphyllum***

Jack-in-the-Pulpit  
12-24”” H. Beloved spring wildflower with green or purple striped flowers. Arum family. MN Native.

***Aruncus sylvester***

Dwarf Goat’s Beard  
12” H. Deep green, finely divided foliage with reddish fall color. Creamy-white flowers in early summer. Seed pods. Can take full sun if soil remains moist.

***Aruncus dioicus***

Goat’s Beard  
4-6’H x 2-4’W Looking much like a very large white Astilbe, Goat’s Beard has similar foliage and feathery, creamy white flower plumes up to 1 ft. long. Full Sun/Part Shade.

***Aruncus dioicus ‘Zweiweltenkind’ (Child of Two Worlds)***

Goat’s Beard  
4’ H. Showy white panicles, feathery foliage. Early summer.

***Aruncus dioicus ‘Kneiffii’***

Goat’s Beard  
2-3’ H. Compact stature and very finely-cut foliage. Creamy white flowers bloom in late spring.

***Asarum canadense***

Canadian Wild Ginger  
4-6” H. Excellent groundcover with heart-shaped leaves and thick rootstalk. Small reddish-brown flowers form under the leaves in May. Good ground cover. MN Native.

***Asarum europaeum***

European Wild Ginger  
5” H. An excellent ground cover for shaded situations with glossy, evergreen leaves 2-3”. The flowers are greenish-purple or brown. Easily propagated by division. Good ground cover.

***Astilbe chinensis var. pumila***

Dwarf Chinese Astilbe  
10-12”H x 10-12”W Lilac plumes over deep green glossy foliage in late summer. It is somewhat more tolerant of sun and drought conditions than other astilbe. Spreads well. A great groundcover.

***Astilbe ‘Fanal’***

Hybrid Astilbe  
24” H. Narrow, dark red flower; bronze foliage.

***Astilbe ‘Delft Lace’***

Hybrid Astilbe  
2-3’ H. Apricot-pink plumes on red stems in early to midsummer. Lacy blue-green foliage overlaid with silver. Leaves can have red highlights. Burgundy fall color.

***Astilbe ‘Deutschland’***

Hybrid Astilbe  
24” H. Clear white flowers in open loose plumes.

***Astilbe ‘Maggie Daley’***

Hybrid Astilbe  
28” Large, lavender-purple blooms above glossy, dark green foliage.

***Astilbe ‘Mighty Pip’***

Hybrid Astilbe  
48” A giant astilbe with big plumes of candy pink flowers.

***Astilbe ‘Dark Side of the Moon’***

Hybrid Astilbe  
20-22” A striking plant knows for its deep purple-black foliage and raspberry-pink flowers

***Astilbe chinensis var. pumila***

Dwarf Chinese Astilbe  
12-18”H x 12-18”W. Dwarf astilbe variety with stunning, fluffy, rich, lavender-purple flower plumes. Fern-like green foliage. Perfect for a front border, as an edging plant or a dense ground cover.

***Astilbe ‘Montgomery’***

Hybrid Astilbe  
22” H. Deep orange-red plumes on dark red stems.

***Astilbe ‘Purpurkerze’***

Purple Candles Astilbe  
42” H. x 18-24”W. A later blooming species. Foliage is deeply incised, coarsely textured, and often bronze in color. Dense, poker-like rich violet-red plumes are borne on narrow branched panicles.

***Astilbe chinensis ‘Vision in Red’***

Chinese Astilbe  
15”-24H. x 15-24”W. Tall feathery blooms of reddish purple rise above deep bronze-green foliage. More heat and drought tolerant and thrives in dappled shade. Excellent cut flower.

***Astilbe chinensis ‘Vision in White’***

Chinese Astilbe  
24”H. x 24”W. Tall, feathery white blooms above compact, deep bronze-green foliage. Valued for their airy quality, flowers are excellent for cutting. A true gem for dappled shade gardens.

***Astilbe ‘Vision Inferno’***

Hybrid Astilbe  
15-24”H x 18-20”W. A compact, clump-forming perennial boasting cream to blush-pink flowers held in dense plumes. Blooming in mid to late summer. Zones: 3-9

***Astilbe ‘Sprite’***

Astilbe  
18” H. A dwarf astilbe with shell pink blooms held above the bronze green foliage in midsummer.

***Bergenia ‘Red Beauty’***

Pigsqueak  
6-12” H. Thick, cabbage-like foliage and deep purple-red flowers. The leaves change to burgundy in the fall.

***Bergenia cordifolia ‘Vinterglöd’***

(Winter Glow) Pigsqueak  
12-15” H. Large glossy, thick, cabbage-like leaves are bright green, but turn bronze in cold weather. Red flower. Spring.

***Brunnera macrophylla***

Siberian Bugloss

1-1.5'H x 1.5-2.5'W Delightful for their bright display of sky-blue flowers in spring and reliable clumps of large heart-shaped leaves all season.

***Brunnera macrophylla 'Alexander's Great'***

Siberian Bugloss

14" H. A gigantic mound of heart shaped, heavily silvered leaves. Blue flowers in the spring.

***Brunnera macrophylla 'Alexandria'***

Siberian Bugloss

14-18"H x 26-30" spread. Alexandria features brilliant mirror-silver leaves with the classic 'Alexander's Great' size and vigor. Tiny clouds of sky-blue flowers in the spring float above the foliage as it emerges. Truly a refreshing garden addition with early flowers for the pollinators. Zones: 4-9

***Chelone lyonii 'Hot Lips'***

Pink Turtlehead

24-36" H. Rose-pink flowers. Lustrous, deep green foliage. Bronze-green early season growth. Prefers moist site. Aug-Sept.

***Chelone lyonii 'Armitpp02'***

Tiny Tortuga Turtlehead

12-16" H. Thick, dark green foliage. In late summer, plants produce upright stems of large dark pink hooded flowers.

***Primula meadia***

Eastern Shooting Star

10-14"H x 12"W White flowers with reflexed petals are borne in clusters that rise on slender stems from a basal rosette of lance-shaped leaves. Cultivar of MN Native.

***Dodecatheon 'Aphrodite'***

Shooting Star

18-24" H. Hybrid selection of a native North American wildflower. Forms a low rosette of rounded leaves, bearing upright stems of bright magenta-pink flowers with a yellow center, with flared-back petals that give each blossom a star-like or rocket ship appearance.

***Epimedium x rubrum***

Red Barrenwort

12" H. Early in the season, the thin, heart-shaped leaves of this plant have a red tinge, which turns to bronze in the fall. Good ground cover.

***Epimedium x versicolor 'Sulphureum'***

Barrenwort

12" H. Light yellow flowers. This selection is one of the best for use as a ground cover. May-June.

***Galium odoratum***

Sweet Woodruff

6" H. A garden favorite because of its delicate growth, 4-petaled white flowers from early May to mid-June, and sweet-scented elliptic leaves. Excellent ground cover. Leaf has been used in wines and liqueurs.

***Helleborus 'Blushing Bridesmaid'***

Wedding Party® Lenten Rose

18-24"H x 18-24"W. From hybridizer Hans Hansen, selected for vigor, floral display and abundance of blossoms. 'Blushing Bridesmaid' bears 2-2½" double white flowers with raspberry pink veining and picotee edge.

***Helleborus 'Flower Girl'***

Wedding Party® Lenten Rose

18-24"H x 18-24"W. From hybridizer Hans Hansen, selected for vigor, floral display and abundance of blossoms. 'Flower Girl' has 2½-3" double blush to light pink flowers.

***Helleborus 'Epbrd01'***

Frostkiss™ Molly's White Lenton Rose

18-24"H x 18-24"W. Greenish white blossoms offered up on tall stems are the embodiment of grace in the late winter and early spring garden. The winter bouquet caps a tidy, compact mound of moss green, evergreen foliage that's veined in silvery white. Zones: 4-9

***Helleborus 'Paris in Pink'***

Honeymoon® Lenten Rose

18-24"H x 18-24"W. From hybridizer Hans Hansen, selected for vigor, floral display and abundance of blossoms. 'Paris in Pink', bears 3 1/2-4" single light to medium pink flowers.

***Helleborus 'Rome in Red'***

Honeymoon® Lenten Rose

18-24"H x 18-24"W. From hybridizer Hans Hansen, selected for vigor, floral display and abundance of blossoms. 'Rome in Red' bears 3-4", single rich maroon to wine red flowers.

***Helleborus 'Spanish Flare'***

Honeymoon® Lenten Rose

18-24"H x 18-24"W. Large, single soft yellow flowers, adorned with burgundy-red flares. Blooming heavily in early to mid-spring.

***Helleborus 'Wedding Bells'***

Wedding Party® Lenten Rose

18-24"H x 18-24"W. From hybridizer Hans Hansen, selected for vigor, floral display and abundance of blossoms. 'Wedding Bells' bears clear white, 2-2½" double flowers.

***Hepatica americana***

Round-lobed Hepatica

6" H. Leaves with rounded lobes distinguish this species. The pale lilac to pinkish-white flowers appear very early in the spring. March to June. MN Native.

***Heuchera 'Caramel'***

Coral Bells

10-14" H. New leaves emerge bright gold and mature to a peachy orange.

***Heuchera 'Citronelle'***

Coral Bells

6-12" H. Brings bright chartreuse foliage for shade.

***Heuchera 'Crimson Curls'***

Coral Bells

18" H. Deep reddish-purple leaves with curled edges. Whitish flowers in summer.

***Heuchera 'Electric Plum'***

Coral Bells

8-10"H 16-18" W. The foliage on this Heuchera is so bright, it's electric! New leaves emerge near black and lighten to an intense purple with dramatic black veining. Dainty, bright fuchsia pink flowers are produced on near black stems, with a color intensity that matches the awesome foliage.

***Heuchera 'Frosted Violet Dream'***

Coral Bells

12-18"H. Violet purple foliage with deep burgundy veins form a vigorous but neat clump, accented by dainty pink, pearl-like flowers.

***Heuchera 'Lava Lamp'***

Coral Bells

16" H x 28" W. 'Lava Lamp' forms a large, billowy mass of very large, coppery purple leaves with deep purple undersides. The newest leaves emerge a bright copper orange color and then deepen to coppery purple as they age.

***Heuchera 'Mahogany Monster'***

Primo® Coral Bells

12-16"H x 22-28"W. Massive glossy, mahogany red leaves form a substantial clump of foliage. Slightly ruffled leaves can grow up to 6 inches wide. The flower stems are proportionate to the size of the clump: very thick, burgundy stems holds masses of light pink buds with cream flowers.

***Heuchera 'Midnight Rose'***

Coral Bells

10-16" H. Award winning plant has shiny, pink-spotted black leaves and a vigorous rounded habit. Part shade to full sun.

***Heuchera 'Tnbeunea'***

Northern Exposure™ Amber Coral Bells

10"H x 16"W New hybrids with our local native Heuchera richardsonii are bone hardy -- this one with showy amber foliage.

***Heuchera 'Tnbeuner'***

Northern Exposure™ Red Coral Bells

10"H x 16"W Velvet red leaves: New hybrids with our local native Heuchera richardsonii are bone hardy.

***Heuchera 'Tnbeunesi'***

Northern Exposure™ Sienna Coral Bells

10"H x 16"W New hybrids with our local native Heuchera richardsonii are bone hardy.

***Heuchera 'Tnbeunes'***

Northern Exposure™ Silver Coral Bells

10"H x 16"W Burnished silver leaves: New hybrids with our local native Heuchera richardsonii are bone hardy.

***Heuchera 'Paris'***

Coral Bells

10"H x 16"W Foliage emerges with silver veining but the classic pink coral bell flowers are proven repeat flowering for the longest display of any cultivar. Very reliable in local gardens.

***Heuchera 'Plum Pudding'***

Coral Bells

8-10"H x 12-24"W. Eye-catching and compact, a particularly interesting variety of Coral Bells with its shiny, silvery, plum-purple foliage of deeply cut, rounded, ruffled leaves. Zones: 4-9

***Heuchera 'Stainless Steel'***

Coral Bells

10"H x 16"W Foliage emerges silver with light purple veining and eggplant purple undersides, then matures to pale seafoam green with a subtle purple patina. Pink buds open to white flowers.

***Heucherella 'Brass Lantern'***

Foamy Bells

12-18" H. Burnished gold to deep apricot leaves with brick red centers emerge in spring and turn deep olive-purple in winter. White flowers on reddish stems in spring.

***Heucherella 'Heupire030'***

Pink Revolution™ Foamy Bells

12-15" h x 18-24"W. Boasts having the most flowers of all Foamy Bells. One plant can have over 100 stems of hugh magenta pink flowers at once! And that's not all. Its deeply cut foliage of apple green is beautifully marked with silver and purple. Their uniquely shaped leaves bring a fascinating element to gardens and containers.

***Heucherella 'Pumpkin Spice'***

Foamy Bells

8-10"H x 18-22"W. Bronze red leaves emerge in late spring and hold its color well into early summer. Each 4" lobed leaf has deep mahogany centers that follow the veins of the leaf. Dark red stems hold cream flowers that appear in early summer. For best foliage color and performance, plant in an area with filtered sun or afternoon shade.

***Heucherella 'Red Rover'***

Fun and Games® Foamy Bells

6-8"H x 18-20"W. Easily grown perennial for its attractive, coppery-red, heavily lobed foliage. Each finger-like leaf has a burgundy red center. Olive green summer leaf color. Creamy white, bottlebrush-like flowers.

***Heucherella 'Solar Eclipse'***

Foamy Bells

10"H x 14-16"W Leaves of red brown bordered in lime green combined with a beautiful habit and broadly scalloped leaf lobes.

***Heucherella 'Stoplight'***

Foamy Bells

12-16" H. Bright-yellow leaves with a star shaped center marking of beet red. Short spikes of white flowers appear in late spring.

***Heucherella 'Tapestry'***

Foamy Bells

12-16" H. Stunning multicolored and veiled foliage with free flowering stems of warm pink flowers. The dark-centered leaves are colored blue green in spring and summer and change to green with dark centers in fall and winter, leaves have blue iridescence.

***Lamium maculatum 'Lemon Frost'***

Spotted Dead Nettle

6-9" H x 18" spread. Lemon Frost has masses of beautiful spikes of lavender flowers rising above the foliage from mid spring to late summer, which are most effective when planted in groupings. Its attractive heart-shaped leaves emerge lemon yellow in spring, turning lime green in color with pointy silver spines throughout the season. Zone: 4a

***Lamium maculatum 'Pink Pewter'***

Spotted Dead Nettle

6-9" H. Pink flowers. Good ground cover.

***Lamium maculatum 'Purple Dragon'***

Spotted Dead Nettle

6-8"H x 12-24"W Has stunning silver leaves with dark green edging and large, magenta-purple flowers.

***Lamium maculatum 'White Nancy'***

Spotted Dead Nettle

6-9" H. Beautiful white-flowering form of 'Beacon Silver.' Brightens dark locations. Good ground cover.

***Lamprocapnos spectabilis 'Alba'***

Bleeding Heart

30" H. Like D. spectabilis, has lighter green foliage and pure white flowers. June.

***Lamprocapnos spectabilis 'Gold Heart'***

Bleeding Heart

24" H. Pink flower. Unusual chartreuse foliage. A spring beauty!

***Lamprocapnos spectabilis 'Hordival'***

Valentine™ Bleeding Heart

2-3' H. Heart-shaped flowers with red outer petals and white inner petals. Dark green foliage has hint of red. Toxic.

***Dicentra 'Ivory Hearts'***

Pacific Bleeding Heart

8-10"H x 8-10"W. A compact, mound-forming, rhizomatous perennial adorned with a blue-green, finely divided foliage and short racemes of nodding, heart-shaped, creamy-white flowers. Blooms in late spring. Unlike Dicentra spectabilis, it will not go dormant in midsummer as long as the soil is kept moist. Zones: 3-8

***Dicentra 'King of Hearts'***

Fern-leaf Bleeding Heart

8-10" H x 8-10"W. With a compact growth habit, 'King of Hearts' Bleeding Heart produces blooms in arching sprays of hot pink, heart-shaped flowers. Fern-like, emerald green foliage forms a mound and lasts throughout the season in shady areas and woodland gardens. Zones: 3-9

***Dicentra 'Luxuriant'***

Fern-leaf Bleeding Heart

12-15"H x 12-18"W. Dark reddish pink, heart-shaped blooms dance charmingly above spreading mounds of ferny, blue-green foliage. This selection is everblooming, flowering most freely in spring and continuing throughout the summer and into fall. It does not set seed. It also seems to tolerate more sun and summer heat than most other varieties. Zones: 3-9

***Ligularia dentata 'Britt-Marie Crawford'***

Leopard Plant, Ragwort

3-4' H. Large, leathery, glossy, deep chocolate-maroon leaves with dark purple undersides. Orange-yellow daisy-like flowers on black-purple stems. July-Aug.

***Ligularia dentata 'Desdemona'***

Leopard Plant, Ragwort

40" H. Yellow-orange daisy-like flower. Bronzy-green foliage on upper side, purple underneath. July-Sept.

***Ligularia dentata 'Midnight Lady'***

Leopard Plant, Ragwort

36" H. Large, rounded dark, shiny purple-black leaves. Bright golden-orange daisy flowers.

***Ligularia dentata 'Othello'***

Leopard Plant, Ragwort

36" H. Yellow-orange flowers. Attractive mahogany-red foliage. July-Sept.

***Ligularia 'Little Rocket'***

Leopard Plant, Ragwort

36-42" H. Narrow spires of yellow flowers with dark stems. Grey-green, deeply toothed foliage creates a compact mound 18-24" tall. Mid- to late summer.

***Lysimachia nummularia 'Aurea'***

Golden Moneywort

2" H. Golden-yellow foliage and bright yellow flower. Beautiful creeping vine. Best in wet to moist soils. Good ground cover. May-Sept.

***Mertensia virginica***

Virginia Bluebells

2-3' H. A strong stout perennial with a smooth stem. Loose, one-sided blue flower clusters nodding in early spring. Goes dormant after flowering. MN Native.

***Mukgenia 'Nova Flame'***

Mukgenia

An amazing combination of Mukdenia and Bergenia; beautifully dainty dark-pink spring flowers are held on sturdy stalks floating above glossy-green, leathery leaves with interesting jagged edges that form clumps 8" high and 15" wide; a wonderful groundcover or container plant. Zone:3

***Pachysandra terminalis 'Green Carpet'***

Japanese Spurge

6-8" H. Rich green foliage, more compact and hardier than species. Good ground cover.

***Polemonium carneum 'Apricot Delight'***

Royal Jacob's Ladder

12-16"H x 12-16"W. Polemonium carneum 'Apricot Delight' provides soft bunches of pinky-apricot blossoms atop tall stems above attractive green, compound foliage from late spring thru early summer. This is a unique colour for polemoniums and it is very easy to grow. Zone: 4

***Polemonium reptans 'Stairway to Heaven'***

Creeping Jacob's Ladder

12-15" H. Blue bells. An attractive plant for the wild garden, may be divided after blooming. Cultivar of MN Native.

***Polemonium reptans 'Touch of Class'***

Creeping Jacob's Ladder

12-15" H. Pale blue bells. An attractive plant for the wild garden, may be divided after blooming.

***Polygonatum biflorum***

Smooth Solomon's Seal

2-3' H. Woodland wildflower with arching stem. White flowers followed by black berries. MN Native.

***Polygonatum humile***

Dwarf Solomon's Seal

6-9" H. This easy-to-grow, dwarf selection has green leaves on arching stems and clusters of dangling, dainty, white, bell flowers in late spring.

***Polygonatum odoratum var. pluriflorum 'Variegatum'***

Variegated Solomon's Seal

2-3' H. Burgundy stems support soft green leaves with creamy-white margins. Fragrant tiny, white bell flowers in late spring and early summer mature to blue-black berries in the fall. Golden-yellow fall foliage.

***Pulmonaria 'Raspberry Splash'***

Lungwort

12" H. Raspberry-pink flowers. Early spring bloom time. Well-drained soils. Tolerant to Black walnut and deer.

***Pulmonaria 'Trevi Fountain'***

Lungwort

12" H. Lance-shaped leaves are medium green with silver spots. Cobalt-blue flowers. Early spring.

***Sagina subulata***

Irish Moss

3" H. Dense mat of small, dark green, narrow leaves. Tiny white flowers. Prefers partial shade, protected location, but will tolerate some sun. May be used as a ground cover.

***Sagina subulata 'Aurea'***

Scotch Moss

3-6" H. Moss-like carpet of neon-yellow foliage. Tiny white flowers in spring. Good drainage is necessary for survival. May be used as a ground cover. April, May.

***Stylophorum diphyllum***

Celandine Poppy

20" H. Gray-green, lobed and toothed leaves, large, poppy-like, yellow flowers. Less aggressive than the introduced European species.

***Tiarella 'Spring Symphony'***

Foam Flower

10" H. Profusion of pink flowers. Deeply cut leaves marked with black blotch in their centers. Compact, clump-forming habit. Mid-to late spring.

***Tricyrtis hirta 'Gilt Edge'***

Toad-Lily

2-3' H. Flowers are heavily spotted reddish-purple spotting late in the season. Leaves generally remain attractive throughout the growing season with a creamy variegated edge.

***Tricyrtis hirta 'Moonlight'***

Hairry Toad Lily

20" H x 18-24"W. Bluebird Nursery introduction, an all-gold sport (often w/tiny green lines) originated from T. hirta 'Variegata'. Hairry chartreuse foliage tightly clothes 15" stalks & eventual 2' wide clump. In fall, every leaf axil is home to a nickel-sized, orchid-like flower...a white background w/ dramatic purple specks & a purple ring at the inside base of the flower. This contrast between the foliage and the flower is superb...best as a mass!

***Vinca minor 'Bowles'***

Periwinkle

4-6" H. Evergreen groundcover with dark green leaves and intense blue-violet flowers appear just above the foliage. Good ground cover.

***Vinca minor 'Illumination'***

Lesser Periwinkle

4-6" H. Vigorous, evergreen mat-forming perennial with glossy dark green leaves and large lavender-blue flowers from mid-spring to early summer. They will continue to bloom intermittently throughout the summer into fall and are valuable for enlivening dark areas.

## FERNS

***Adiantum pedatum***

Maidenhair Fern

12-30"H x 12-18"W. One of the most sought-after ferns, a deciduous perennial with handsome, black shiny stems and graceful, bright green fronds spreading horizontally in a circular pattern. Northern Maidenhair Fern spreads slowly by creeping rhizomes to form large colonies. A great addition to shade gardens with rich, moist soils. Zones: 3-8

***Asplenium x ebenoides***

Dragontail Fern

8-12"H. Commonly referred to as the dragon's tail fern, it is a natural hybrid fern that slowly grows into a low mound of narrow, triangular fronds with many fingers along the midrib. A hardy evergreen perennial that is best suited in a rock or woodlands garden. Consider also for indoor terrariums. Prefers cool, moist locations. Zone: 4

***Athyrium filix-femina***

Lady Fern

30" H. Large, vigorous showy fern with lacy-cut lance shaped leaves. For moist, semi-shade.

***Athyrium filix-femina var. angustum 'Lady in Red'***

Lady Fern

30" H. Large, vigorous, showy fern with lacy-cut lance-shaped leaves. Red stems hold their color all season. For moist, semi-shade. Not evergreen.

***Athyrium filix-femina 'Victoriae'***

Lady Fern

18-24"H x 20-24"W. 'Victoriae' grows in clumps of lacy filigree foliage. Discovered in Scotland in 1861 during the Victorian Fern Craze, this unusual selection's pinnae criss-cross & form an 'X' pattern. Fern tips are crested & create drooping fringes. Distinct & unusual, a sure attention grabber.

***Athyrium niponicum 'Godzilla'***

Japanese Painted Fern

3' H. Forms a massive, arching clump of silvery fronds with green highlights and dark purple stems.

***Athyrium 'Ghost'***

Hybrid Fern

4-6" H. Vigorous, evergreen mat-forming perennial with glossy dark green leaves and large lavender-blue flowers from mid-spring to early summer. They will continue to bloom intermittently throughout the summer into fall and are valuable for enlivening dark areas.

***Athyrium niponicum var. pictum***

Japanese Painted Fern

12-18"H x 24"W. One of the most colorful ferns for the garden. This fern has silvery-grey fronds which are dusty purple towards the center, set off by the purplish-red veins and stems. Low and mounding growth habit, slowly spreading by rhizomes to form dense colonies.

***Dryopteris affinis 'Cristata'***

Scaly-Male Fern

2-4'H. This majestic larger fern has long, arching fronds. The crested and forked tips of each zesty green leaflet create a unique ruffled texture. Tolerant of some sun and drought once established, this energetic fern has the potential to liven up more challenging areas in the garden.

***Dryopteris marginalis***

Marginal Shield Fern

18-24"H x 18-24"W The leathery leaves are a beautiful addition to the woodland garden and can form a lovely an easy to maintain groundcover.

***Onoclea sensibilis***

Sensitive Fern

12-24" H. Coarse fern found in wet soils where it can stand considerable exposure to sun. Grows easily in shade and humus-rich acid soil. MN Native.

***Osmunda cinnamomea***

Cinnamon Fern

2-4'H x 2-3'W. Zones: 4-10. Thriving in moist areas, makes a dramatic focal point in the landscape. This deciduous fern features erect, narrow spike of cinnamon-brown spore-producing structures, which emerge from the center of the plant, resembling cinnamon sticks. Fronds appear as silvery, furry fiddleheads in spring. Plant forms an elegant vase-shaped rosette enclosing the cinnamon fronds.

***Osmunda regalis***

Royal Fern

4' H. Majestic fern growing in moist soils usually at edge of permanent water. Fresh green fronds. Adaptable to a variety of soil types and conditions. MN Native.

***Polystichum acrostichoides***

Christmas Fern

12-24"H x 12-24"W Named for its evergreen fronds which were used by early New England settlers for Christmas decorations. The firm, deep green leaves make it a great companion for woodland wildflowers.

## SUN PERENNIALS

***Achillea 'Moonshine'***

Yarrow

2' H. Finely dissected, silvery foliage. Light yellow flowers.

***Achillea millefolium 'Balvinviolet'***

New Vintage™ Violet Yarrow

26-28"H x 10-12"W. This compact variety holds its tidy plant habit with a bold, violet red tightly held flowers that keeps its color longer into the summer. Reflowers very well for a Yarrow. Zones: 4a-9b

***Achillea millefolium 'Balvinwite'***

New Vintage™ Violet Yarrow

12-14"H x 10-12"W. An upright but compact yarrow with lacy green foliage and clusters of clean white blooms in late spring and summer. Deadhead for prolonged bloom into early fall. Zones: 4-9

***Achillea millefolium 'Strawberry Seduction'***

Yarrow

18-24" H. Upright, compact habit. Feathery, finely divided, dark green foliage. Aromatic when crushed. Strawberry-red flowers with bright yellow eyes, in umbels. Long blooming. Drought tolerant.

***Aconitum carmichaelii 'Arendsii'***

Monkshood

2-4' H. Deep purple flowers that bloom September-October. Toxic.

***Aconitum fischeri***

Monkshood

18-24" H. Azure blue flowers blooming in late summer to early fall. Toxic.

***Agastache 'Blue Fortune'***

Anise Hyssop

30" H. A hybrid anise hyssop with almost everblooming violet blue flowers and anise scent to the foliage. Edible.

***Alcea rosea 'Blacknight'***

Spotlight™ Hollyhock

20-29" H. Dark black-purple flowers on tall spires. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

***Alcea rosea 'Mars Magic'***

Spotlight™ Hollyhock

20-29" H. Bright red single flowers on tall spires. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

***Alcea rosea 'Queeny Purple'***

Hollyhock

20-29" H. 2004 All America Award Winner. Compact for smaller spaces. Magenta-purple flowers with pompom centers surrounded by a ring of fringed petals. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

***Alcea rosea 'Mars Magic'***

Spotlight™ Hollyhock

12-18" H. Tall spikes of single flowers in various shades of red over a low mound of foliage. Flowers appear the first season. Cut back to 8" after blooming. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

***Alcea rosea 'Sunshine'***

Spotlight™ Hollyhock

59-70" H. Tall spikes of single bright yellow flowers held over a low mound of foliage. Cut back to 8" after blooming. Full sun. Attracts butterflies and hummingbirds. Deer and rabbit resistant. Drought tolerant.

***Allium senescens subsp. glaucum***

Ornamental German Garlic

4-8" H. Blue-grey cowlick leaves, rosy flowers. A choice plant, especially for rock gardens. Aug-Sept.

***Allium 'Medusa'***

Ornamental Onion

20-24"H x 24"W. Snaky, twisty leaves like the snake hair from the Medusa legend. Forming a low mound of grey-green, narrow foliage. The nodding buds straighten to form 1¾-2" rounded clusters of light amethyst purple flowers.

***Allium 'Millenium'***

Ornamental Onion

15" H. blooms in midsummer with large globes of rose-pink flowers. Shiny deep-green grassy foliage is very ornamental. PPA 2018 Plant of The Year. Zone 5.

***Allium tanguticum 'Summer Beauty'***

Ornamental Onion

18-20" H. Long blooming, large flowering ornamental onion with 1 1/2" lavender-purple pom-poms above shiny, dark green, strap-like foliage. Good for rock gardens.

***Allium ‘Windy City’***

Ornamental Onion

15-18” H. a clump-forming perennial that looks great all year long. It has dark green, grass-like foliage with rounded tips that emerge in the spring. By midsummer, green-purple stems grow to 18 inches tall topped by exploding firework-shaped balls of violet purple flowers.s.

***Amsonia ‘Blue Ice’***

Blue Star

2-3’H x 3’W Clusters of sky-blue stars in late spring. Deep green threadleaf feathery foliage waits until fall turning bright rich yellow.

***Amsonia hubrichtii***

Narrowleaf Bluestar

This southern native has very narrow, needle-like leaves that line the stems like bottle brushes. Surprisingly, they are soft as silk to the touch. From late spring thru early summer, 2-3” wide clusters of small, light blue, star-shaped flowers are borne above the short mound of ferny foliage. After blooming, it quickly grows to reach a height of about 3 feet. Zones: 4-9

***Armeria maritima ‘Splendens’***

Sea Thrift

6-12”H x 6-12”W. Compact, evergreen perennial, boasts round clusters of bright, deep pink flowers atop slender stalks rising above foliage. Blooms profusely mid/late spring, additional flowering may occur throughout summer. Densely mounded tuft of grass-like leaves spread slowly.

***Artemisia stelleriana ‘Boughton Silver’***

Dusty Miller

6-12” H x 24-30 W. A recent introduction and improvement over Silver Brocade, makes a dense mat of prostrate foliage. Good for rock gardens.

***Artemisia schmidtiana***

Wormwood

6-12” H x 24-30W. Classic long-time favorite, makes a dense mound of silver foliage. Good for rock gardens, good drainage best.

***Asclepias incarnata***

Swamp Milkweed

3-4’ H. Lovely vanilla fragrance coming from large rosy pink flowers possibly hosting several Monarch or Swallowtail butterflies. MN Native.

***Astrantia ‘Roma’***

Masterwort

1.5-2’H x 1-1.5’W This selection produces large, silver-pink flowers that are surrounded by greenish wine-red bracts. Long blooming.

***Astrantia major ‘Venice’***

Masterwort

1.5-2’H x 1.5-2’W. Each flowerhead (2-3” diameter) features dense, compact, domed umbels of tiny greenish-white flowers which form a delicate pincushion-like center subtended by a showy collar of papery, petal-like, creamy white involucre bracts. Flowers bloom late spring to early summer atop wiry, branched, nearly leafless stems rising to 24” tall above basal clump.

***Baptisia ‘American Goldfinch’***

False Indigo

3-5’H x 4.5-5’W. Dramatic, gorgeous golden yellow flower spikes rose above its wide habit. Easy to grow and will thrive with little maintenance. Plants are long-lived once established.

***Baptisia ‘Burgundy Blast’***

False Indigo

3-3.5’H x 3-3.5’W. A color break for False Indigo! The shade of purple is redder than the typical purple Baptisia. Dark wine purple flowers are produced over very dark blue-green foliage. When it is in bloom, it is a stunning display of color. Use in place of a shrub in the landscape.

***Baptisia ‘Lemon Meringue’***

Decadence® False Indigo

36”H x 36”W. An Impressively vigorous native cultivar. Long, charcoal grey stems carry the cool lemon flowers, producing an excellent floral display atop the compact, upright mound of blue-green foliage. Easy to grow and will thrive with little maintenance. Plants are long-lived once established.

***Baptisia ‘Pink Truffles’***

Decadence® Deluxe False Indigo

4-4.5’H x 3-4’H. Clear soft pink blossoms with a pale yellow keel are produced in late spring, the perfect compliment to peonies, bleeding hearts, and other spring bloomers. Its compact, shorter habit makes it easy to fit into any garden.

***Baptisia ‘Sparkling Sapphires’***

Decadence® Hybrid False Indigo

“2.5-3’ x 2.5-3’W. Intensely vibrant flower color. Vivid violet blue blossoms in late spring, around the same time as peonies. Because of its shorter stature, it will easily fit into a perennial flower garden. Seed pods begin to develop immediately after the plant is finished flowering, deepening in color and persisting into fall. “

***Baptisia australis***

Blue Wild Indigo

3-4’ H. Spikes of blue pea-like blooms in June, black seed pods useful in dried arrangements. Clover-shaped foliage of blue green. Good cutting flower as well. Light acid soil. Native to Eastern Seaboard and Eastern Midwest.

***Iris domestica ‘Freckle Face’***

Blackberry Lily

18-24”H x 8-12”W. This unique perennial produces a profusion of two inch wide, brilliant orange blossoms with heavy red specking and shading on each of the six overlapping petals. They are produced atop mid-sized plants with green, sword-shaped foliage like that of a tall bearded iris.

***Campanula carpatica ‘Rapido Blue’***

Bellflower

6” Violet-blue flowers bloom 3-4 weeks earlier than other C. carpatica cultivars.

***Campanula carpatica ‘Rapido White’***

Bellflower

6” White flowers blooming earlier than typical cultivars.

***Campanula punctata ‘Cherry Bells’***

Spotted Bellflower

12-24” H. Large, tubular, bell-like flowers 2” long are cherry red with inside spotting. Deer resistant. Upright habit. Midsummer bloom time.

***Centaurea montana***

Perennial Cornflower

24’H x 24”W. Centaurea Montana has large, showy, violet-blue flowers late in spring, with spidery deeply fringed flower petals. Will rebloom in fall if cut back after first blooming period.

***Centranthus ruber***

Red Valerian

2-3’H x 1-2’W. Bushy, well-branched, with one of the longest blooming seasons, Red Valerian is a popular perennial grown for its ornamental and showy star-shaped flowers. Fragrant, this border beauty is easy to grow, and attracts butterflies! Zones: 4-9

***Clematis ‘Evipo078’***

Boulevard® Acropolis™ Clematis

4’H x 2’W. A compact very free flowering clematis. It produces an abundance of bright pink flowers that are 3-4”. Blooms early summer through late autumn. Very showy. Group 3.

***Clematis ‘Adam’s Courage’***

Clematis

6’H x 2’W. A multi-stemmed clematis vine offering early summer to early fall interest, extremely floriferous and long blooming. The plant sets masses of very full lavender to deep fuschia flowers with overlapping pointed petals and burgundy -tipped anthers.

***Clematis alpina ‘Blue Dancer’***

Clematis

6-10’H x 2’W. One of the first clematis to bloom in the spring, continuing into late spring. Masses of small, bell-shaped, sapphire blue flowers are adorned with creamy-white centers. Its sepals are an extraordinary 2” long making the blooms nod gracefully in the wind. Group 1.

***Clematis ‘Arabella’***

Clematis

3.5’H x 2-3’W. Beautiful, color-changing blooms provide a parade of summer color. Single flowers with slightly upturned sepal edges open to violet-blue, then develop mauve centers and gade to soft blue as they age. A non-vining, bushy, semi-herbaceous clematis. Herbaceous Group

***Clematis ‘Evipo039’***

Diamantina™ Clematis

6-8’H x 2-3’W. An exceptional, free-flowering clematis with 4-6” pom-pom like blue/purple double flowers. Diamantina has many flowers on each stem and each flower lasts up to 4 weeks. Repeat flowering throughout summer. Group 2.

***Clematis ‘Evipo026’***

Diana’s Delight™ Clematis

4-6’H x 2’W. Diana’s Delight has beautiful, rich blue flowers with light and dark tones and a creamy yellow center. This lovely clematis has a very free flowering habit. Blooms June through early September. Stunning. Group 2.

***Clematis x durandii***

Durand’s Clematis

3-10’H x 2-3’W. Rich bell-shaped indigo blue 5-6” flowers with white anthers. Long lasting flowers, blooms summer to fall. Group 3.

***Clematis ‘Guernsey Cream’***

Clematis

15-20’ H. Showy 5” cream-colored flowers with yellow anthers on short vines. One of the earliest to bloom and repeat too. Blooms June through October.

***Clematis ‘Jackmanii’***

Clematis

8-12’ H. Rich purple flowers. Blooms June-September. The first (1858) of the large-flowered hybrids.

***Clematis ‘Kilian Donabue’***

Clematis

8-12’H x 2-3’W. Early flowers open ruby red at the center of the flower, fading to brilliant fuschia and the orchid color at the edge of each petal. Its dancing white anthers are burgundy tipped. An early bloomer and repeat blooms throughout the summer. Group 2.

***Clematis ‘Mrs. N. Thompson’***

Clematis  
4-9’ H. Rich purple-blue petals with a vivid scarlet central bar, and dark red anthers and pale pink filaments. Blooms May- June, September.

***Clematis ‘Nelly Moser’***

Clematis  
6-10’ H. diameter pale bluish-pink flowers with reddish bar. Golden-brown stamens. Profuse bloomer. Beautiful seed heads. Blooms May - June, September. Group 2.

***Clematis ‘Rain Dance’***

Clematis  
42”H x 30”W. Incredibly large 2.5-3” outward facing indigo blue flowers with darker midribs and lighter margins. Although this is a non-vining Clematis, the plant will benefit from support, such as staking, an obelisk or from neighboring plants. Blooms Late spring through midsummer. Group 3.

***Clematis ‘Roguchi’***

Clematis  
6-8”H x 3-4”W. 2” bell-shaped flowers are intense deep blue/ purple with lighter blue recurved petals. Flowers fade to indigo-blue. Roguchi is a non-vining Clematis that plays well with shrubs, let it weave in and out of perennial plantings, or let it spill over a retaining wall. Flowers are fragrant. Blooms June-September. Group 3.

***Clematis ‘Evipo098’***

Boulevard® Sarah Elizabeth™ Clematis  
4-5’H x 2-3’W. This distinct attractive pink clematis almost seems to glow. The mass of flowers appear from late spring until late autumn. It produces flowers at the base of the plant and on new growth , often displaying a top to bottom show. Full sun to partial shade. Group 3.

***Clematis ‘Silver Moon’***

Clematis  
8-9’H x 2’W. Very large 6-7” Silvery mauve flowers, giving a most unusual colored clematis. flowers have creamy-white anthers, and the 6-8 petals overlap making a very full flower. Blooms June through late August. Does well in full to partial shade.

***Clematis ‘Stand by Me’***

Clematis  
34-38”H x 24-36”W. A wonderful display of nodding purple flowers trimmed in blue in early summer. Then in late summer find, glistening, thread-like creamy seed heads that rival the beauty of the blossoms. A non-vining herbaceous Clematis that dies back to the ground at the end of the growing season. Benefits from staking, cages or neighboring plants for support. Group 3.

***Clematis ‘Stand by Me Pink’***

Clematis  
38-42”H x 24-26”W. Compared with traditional vining clematis, ‘Stand By Me Pink’ is completely herbaceous, restarts from the ground each year. Flowers will appear profusely beginning in late spring, peaking in early summer, continuing to show color until fall.

***Clematis viticella ‘Betty Corning’***

Clematis  
5-6’H x 2-4’W. This clematis has a profusion of fragrant, nodding, bell-shaped, soft lavender-blue flowers, 2” across, adorned with recurved tips and yellow anthers. Blooming freely from midsummer to fall, this charming clematis will produce dozens of vining stems clothed with bipinnate to pinnate-compound dark green leaves. Group 3.

***Clematis ‘Warszawska Nike’***

Clematis  
8-12’ H. Rich royal purple flowers with golden stamens. Blooms June-September.

***Coreopsis grandiflora ‘Early Sunrise’***

Tickseed  
18” H. Semi-double golden-yellow flowers. June-Sept.

***Coreopsis verticillata ‘Moonbeam’***

Threadleaf Tickseed  
18” H. Soft yellow flowers appear singly on short stalks continuously blooming from early summer right into fall.

***Coreopsis verticillata ‘Zagreb’***

Threadleaf Tickseed  
12-18”H x 14-18”W. Blossoms appear on pure green slender foliage and continuously bloom from early summer right into fall.

***Coreopsis ‘Jethro Tull’***

Tickseed  
12-18” H. The fluted yellow petals, compact habit, and long bloom time make this Coreopsis a brilliant performer.

***Delphinium elatum ‘Light Blue White Bee’***

Delphinia™ Dwarf Larkspur  
14-18”H x 14-18”W. This dwarf selection features soft powder blue flower spikes with a bold white eye or bee. Removing faded spikes at the base will encourage repeat blooming in fall. Zones: 4-8

***Delphinium ‘Coadelpnk’ Mystery Sensation***

Highlander™ Larkspur  
2-4’H x 1-2’W. Delphinium Highlander ‘Mystery Sensation’ - Delphinium Highlander ‘Mystery Sensation’ is a larkspur with ruffled, fully double flowers in soft shades of pink with yellow centres. Zones: 3-8

***Delphinium ‘Sweet Sensation’***

Highlander™ Larkspur  
30-40”H x 16-20”W. Stately spires of flowers in Mid-Summer, over a mound of deeply-cut green leaves. This compact variety has frilly blooms of bright mauve-purple, kissed with blue-green. Zones: 3-7

***Delphinium ‘Magic Fountain Dark Blue Dark Bee’***

Larkspur  
24” H. Dark blue shades with blue-black bees. Toxic.

***Delphinium ‘Magic Fountain Sky Blue White Bee’***

Larkspur  
30-36” H. Sky blue flowers with white bees. Toxic.

***Dianthus ‘Feuerhexe’***

(Firewitch) Cheddar Pinks  
8” H. Dense blue foliage under bright raspberry-red flowers. Clove-like fragrance. Excellent as a border edger or ground cover for sunny slopes. Cut back spent flowers to promote rebloom. Good for rock gardens.

***Dianthus ‘Frosty Fire’***

Pinks  
4-6” H. Double cherry-red flowers flecked with white. Blue-grey dwarf foliage. Long flowering period. Good for rock gardens.

***Dianthus ‘Kahori’***

Pinks  
6-12” H. Compact mound of grey-green foliage topped with pink flowers in spring continuing sporadically through most of the summer. Full sun. Attracts butterflies. Deer resistant. Good for rock gardens.

***Dianthus deltoides ‘Zing Rose’***

Maiden Pinks  
6” H. Cerise-scarlet flowers cover low, dense green foliage. Long blooming. Summer. Dwarf habit. Well drained soils. Tolerates shade. Good for rock gardens.

***Dictamnus albus***

Gas Plant  
2-3’H x 18-30”W Hardy, ornamental, late spring-flowering perennial. Lightly fragrant, white flowers in late spring; dark green foliage emits lemony scent if crushed. Star-shaped seed pods.

***Dictamnus albus ‘Purpureus’***

Pink Gas Plant  
2-3’ H. Plants form a bushy, upright clump of lemon-scented, glossy green leaves. Spikes of spidery-looking mauve-pink flowers appear in early summer.

***Digitalis purpurea ‘Candy Mountain’***

Foxglove  
Rosy-pink flowers face upward on strong stems that withstand wind and rain. Attracts hummingbirds and resists deer! June-July. Toxic. Biennial.

***Digitalis x mertonensis***

Foxglove  
2-3’ H. Very large rose to coppery flowers. Big velvety foliage. Divide often. June-July. Toxic. Biennial.

***Echinacea ‘Sundown’***

Big Sky™ Coneflower  
2-3’ H. Deep burnt-orange petals surrounding a large cinnamon brown button-shaped cone.

***Echinacea ‘Evan Saul’***

Big Sky™ Sundown Coneflower  
2-3’ H. Deep burnt-orange petals surrounding a large cinnamon brown button-shaped cone.

***Echinacea ‘Echor273’***

Butterfly™ Orange Skipper Coneflower  
16-18” H. A swift grower, named after the Orange Skipper butterfly, the bright tangerine-orange single flowers bloom on compact, sturdy plants.

***Echinacea ‘Cheyenne Spirit’***

Coneflower  
18-30” H. Fiery tones of red, orange, and yellow, this drought-tolerant perennial ignites the garden from summer to fall. Cheyenne Spirit is deer-resistant and makes gorgeous summer bouquets.

***Echinacea ‘Coral Craze’***

Eye-Catcher® Echinacea  
26-28”H x 26-28”W. ‘Coral Craze’ has large, 5” vibrant coral pink flowers mature to lavender pink with wide petals. Dark, near black stems have a matching dark cone.

***Echinacea ‘Balsomemyim’***

Sombrero® Lemon Yellow Improved Echinacea  
18-20”H x 22-24”W. Rich yellow flowers with a copper cone are produced on very well-branched, sturdy plants.

***Echinacea ‘Balsomsed’***

Sombrero® Salsa Red Coneflower  
24-26”H x 16-22”W. Salsa Red produces softly fragrant, spicy orange-red blossoms with an orange-brown cone. The petals overlap, giving the flowers a fuller, more polished look. They are freely produced from early through late summer.

***Echinacea ‘Tnechkio’***

KISMET® Intense Orange Coneflower  
16-18”H x 24”W. An exceptional performer, with amazing amounts of vibrant flowers that just keep coming. Blooms early summer and continues until a hard frost. The compact size is perfect for the front of sunny borders, meadow gardens, or container plantings.

***Echinacea ‘Tnechky’***

KISMET® Yellow Coneflower  
16-18”H x 24”W. Golden yellow frayed petal skirts downturn slightly and twirl around green buttons that mature to golden pyramidal cones. Exceptional crown count.

***Echinacea ‘CBG Cone 2’***

Pixie Meadowbrite™ Coneflower  
24”H Has light pink rays that do not droop with large flattened orange-bronze central cones. A compact and reliable purple coneflower (Tennessee coneflower hybrid).

***Echinacea ‘Balsamador’***

Sombrero® Adobe Orange Coneflower  
18-20”H x 18-20”W. Toasty orange flowers with orange-bronzed cones don the warm hues of the western desert at sunset. Newly emerging flowers are vibrant orange. Prolific early flowering on strong stems; they complement yellow, blue and purple flowers. Long blooming!

***Echinacea purpurea ‘Pas709018’***

PowWow® White Coneflower  
18-24”H x 12-16”W. Dazzling clean white petals are extra wide and surround a large golden yellow cone. Echinacea Pow Wow White will rebloom without deadheading, but trimming will keep it tidy. Cheerful and bright! Zones: 3-9

***Echinacea purpurea ‘Pas702917’***

PowWow® Wild Berry Purple Coneflower  
16-20”H x 12-16”W. ‘PowWow® Wild Berry’ is a new improved variety of Purple Coneflower bred for its darker red-purple flowers and compact floriferous growth habit. This is an outstanding long blooming variety. Zones: 4-9

***Eutrochium purpureum ‘Baby Joe’***

Joe-pye Weed  
3-4’ H. An exceptionally dwarf cultivar of a species of our native Joe-Pye weed. It has the familiar large domes of lavender-pink flowers that attract lots of butterflies in late summer and early fall.

***Echinops bannaticus ‘Blue Glow’***

Globe Thistle  
3-4’H x 2’W. A member of the Aster family, Echinops is a clumping perennial that is very easy to grow but not invasive. Beginning in early summer, intense blue spheres measuring 1.5” across appear on tall, unbranched stems. Bumblebees and nocturnal moths delight in their sweet nectar. Zones: 3-8

***Echinops ritro***

Southern Globe Thistle  
2-3’ H. Globular metallic-blue flower heads. June-Sept.

***Echium amoenum***

Red Feathers  
10-16”H x 6-8”W. A native to the Caucasus Mountains in a small section of northern Iran, Echium amoenum (Red Feathers) is a beautiful, xeric, small growing wildflower with unusual russet-red flower spikes that resemble Liatris. Bee Friendly, attracts Hummingbirds, deer resistant, rabbit resistant, long bloom time. Zones: 3-9

***Eryngium planum ‘Blue Hobbit’***

Sea Holly  
8-12”H x 6-12”W. Completely engulfed in steel blue thistle-like flowers in midsummer Eryngium Blue Hobbit will add texture to bouquets, borders, and containers. Foliage is deeply toothed and blue-green. Hardy and long lived. Zones: 4-8

***Eutrochium purpureum ‘Baby Joe’***

Joe-pye Weed  
3-4’ H. An exceptionally dwarf cultivar of a species of our native Joe-Pye weed. It has the familiar large domes of lavender-pink flowers that attract lots of butterflies in late summer and early fall.

***Eutrochium dubium ‘Little Joe’***

Joe-pye Weed  
3-4’ H. Dwarf cultivar of a species of our native Joe-Pye weed. It has the familiar large domes of lavender-pink flowers that attract lots of butterflies in late summer and early fall.

***Eutrochium maculatum ‘Phantom’***

Joe-pye Weed  
4-6’ H. Pinkish-purple flowers, 9 to 15 per head. Purple speckled and mottled stems. Aug-Sept.

***Ageratina altissima ‘Chocolate’***

Snakeroot  
35-45”H x 29-35”W. Outstanding selection has dark bronzy-brown leaves in spring and summer, gradually turning green when the autumn display of fuzzy white flower clusters begins. Useful in shady situations and will even tolerate dry shade under deciduous trees once plants are established.

***Euphorbia epithymoides ‘Bonfire’***

Cushion Spurge  
12-18” H. A perennial growing into a dense clump. Spreads slowly. Purple, red, and orange-toned foliage accented with chartreuse. Color lasts all season. Yellow bracts in early spring.

***Filipendula rubra ‘Venusta’***

Queen-of-the-prairie  
48” H. Wide heads of pink flowers. Fragrant. June-Aug.

***Gaillardia ‘Arizona Red Shades’***

Blanket Flower  
Compact, nearly everblooming gaillardia in the classic colors (red with yellow edge). Self-sows.

***Gaillardia ‘Arizona Sun’***

Blanket Flower  
Compact, nearly everblooming gaillardia with golden flowers, self-sows.

***Gentiana septemfida***

Summer Gentian  
4-6”H x 12-18”W Forms a low, trailing mound of deep green, with cobalt-blue trumpet flowers appearing among the leaves in mid to late summer.

***Geranium pratense ‘Midnight Reiter’***

Meadow Cranesbill  
6-12” H. This cultivar has a short, mounded habit and dark leaves. Bright lilac-blue blossoms appear in spring and pinching back after flowering encourages more blooms in fall and helps maintain its neat habit. Good for rock gardens.

***Geranium macrorrhizum ‘Bevan’s Variety’***

Cranesbill  
8-12”H x 18-24”W. Bright fragrant magenta-pink blossoms with conspicuous veining and decorative deep red sepals highlight dense mounds of pine-scented foliage. The bronze and red fall foliage provides continued seasonal interest. Zones: 3-8

***Geranium sanguineum ‘New Hampshire Purple’***

Bloody Cranesbill  
12” H. Reddish-purple to pale pink flowers. Dense mat of deeply divided leaves. June-Sept.

***Geranium x cantabrigiense ‘Biokovo’***

Cranesbill  
12” H. White petals with tinge of pink. Lovely succession of bloom. Valuable for border or ground cover. June-July. 2015 Perennial of the Year.

***Geranium ‘Brookside’***

Cranesbill  
12-18” H. Large, cup-shaped, purple-blue flowers have dark purple veins and white centers. Compact habit and long summer bloom period.

***Geranium x johnsonii ‘Johnson’s Blue’***

Cranesbill  
18” H. Excellent long flowering hybrid with very large brilliant-blue flowers. Easy to grow. Heat tolerant. May-Aug.

***Geranium ‘Gerwat’***

Rozanne® Cranesbill  
18” H. Perennial Plant of the year in 2008 and a star performer as a continually flowering, blue-flowered perennial (great for pollinators too!), It sprawls along the ground so makes a great filler in the perennial border.

***Geum ‘Borisii’***

Avens  
12” H. Brilliant orange 1/2” flowers carried on leafy stems. Likes well-drained soil, sun. Good ground cover. Early summer.

***Geum ‘Tngeupp’***

Pretticoats™ Peach Avens  
“10-12””H x 10-12””W. Semi-double peach flowers shine in full sun gardens! Re-blooms all summer long - perfect for cut flowers. Pollinator-friendly, deer resistant, and easy to grow. Compact habit for smaller spaces. Zones: 4-9”

***Geum ‘Double Bloody Mary’***

Avens  
14-16”H x 12-18”W. Forms a low clump of coarse green leaves, with branching stems held above bearing, saucer shaped dark red blooms throughout the summer. They look a bit like old fashioned roses.

***Gillenia trifoliata***

Bowman’s Root  
2-3’ H. Upright, clump-forming, somewhat bushy perennial. Features masses of slender, 5 petaled, star-like, 1” white flowers on red stems in late spring to early summer.

***Helenium autumnale ‘Salsa’***

Mariachi™ Sneezeweed  
18-20” H. Bright red flowers surrounding a golden/chocolate center. Full sun. Attracts butterflies and hummingbirds. Deer resistant.

***Heliopsis helianthoides var. scabra ‘Bleeding Hearts’***

Oxeye, False Sunflower  
36-40”H x 36-40”W. Prized as the first seed strain of Heliopsis without yellow on its flowers, this blooms from July until frost. The new flowers emerge intense orange red and mature to golden orange with red centers. Deep green leaves with bronze highlights and black flower stems complete the look. A taller plant suitable to the middle or back of the border. Zones: 3-9

***Heliopsis helianthoides var. scabra ‘Sommersonne’***

Oxeye, False Sunflower  
30-48” H. Soft-yellow, daisy-like flowers. Summer through fall.

***Hemerocallis ‘Bela Lugosi’***

Daylily  
33-36”H x 18-24”W. Widely regarded as one of the best purple daylilies on the market. 6” saturated true purple flowers with a lime-green throat. Very sunfast for such a dark color. A strong grower, well-branched and heavily budded.

***Hemerocallis ‘Bettylen’***

Reblooming Daylily  
22”H x 18-24”W. A compact perennial boasting a profusion of midseason blooms that are large 5 “burgundy-purple flowers with ruffled yellow edges and a green throat. Strong tetraploid that is compact and reblooms. Zones: 3-9

***Hemerocallis 'Blood Sweat and Tears'***

Rainbow Rhythm® Daylily

28"H x 18-24"W. 'Blood, Sweat and Tears' is aptly named to reference the years of hard work by renowned breeder Karol Emmerich to find a truly exceptional red daylily. Massive 6" raspberry red flowers are complemented by a wide rosy pink eye that leads to a yellow throat. A thin white margin edges each petal. Flowers are held on proportionate scapes, just above the foliage. There are no hardiness concerns with this red daylily as it was bred and selected in Minnesota.

***Hemerocallis 'Primal Scream'***

Daylily

34"H x 18-24"W. Produces a profusion of vibrant tangerine blossoms with slightly ruffled, recurved petals and soft green throats. Wow! Each flower, up to 7.5 in. Blooming in mid-late summer.

***Hemerocallis 'Purple De Oro'***

Daylily

14-20" One of the longest blooming daylilies with show-stopping magenta-purple blooms with chartreuse yellow throats.

***Hemerocallis 'Rosy Returns'***

Daylily

14" The first hardy, reblooming pink daylily! Flowers are 4" across, fragrant, rose-pink blend with a deep rose eyezone and yellow throat.

***Hemerocallis 'Ruby Stella'***

Daylily

"Non-fading wine-red flowers bloom for five months! No deadheading required for continual blooms. Compact size makes it ideal for any garden. Easy to grow, perfect for beginners. Zones 3-9, sun, 18" tall x 18" wide at maturity.

***Hemerocallis 'Simmons Overture'***

Daylily

24"H x 24-30"W. A super bloomer! The prelude of lavender-rose 6" flowers in summer donned with satiny deep-plum eyes and matching ruffled edges will conclude with an exuberant encore performance of blooms later in the season. Foliage is semi-evergreen. A tetraploid adapts to a wide range of growing conditions and was selected for its abundance of blossoms, vibrant color, and soils. Zones: 3-9

***Hemerocallis 'South Seas'***

Daylily

30"H x 18-24"W. 5" coral-tangerine tepals with a reddish-coral band and yellow throat; very distinctive coloring. Smooth, rounded petals with beautifully ruffled edges. Multiple branching with 30-35 buds. Vigorous grower with healthy foliage. Award winner. Zones: 3-9

***Hemerocallis 'Stella de Oro'***

Daylily

11" H. Starts blooming in June and continues throughout the summer if seed pods are removed and if grown in rich, fertile soil. Golden-yellow flowers. Early to Late Season.

***Hemerocallis 'Stella Supreme'***

Daylily

14"H x 14-20"W. Similar in blooming behavior as the ever-popular 'Stella de Oro', but differs in terms of flower color and flower shape. 'Stella Supreme' has lemon yellow flowers, similar in color to 'Big Time Happy', but with a smaller sized flower. The triangular-shaped flowers have a strong citrus smell. Starts blooming in early summer and re blooms until frost. Zones: 3-9

***Hemerocallis 'Sunday Gloves'***

Daylily

25-27" H. Near white daylilies. Fragrant, 5½" flowers have pale yellow eyes and slightly green throats. Early Mid-season.

***Hibiscus moscheutos 'Disco Belle Rosy Red'***

Hardy Hibiscus

24-30" H. Flowers feature rosy red petals surrounding a prominent and showy creamy white to pale yellow central staminal column. Blooms July to September.

***Hibiscus moscheutos Disco Belle Mix***

Hardy Hibiscus

24-36"H x 24-36"W. Adds a tropical look to beds and containers! Dinner-plate sized blooms start flowering when plants are only 14-in. tall and continue until they reach maturity. Compact plants do well where summers are short and are perfect for large pots and containers.

***Hibiscus moscheutos Disco Belle White***

Hardy Hibiscus

24-30" H. Flowers feature white petals with a maroon eye surrounding a prominent and showy white to pale yellow central staminal column. Blooms July to September.

***Hibiscus moscheutos 'Pink Clouds'***

Hardy Hibiscus

4-5' H. Large, deep-pink flowers. Blooms over a long period through the heat of summer; mature leaves the size, color and shape of Norway maple leaves. Reliable and showy!

***Hibiscus moscheutos 'Berry Awesome'***

Summerific® Hardy Hibiscus

4'H x 4.5-5'W. 'Berry Awesome' has huge 7-8" wide lavender pink flowers and red eye, with contrasting deep midnight green foliage. Flowers are produced from the top to the bottom of the plant, rather than just at the top like some other cultivars.

***Hibiscus moscheutos 'Holy Grail'***

Summerific® Hardy Hibiscus

4-5'H x 4.5-5'W. Incredible dark, near-black foliage of beautiful, oval shaped leaves. Rich, deep red flowers are enormous at 8-9" across. The red and black colors perfectly complement each other. As an added bonus, once the flowers are finished, bright green calyxes starkly contrast the dark foliage.

***Hibiscus moscheutos 'Starry Starry Night'***

Hardy Hibiscus

3.5'H x 3.5-4'W. 'Starry Starry Night' will steal the spotlight in your sunny landscape with its incredibly floriferous show in late summer. Incredibly dark, near-black, broad, maple-like leaves form an upright clump in the landscape. 7-8" flowers are pale pink with darker pink speckling and veining. Flowers are produced from the top to the bottom of the plant, rather than only at the top like some older cultivars.

***Hylotelephium cauticola 'Lidakense'***

Pink Stonecrop

12" H. Rounded, blue-green leaves, flushed with purple. Glistening pink star flowers appear in late summer, clustered at the ends of each stem. Good for rock gardens.

***Hylotelephium sieboldii 'Misebaya-nakafu'***

Variegated Stonecrop

4-6" H. Pink flowers. Grey foliage with cream stripe in mid-leaf. Choice variety. Good for rock gardens.

***Petrosedum rupestre 'Angelina's Teacup'***

SunSparkler® Stonecrop

3-5" H. x 128-12"W. Mat-forming with an abundance of very fine, needle-like foliage that retains its bright chartreuse yellow color all summer long and in cooler weather, bright shades of orange and red appear. Great for rockeries, gravel gardens and containers. Full sun. Zones: 4-9

***Hylotelephium 'Autumn Fire'***

Stonecrop

12-24"H x 12-24"W Rich rosy-pink flowers age to coppery red atop the sturdy stems for stunning late season color. An improvement over the popular 'Autumn Joy'.

***Hylotelephium 'Cosmic Comet'***

SunSparkler® Stonecrop

4"H x 18"W. Beautiful blue succulent foliage with raspberry pink flowers appearing in profusion in late summer. These blooms attract a flurry of activity with pollinators visiting by the dozens! Low growing mounding Sedum are a great selection for rock gardens, slopes, borders, and containers. Zones: 3-9

***Hylotelephium 'Dazzleberry'***

SunSparkler® Stonecrop

6-8"H x 18"W Blooming earlier than most, with brilliant raspberry colored flower clusters that are up to nine-inches in diameter! Smoky blue-grey foliage from spring through fall.

***Hylotelephium 'Dazzling Dynamite'***

SunSparkler® Stonecrop

6-8"H x 6-18"W. A sport on the ever-popular 'Plum Dazzled' boasting variegated foliage in fiery hues of red, orange and yellows in mid summer through fall. Zones: 4-9

***Hylotelephium 'Dream Dazzler'***

SunSparkler® Stonecrop

6-8"H x 6-18"W. A hardy succulent plant with new growth that emerges pink, white, and purple, maturing to dark purple with hot pink edges in summer sun. Masses of magenta flowers attract butterflies. Zones: 4-9

***Hylotelephium 'Firecracker'***

SunSparkler® Stonecrop

6-8"H x 16-18"W Brilliant burgundy-red sedum clusters all season long with soft pink flowers in late summer.

***Phedimus spurius 'Fuldaglut'***

Stonecrop

6-8"H x 12-18"W Semi-evergreen, bronze fleshy leaves turning burgundy in the fall. Spreading habit producing abundant runners that root wherever they touch soil. Blooms pink flowers in late summer.

***Hylotelephium 'Jade Tuffet'***

SunSparkler® Stonecrop

14"H x 18"W. The groundcover type of Stonecrop that is the perfect size for growing at the front of a sunny border or for edging pathways. It forms a low, ultra compact mound of fleshy, narrow green leaves, bearing clusters of large, dark pink flower heads late summer through fall. Great mass planted on slopes, green roof systems or as a groundcover in other sunny areas. Excellent in containers. Flowers are attractive to bees and butterflies. Zones: 4-9

***Hylotelephium 'Lime Twister'***

SunSparkler® Stonecrop

4-6"H x 12-24"W. Mat-forming with an abundance of lime green leaves adorned with creamy yellow edges. Very dense and well-branched, this sedum selection does not spit open in summer and creates a colorful, weed-suppressing ground cover when planted en masse. sitting atop short, upright stems, clusters of small, soft pink, starry flowers appear in late summer to early fall. A great variety for rockeries, gravel gardens and containers. Flowers are attractive to bees and butterflies. Zones: 4-9

***Hylotelephium 'Lime Zinger'***

SunSparkler® Stonecrop

4-6"H x 12-18"W. A succulent groundcover, with fantastic lime green leaves edged in bright cherry red. In late summer, soft pink flower clusters dance just above a dense colorful mat of disease-free foliage. This colorful, drought resistant workhorse is a perfect choice for mixed containers and mass plantings. Zones: 4-9

***Hylotelephium 'Pldaz2018' Plum Dazzled***

SunSparkler® Stonecrop

6-8"H x 16"W. Noted for its stunning color all season long. Mat-forming with an abundance of fleshy dark purple leaves. Very dense and well-branched, does not split open in summer and creates a colorful, weed-suppressing ground cover when planted en masse. Clusters of large, cherry, starry flowers appear in late summer to early fall. Great for rockeries, gravel gardens and containers. Zones: 4-9

***Hylotelephium 'Sapphire Tuffet'***

SunSparkler® Stonecrop

10-12"H x 10-12"W. Dark smokey-blue leaves with thin 1/2" serrated edges. In early summer, this ultra-hardy sedum almost looks like a purple boxwood! 'Sapphire Tuffet' produces a riot of hot pink flowers in late summer/early fall attracting pollinators! Zones: 3-9

***Hylotelephium 'Wildfire'***

SunSparkler® Stonecrop

6"H x 15-18"W This tough, trouble-free Sedum will turn lots of heads from spring through fall with its ruby-red foliage edged in pink.

***Iris pallida 'Argentea Variegata'***

Variegated Sweet Iris

3' H. Bearded flowers lavender-blue to white. Fragrant. Silvery, variegated foliage. May-June.

***Iris sibirica 'Caesar's Brother'***

Siberian Iris

36" Spiky foliage is a great vertical element in the garden, but the deep purple flowers with yellow accented falls steal the show in early summer.

***Iris sibirica 'Purring Tiger'***

Siberian Iris

18-20"H x 18-24"W. Dusty lavender flowers sit above golden yellow petals. The golden yellow petals are lined with purple veining that matches the heart of the flower. 'Purring Tiger' is compact for Siberian Iris, standing about a foot and half tall. Expect this mid season bloomer to roar to life as it flowers in early summer.

***Iris 'Batik'***

Border Bearded Iris

24"H x 24"W. Batik German iris is all about the mesmerizing color pattern on the flower petals. The royal purple flowers are streaked with irregular blotches of white. Its flowers are produced over a period of about one month are also fragrant.

***Iris 'Black Gamecock'***

Louisiana Iris

2-3'H x 2"W. If you're new to Louisiana Irises, this is the right place to start! Known for having "outrageous vigor", multiplying quickly when sited properly in consistently moist to boggy soil or shallow water. Blooming reliably each year, huge 4-6" blossoms open flat to display their regal velvety deep purple flowers with the narrowest gold signal on each petal.

***Iris 'Edith Wolford'***

Tall Bearded Iris

2-3'H x 1-2"W. 'Edith Wolford' iris is an award winning bearded iris that has received the prestigious Dykes award. It has a creamy center and light purple petals. Zones: 3-9

***Iris ensata 'Harlequinesque'***

Dinner Plate™ Japanese Iris

"16-32""H x 18-24""W. White splashed irregularly with blue and fuchsia. Bright yellow throat. The Dinner Plate Series is brand new, superior breeding with huge crepe paper-like flowers that are 8-9" across at least! Blooming around Memorial Day is almost guaranteed. These are a stunning group of moisture-loving plants that can be planted at the water's edge. Great for cut flowers! Zone: 4

***Iris 'Mariposa Autumn'***

Tall Bearded Iris

32" Ruffled rosy violet plicata (white flowers with colored edges) with vigor, floriferousness and strong rebloom!

***Iris 'Savannah Sunset'***

Tall Bearded Iris

34"H x 18-24"W. Sweet and lovely with a fragrance to match, Peggy Sue is reminiscent of crinolines and pearls. Gentle, light pink standards top paler, finely shaped falls highlighted by mandarin-red beards in this darling barely bitone. Zones: 3-7

***Iris 'Sharp Dressed Man'***

Tall Bearded Iris

36" Smooth black-violet falls and extremely attractive purple standards spells infatuation to the iris lover. Sweetly fragrant!

***Iris 'That's All Folks'***

Tall Bearded Iris

40"H x 24-36"W. A ray of sunshine in the spring garden, multiple award-winning Iris 'That's All Folks' is an incredibly eye-popping Tall Bearded Iris with giant, ruffled and laced flowers of brilliant gold. Gold standards, gold beards and gold falls delicately splashed with white in their center. It is a must have for any iris collection!

***Iris versicolor 'Purple Flame'***

Blue Flag Iris

2-3"H x 2"W. A hardy perennial that forms nice patches of distinctive narrow pointed leaves. In early summer, lovely blue flowers sit atop the foliage. Excellent for naturalizing around ponds, lakeshores, or any low wet areas. Looks great when potted and sunk into the water garden.

***Lavandula x intermedia 'Niko'***

Phenomenal™ Lavender

30-32"H x 24-32"W. A French hybrid lavender notable for its cold hardiness and tolerance to heat and high humidity. The plants grow into a beautiful mounded shape, with purple flowers on tall stems in midsummer.

***Leucanthemum x superbum 'Alaska'***

Shasta Daisy

2' H. Large, single white flower. June-July.

***Leucanthemum x superbum 'Becky'***

Shasta Daisy

3' H. Long lasting, large 2 1/2-3" dia. single white flower. Mid-late summer.

***Leucanthemum x superbum 'Snowcap'***

Shasta Daisy

12-24"H x 10-12"W. A herbaceous perennial valued for its abundant floral display and compact size. It produces a sea of large, pure white daisy flowers with golden yellow centers, 2-3" across, atop a lush mound of medium to dark green foliage.

***Lewisia 'Little Peach'***

Bitterroot

4-6"H x 6-8"W. Forms low tough evergreen leaves, bearing large star-shaped apricot-peach flowers, kissed with soft yellow. Inclined to repeat flower in the autumn.

***Lewisia 'Little Plum'***

Bitterroot

4-6"H x 6-8"W Forms low tough evergreen leaves, bearing large star-shaped cotton-candy pink flowers touched with salmon. Inclined to repeat flower in the autumn.

***Liatris spicata 'Floristan Violet'***

Blazing Star

3-4'H x 16-20"W. Prized for its fluffy wands of bright violet-purple flowers, a perennial of great ornamental value. Flowering succession from the top to bottom over 4 weeks and more, the tufted flower heads contrast nicely with the finely textured, grassy foliage, Attractive to bees, butterflies and hummingbirds.

***Liatris spicata 'Floristan Weiss'***

Blazing Star

3-4'H x 16-20"W. Pristine white spires glow against a deck or along pathways. Feathery tufted flower heads are arranged in long dense spikes and flower in succession from top to bottom. Butterflies and bees will be delighted you chose this enchanting variety.

***Liatris pycnostachya***

Prairie Blazing Star

Prairie Blazing Star is an iconic prairie flower with a spectacular spike of tightly bunched lavender flowers. The lavender tufted flowers begin blooming at the top and work their way down the single stem. Liatris pycnostachya grows well in both moist soils and in clay. Good plant growth requires both sun and adequate moisture.

***Liatris spicata 'Alba'***

White Blazing Star

24-36" H. Spikes of densely packed, pure white flowers in July and August. 'Floristan White' provides a cool contrast to hot-headed summer blooms.

***Linum lewisii***

Blue Flax

2-3'H x 12"W Flowers are pale blue, with 5 petals about 1-1 1/2 inches across, veined in darker blue. Each stem produces several flowers, blooming from the bottom upward. MN Native.

***Lobelia cardinalis***

Cardinal Flower

3' H. Green foliage, scarlet spikes. Hardier than 'Queen Victoria.' MN Native.

***Lobelia siphilitica***

Great Blue Lobelia

24-36"H x 12-18"W. Perfect for the late summer garden. This upright perennial native produces long-lasting spikes of bright blue flowers atop a finely-toothed, lance-shaped foliage. The nectar and pollen of the flowers attract hummingbirds and bees.

***Lobelia x speciosa 'Fan Scharlach'***

Cardinal Flower

24" H. Compact habit, shiny bronze foliage, upright spikes scarlet flowers in midsummer. Attracts butterflies. Deer and rabbit resistant.

***Lupinus 'Gallery Blue'***

Lupine

18-24"H x 18-24"W. Indigo color blooms appear in early summer. Pollinators are drawn to the nectar-rich spires of densely-packed pea-shaped blossoms, but deer and rabbits leave them alone.

***Lupinus ‘Gallery Red’***

Lupine  
18-24”H x 18-24”W. Crimson red spires covered in tightly-packed, pea-shaped blooms. Ignored by deer and rabbits, but adored by butterflies, bumble bees and hummingbirds. Blooms in the earlier half of the season.

***Lupinus Staircase™ Blue***

Lupine  
18-24”H x 18-24”W. Showy, dense flower spikes of lavender-blue add a colorful vertical accent to perennial beds. Unlike most lupine, the Staircase™ series doesn’t require cool temperatures to flower, making it a great selection for warmer climates. An excellent cut flower. Herbaceous. Zones: 4-8

***Lupinus Staircase™ Orange***

Lupine  
18-24”H x 18-24”W. Tall spires of orange flowers emerge from rose coloured buds in late spring. Remove spent flowers to encourage new buds. The colourful spikes of Lupines are an unforgettable sight in the early summer border. Plants grow best in a deep, rich soil, slightly on the acidic side. This compact selection is part of the Staircase™ series which offers long lasting flowers with day neutral timing. Plants will bloom until night temperatures reach above 22C (72F). Zones: 4-8

***Lupinus Staircase™ Red***

Lupine  
18-24”H x 18-24”W. Dramatic two-toned flower spikes of red and white add a colorful vertical accent to perennial beds. Unlike most lupine, the Staircase™ series doesn’t require cool temperatures to flower, making it a great selection for warmer climates. An excellent cut flower. Herbaceous. Zones: 4-8

***Lupinus Staircase™ Yellow***

Lupine  
16-20”H x 16-20”W. Staircase® Yellow Lupine is a low growing hybrid Lupine that is part of the Staircase® series of perennials. It will tolerate warmer climates than other cultivars, and it will produce beautiful yellow flower spikes in late spring and bloom until night temperatures are above 72 degrees. Zones: 4-8

***Lupinus × regalis***

Russell Group Lupine  
12-36”H x 12-24”W. Creates a dramatic, colorful statement with tall flower spikes that bloom in a variety of shades. Resistant to deer, the colorful blooms call to be cut and brought inside for summer arrangements.

***Lupinus ‘Tutti Frutti’***

Lupine  
31-40”H x 12-24”W. Tall, thick flower spikes come in a broad range of solid colors and bicolors.

***Monarda didyma ‘Balbeemed’***

Bee-Mine™ Red Bee Balm  
18”H x 18”W. Hot true red. Early-flowering. Compact, floriferous and highly mildew-resistant, these low-maintenance hybrids are bee-loved by pollinators, growers and gardeners alike. Colorful bracts complement and enhance the flowers’ hues.

***Monarda didyma ‘Coral Reef’***

Bee Balm  
30-36’ H. Neon coral-pink flowers.

***Monarda ‘Electric Neon Purple’***

Bee Balm  
22-24”H x 28-30”W. ‘Electric Neon Purple’ sports 3”, bright fuchsia purple flowers that are produced over a medium-sized habit of deep green leaves. Excellent resistance to common foliar diseases such as powdery mildew.

***Monarda ‘Fireball’***

Bee Balm  
15-20”H x 18-24”W. Fireball is a compact growing hybrid with a mid-summer display of bright scarlet-red flowers over glossy green foliage. Highly attractive to hummingbirds and butterflies.

***Monarda didyma ‘AChall’***

Grand Marshall™ Bee Balm  
24”H x 20”W. Monarda didyma ‘Grand Marshall’ features fluffy clumps of red-fuchsia color petals resting atop a slender, leafy green stem. Attractive to butterflies, hummingbirds, and bees, Monarda ‘Grand Marshall’ has incredibly fragrant foliage and is noted for its resistant to mildew infestations.

***Monarda didyma ‘ACmum’***

Grand Mum™ Bee Balm  
15-18” H. Rounded, compact habit. Mauve-pink flowers and aromatic dark green foliage. Highly resistant to mildew.

***Monarda didyma ‘Acrade’***

Grand Parade™ Bee Balm  
12-18”H x 12-18”W. GRAND PARADE™ Bee Balm produces a profusion of lavender-purple flowers atop mid-sized, very compact, upright plants from mid through late summer. They add a fun element to fresh flower bouquets. This cultivar exhibits very good mildew resistance.

***Monarda ‘Leading Lady Pink’***

Bee Balm  
10-14”H x 22-24”W. Tuck this early blooming bee balm into the front of the flower border to create a colorful swath of bright pink flowers. Butterflies and hummingbirds will adore it!

***Monarda ‘Raspberry Wine’***

Bee Balm  
3-4’ H. Clear wine-red flowers. Disease resistant. Long flowering.

***Monarda ‘Pink Chenille’***

Upscale™ Bee Balm  
20-22”H x 18-22”W. ‘Pink Chenille’ has large, 3 1/2” fluorescent pink flowers. Excellent for landscape plantings and filling space in the middle of the border. Well branched stems support a second flush of flowers extending bloom season. Good mildew resistance.

***Monarda ‘Red Velvet’***

Upscale™ Bee Balm  
2’8”H x 3’W. Large cherry red flowers. The tallest variety in the collection. Newly emerging foliage has a bronze cast. Well-branched stems support a second flush of flowers that extends the length of bloom.

***Nepeta racemosa ‘Little Titch’***

Dwarf Catmint  
8-10” H. Compact, very long blooming Catmint with deep blue blooms. Aromatic, textured foliage is silvery blue green with deep veins. Good for rock gardens.

***Nepeta x faassenii ‘Novanepjun’***

Junior Walker™ Dwarf Catmint  
12-18”H x 24-36”W Blue-green foliage contrasts nicely with lavender-blue flowers from mid-May through September.

***Nepeta x faassenii ‘Kit Cat’***

Dwarf Catmint  
8-12” H. Grey-green leaves that are highly aromatic when crushed or bruised. Two-lipped blue flowers. Good for rock gardens.

***Oenothera macrocarpa***

Missouri Evening Primrose  
12” Lower Great Plains native with huge lemon yellow flowers and large papery seeds in fall. Grows in the hottest, driest spot as well as in good garden soil.

***Papaver ‘Beauty of Livermere’***

Oriental Poppy  
24”-30” H. Vibrant red flower with black centers.

***Papaver nudicaule***

Iceland Poppy  
12-18”H x 12-24”W. A lovely dwarf variety that showcases a mix of yellow, white, red, melon, and crimson blooms on short stems May through July.

***Papaver ‘Brilliant’***

Oriental Poppy  
36”H x 18”W. huge, bright scarlet-orange flowers features black blotches at the base of each petal. Plant blooms profusely in May and June.

***Papaver ‘Pizzicato’***

Oriental Poppy  
24-30”H x 18-24”W. Colorful mix of red, scarlet, orange, salmon, mauve, pink, and white blooms with their signature black dotted center. The dwarf habit and hearty stems allow the blooms to withstand extreme weather conditions and remain upright.

***Papaver ‘Prince of Orange’***

Oriental Poppy  
24”-30” H. Classic orange flower with black centers.

***Papaver ‘Royal Wedding’***

Oriental Poppy  
32” H. Pure white flower with black centers.

***Papaver ‘Prinzessin Victoria Louise’***

Oriental Poppy  
24”-30” H. Pink flower with black centers.

***Penstemon ‘Tnpendb’***

DAKOTA™ Burgundy Beard Tongue  
24” H. Produces spires of tubular flowers that attract hummingbirds. Lavender-violet bells are suspended above glossy, purple-black foliage.

***Penstemon grandiflorus***

Large-Flowered Beardtongue  
Penstemon grandiflorus, called large beard-tongue, is a prairie species that typically grows to 2-4’ tall. It is noted for its large, tubular, blue-lavender flowers and its hairless, broad-ovate leaves. Flowers (to 2” long) bloom in upright, open racemes in late spring.

***Penstemon digitalis ‘Husker Red’***

Beardtongue  
28-32” H. Burgundy colored foliage and tall spikes of pure white tubular flowers.

***Perovskia atriplicifolia ‘Blue Jean Baby’***

Russian Sage  
28-34”H x 36”W. Lavender blue flowers held in smoky purple calyxes bloom for a long period starting in midsummer, with the color from the calyxes extending appeal into fall. This variety is one of the earliest Perovskia to bloom.

***Perovskia atriplicifolia ‘Denim ‘n Lace’***

Russian Sage  
2.5’H x 3’W. ‘Denim ‘n Lace’ doesn’t get too tall, has stronger stems and a more upright habit than most older varieties. Lacy-like, bright sky blue flowers are held on amethyst calyxes. Its calyxes are spaced very close together to give the flowers a very full look. The colorful calyxes make it look like it is still in bloom even when it is past peak. You’ll have great color nearly all season long.

***Perovskia atriplicifolia* ‘Little Spire’**

Russian Sage  
24-36”H x 24-30”W. A shrubby plant dressed in cool colors with aromatic, gray-green foliage and pale blue flowers. It provides a mist-like quality to the garden. Little Spire has winter interest as well! Russian Sage blooms for over a month and displays color from summer to mid-fall. Cut back to 6-12” each spring before new growth begins.

***Phlox paniculata* ‘Blue Paradise’**

Garden Phlox  
40”H x 18-20”W Flowers open purple-blue with a small white center and deepen with age. ‘Blue Paradise’ has very fragrant flowers with lilac tones.

***Phlox paniculata* ‘David’**

Garden Phlox  
36-40” H. This tall selection has clear white heads, over a clump of dark green foliage. Sweetly fragrant as well.

***Phlox paniculata* ‘Uspek’ Laura**

Garden Phlox  
36” H. Dense, fragrant flowers of are deep lavender purple with a white eye.

***Phlox paniculata* ‘Düsterlohe’ Nicky**

Garden Phlox  
30-36” H. Fragrant, magenta-purple flowers, which are the darkest of all tall garden phlox.

***Phlox paniculata* ‘Barphflare’**

Flame™ Red Garden Phlox  
12-18” H. Bold, fragrant, conical red star-shaped flowers from early summer to early fall.

***Phlox paniculata* ‘Bartwenty-nine’**

Flame™ White Garden Phlox  
12-18” H. Large clusters of fragrant flowers having clear white petals, starting in midsummer.

***Phlox paniculata* ‘Cover Girl’**

Garden Girls® Garden Phlox  
38-42”H x 24-28”W. Admired for years because of its beautiful floral display. More importantly, ‘Glamour Girl’ is known for disease resistance, specifically mildew that often plagues Tall Garden Phlox. Has lavender purple flowers with a white halo at centers.

***Phlox paniculata* ‘Glamour Girl’**

Garden Girls® Garden Phlox  
32”H x 18-24”W. ‘Glamour Girl’ maintains bright green, healthy looking foliage on strong stems all summer, putting on a flower show in mid through late summer. Powers through hot, humid summers with ease and is one of the most powdery mildew resistant cultivars. Large panicles of hot coral pink flowers held on dark purple stems.

***Phlox subulata* ‘Emerald Blue’**

Creeping Phlox  
4-6” H. Fast-spreading, low-growing. Creates a carpet of pale lavender, bluish flowers in the spring. Good for rock gardens.

***Phlox subulata* ‘Emerald Pink’**

Creeping Phlox  
4-6” H. Fast-spreading, low-growing. Creates a carpet of pink flowers in the spring. Good for rock gardens.

***Phlox subulata* ‘Scarlet Flame’**

Creeping Phlox  
4-6” H. Creates a carpet of vibrant reddish pink flowers in spring.

***Physostegia virginiana* ‘Crystal Peak White’**

Obedient Plant  
16” H. This compact cultivar produces long-lasting, abundant snow-white blooms that sparkle against the deep green, toothed foliage. A polite spreader.

***Pulsatilla rubra***

Pasqueflower  
12” H. Rich red form of the pasqueflower. Mound of finely dissected foliage with flower stems bearing large red flowers. Good for rock gardens.

***Ratibida columnifera***

Red-flowered Prairie Coneflower  
15-24” H. Mexican Hat is the mahogany-red colored form of prairie coneflower that blooms from midsummer into fall. A good naturalizing wildflower. MN Native.

***Rudbeckia* ‘American Gold Rush’**

Black-eyed Susan  
24” H. Golden-yellow flowers with dark cones produced in abundance. Disease resistant. Late summer-fall.

***Rudbeckia fulgida* ‘Blovi’**

Viette’s Little Suzy Black-eyed Susan  
12-15” H. Golden-yellow flowers with dark cones. Disease resistant. Late summer-fall.

***Rudbeckia triloba* ‘Prairie Glow’**

Brown-eyed Susan  
36-48”H x 18-24”W Spicy burnt orange red 5” blooms tipped in glowing yellow surround a chocolate disk. Blooms sway on heavily branched burgundy stems. Cultivar of MN Native

***Salvia nemorosa* ‘Bumbleberry’**

Garden Sage  
10-12”H x 12-14”W. ‘Bumbleberry’ produces dark fuchsia pink flowers on dark wine purple calyxes atop a petite habit of attractive deep green foliage.

***Salvia x sylvestris* ‘Balsalarv’**

Blue Marvel Garden Sage  
10-12”H x 12”W Deep indigo flowers stand up to summer heat and low-water conditions once established. Long blooming.

***Salvia nemorosa* ‘Caradonna’**

Garden Sage  
18-24” H. Spires of intense violet-blue to deep purple flowers. Deep purple stems. Deadhead for longer blooming. June-July.

***Salvia x sylvestris* ‘Rose Marvel’**

Garden Sage  
10-12”H x 12”W Deep orchid-pink flowers stand up to summer heat and low-water conditions once established. Long blooming.

***Salvia x sylvestris* ‘Balsaskarv’**

Sky Blue Marvel Garden Sage  
10-12”H x 12”W. Bright violet-blue flowers stand up to summer heat and low-water conditions once established. Long blooming.

***Salvia* ‘Midnight Model’**

FASHIONISTA® Garden Sage  
22-24”H x 20-22”W. ‘Midnight Model’ has striking violet blue flowers are produced in a round, dense clump. An improvement over other blue Salvia on the market.

***Salvia nemorosa***

Sensation® Deep Blue Garden Sage  
12”H x 12”W. Well-branched and prolific blooming, these strong growers are valued for their tidy habit with lush spikes of violet opening to deep purple blue. Long blooming, heat and humidity tolerant. Truly a garden sensation. From the Salvia Sensation Series. Excellent in the front of the border or in a container.

***Salvia nemorosa* ‘Florsaldro’**

Sensation®Medium Deep Rose Garden Sage  
12”H x 12”W. Sensation® Deep Rose Salvia has masses of beautiful spikes of rose flowers with dark red calyces rising above the foliage from late spring to early fall, which emerge from distinctive hot pink flower buds, and which are most effective when planted in groupings. The flowers are excellent for cutting. Its fragrant narrow leaves remain grayish green in color throughout the season.

***Sanguisorba tenuifolia***

Burnet  
A tall graceful beauty for the August-September garden. Raspberry wine-colored bottle brush flowers on 4-6’ stems dance in the early morning light and are an attractive compliment to ornamental grasses.

***Sempervivum Cherries Jubilee***

Hens-and-chicks  
2-3”H. Bright red foliage appears in the spring, and as the months get warmer, the red deepens in color. Chick Charms® are a drought tolerant perennial.

***Sempervivum* ‘Urmina’**

Cosmic Candy™ Chick Charms® Hens-and-chicks  
2-3”H. Big on color as well as appearance, Cosmic Candy™ forms large rosettes that are a rich red color early spring into summer with a slightly cobwebbed center.

***Sempervivum Gold Crown***

Chick Charms® Hens-and-chicks  
2-3”H. Big on color as well as appearance, this stunning addition features deep burgundy petals with bright gold tips.

***Sempervivum* ‘Gold Nugget’**

Chick Charms® Hens-and-chicks  
2”H x 12”W. ‘Gold Nugget’ is a Golden color with red picotee edges during the cooler months, and bright green in summer months. Great addition for rock gardens, wall plantings, borders, ground covers. and patio planters. Grow in bright sun for best color.

***Sempervivum* ‘Blade of Steel’**

Grape Galaxy™ Chick Charms® Hens-and-chicks  
2-3”H. Grape Galaxy™ has silver-grey leaves edged in a deep purple-burgundy. Standing up to 3 inches tall and spreading up to 6 inches wide.

***Sempervivum Mint Chocolate Chip***

Chick Charms® Hens-and-chicks  
2-3”H. Mint Chocolate Chip forms a large rosette that is green with burgundy tips and as the weather cools, it transitions to deep burgundy with green tips.

***Sempervivum Copper Canyon***

Chick Charms® Giant Hens-and-chicks  
3”H x 10”W. Deep ruby tips of vibrant green leaves. These colors ebb and flow with the season. The finest color will be achieved when planted in a sunny location with excellent drainage.

***Sempervivum Emerald Explosion***

Chick Charms® Giant Hens-and-chicks  
3-5”H x 9-12”W. A large lime-green rosette with crimson blushing inching its way up the leaves. These leaves spread far, giving appropriateness to its name.

***Sempervivum Glacier Blue***

Chick Charms® Giant Hens-and-chicks  
3-5”H x 10”W. A stunning, silvery blue cultivar that can flush pink to purple. It is a medium to large rosette with short cilia lining its leaves and rippling watermarks.

***Sempervivum Gold Mine***

Chick Charms® Giant Hens-and-chicks

3-5”H x 9-12”W. A rosette of berry stained gold. The large size and dramatic colors of this plant will draw the eye wherever you want it in your garden.

***Sempervivum Maroon Mountain***

Chick Charms® Giant Hens-and-chicks

3”H x 10”W. the dark maroon rosettes of ‘Maroon Mountain’ bring tropical drama to the cold climate rock garden.

***Sempervivum Steel Appeal***

Chick Charms® Giant Hens-and-chicks

3”H x 10”W. The glowing russet heart of this Sempervivum is vividly set off by steely tips edged in finely feathered silver. These colors are dynamic with the seasons, so there is always a new side of this succulent to explore! To achieve the finest color and form plant in a sunny location with excellent drainage.

***Sempervivum Honeycrisp Twist™***

Chick Charms® TRIO

A selection of three Chick Charms® sempervivum varieties.

***Sempervivum Pot of Gold™***

Chick Charms® TRIO

A selection of three Chick Charms® sempervivum varieties.

***Sempervivum Raspberry Rush™***

Chick Charms® TRIO

A selection of three Chick Charms® sempervivum varieties.

***Sempervivum Strawberry Sunrise™***

Chick Charms® TRIO

A selection of three Chick Charms® sempervivum varieties.

***Sempervivum Sugar & Spice™***

Chick Charms® TRIO

A selection of three Chick Charms® sempervivum varieties.

***Silene chalcidonica***

Maltese Cross

36”H x 12”W Dazzling scarlet flowers form dense clusters on taller stems in summer. Heirloom flower.

***Solidago ‘Little Lemon’***

Dwarf Goldenrod

12-18” H. Compact with bright, light yellow flowers beginning in late summer and lasting well into fall.

***Stachys byzantina ‘Helen Von Stein’***

Lamb’s Ears

10”H x 12”W. Biggest leaved Lamb’s Ear around. Grown for its wonderful soft velvety, silver-green foliage, as it rarely flowers. Leaf shape and texture resemble a lambs ear which kids love to rub between their fingers. Takes heat well.

***Symphyotrichum novi-belgii ‘Alert’***

New York Aster

12”H x 14-18”W. ‘Alert’ Aster stays short, and will fill it’s space with a neat, low green tuft that bursts into bloom in late summer with deep purple to crimson, starry flowers.

***Symphyotrichum novae-angliae ‘Andenken an Alma Pötschke’***

New England Aster

Studded with hundreds of charming rosy pink daisies with bright yellow centers, this robust bloomer offers late summer color in the garden. Forms semi-woody clumps, is durable, and is long lasting. Perfect for borders, shrub beds or colorful containers. An herbaceous perennial.

***Symphyotrichum novi-belgii ‘Purple Dome’***

New York Aster

See: Symphyotrichum novae-angliae ‘Purple Dome.’

***Symphyotrichum novi-belgii ‘Zanasbluba’***

12”H x 12”W. Violet-blue flowers have petals so abundant, they almost form a pom-pom shape. Adds intense color to the late-season garden. Compact and bushy, filling out a container well on its own. Also excellent massed in a perennial bed.

***Symphyotrichum novae-angliae ‘Grape Crush’***

New England Aster

26-30”H x 40-42”W. Very rich purple flowers are produced above dark green foliage in early to mid fall. A perfect finale to the growing season.

***Symphyotrichum novae-angliae ‘Pink Crush’***

New England Aster

20-24”H x 34-38”W. Rose pink flowers produced above dark green foliage in early to mid fall. a perfect finale to the growing season.

***Aster ‘Wood’s Pink’***

Aster

1-2”H x 1-2”W A profusion of pink daisy-like blooms with yellow eyes appears in fall. Dark green foliage forms compact mounds.

***Thymus serpyllum ‘Elfin’***

Thyme

3-3”H x 3-12”W Low growing and tough, this Thyme is perfect planted in a rock path or a lawn alternative. Lavender-pink flowers emerge in early summer and attract pollinators to the garden.

***Thymus ‘Magic Carpet’***

Thyme

2” H. Creeping habit. Very small, hairy leaves with sweet, lemon scent. Carmine-pink flowers. May-July. Tolerates heat and drought conditions. Good for rock gardens.

***Thymus ‘Doone Valley’***

Thyme

2-4” H. Tiny deep pink flowers. Spicy lemony fragrance. Good ground cover. Good for rock gardens.

***Tradescantia ‘Concord Grape’***

Andersoniana Spiderwort

18-24” H. Rich purple flowers; frosty-blue foliage. June-October.

***Tradescantia ‘Sweet Kate’***

Andersoniana Spiderwort

18” H. Deep blue flowers. Vibrant golden-yellow grass-like foliage. Ideal for borders and woodland settings evenly moist.

***Trollius chinensis ‘Golden Queen’***

Globeflower

2’ H. Deep orange-yellow, cup-shaped flowers. Deeply lobed and toothed leaves. May-Aug.

***Veronica prostrata ‘Aztec Gold’***

Creeping Speedwell Veronica

4-6” H. Mounding clump of rich golden-yellow leaves, contrasting beautifully with the bright-blue flowers in late spring. Good for rock gardens.

***Veronica ‘Perfectly Picasso’***

Artist Series™ Spike Speedwell

22-26”H x 22-24”W. Paintbrush-like spikes produce white buds that open to medium pink flowers. The contrast between the buds and the flowers give this plant a unique bicolor look. Attractive flowers cover the top ½ of the plant, showing off its healthy medium green leaves on a beautifully rounded habit. This medium-height Veronica is perfect for the middle of the border.

***Veronica ‘Very Van Gogh’***

Artist Series™ Spike Speedwell

22-26”H x 22-24”W. Paintbrush-like spikes produce white buds that open to medium pink flowers. The contrast between the buds and the flowers give this plant a unique bicolor look. Attractive flowers cover the top ½ of the plant, showing off its healthy medium green leaves on a beautifully rounded habit. This medium-height Veronica is perfect for the middle of the border.

***Veronica spicata ‘Rotfuchs’ (Red Fox)***

Speedwell

12-15”H x 12-15”W. Quite compact, upright, clump-forming perennial producing dense, slender spikes of star-shaped, vibrant fuchsia-pink flowers from mid to late summer. Attractive to butterflies, the flowers open from the base upward and create an eye-catching floral display.

***Veronica spicata ‘Glory’***

Royal Candles Speedwell

15-18” H. Violet-blue flowers on branched spikes.

***Veronica ‘Sunny Border Blue’***

Speedwell

15-18” H. Rich-blue flowers on branched spikes.

***Veronicastrum virginicum ‘Albo-Rosea’***

Culver’s Root

3-5’ H. Strongly upright, slender in form. Leaves are long and narrow, the upper ones whorled in groups of 3 to 9. The small, pink-white flowers that appear in elongated clusters to 9” long in summer are beautiful and fragrant.

***Yucca filamentosa***

Yucca

2-3’H x 2-3’W. Mature plants about four or five years old will send up flower stalks from the center of the foliage in late spring or summer, which can double the height of this yucca plant, sometimes growing to over 8 feet tall. The blooms look like nodding, white bells. Full sun.

## PLANTS SUITABLE FOR ROCK GARDENS

***Anemone multifida ‘Rubra’***

Anemone

12-18”H x 12-18”W. A charming, low-growing Anemone that is attractive to bees, butterflies and birds. This lovely red blooming Anemone is easy to grow from flower seeds, and it is considered to self-sow freely. Striking, carmine-red flowers float above light green cut-leaved foliage.

***Antennaria dioica ‘Rubra’***

Pussy Toes

12-24”H x 12”W. Attractive, low, silver-white carpet of foliage topped with pink buds and white flowers in spring. For rock gardens or troughs. Happiest in full sun, in drier soil of low fertility, and with sharp drainage.

***Aurinia saxatilis******Basket-of-Gold, Gold Dust***

10”H x 12”W. RHS Award of Garden Merit. Clusters of brilliant yellow flowers in early spring; gray-green foliage mat.

***Dianthus gratianopolitanus ‘Feuerhexe’***

Firewitch Cheddar Pink

6”H x 12”W. 2006 PPA Plant of the Year! Masses of brilliant raspberry-red, 1” upward facing flowers with a spicy clove fragrance covering silvery-blue mats of evergreen foliage in late spring-early summer. Often re blooms in early fall if deadheaded.

***Draba aizoides***

Yellow Whitlow-grass

4”H x 6”W. Exciting little addition to the miniature garden.

Green cushions topped off with hot yellow flowers in early spring. Needs well-drained soil.

***Gentiana septemfida* var. *lagodechiana***

Summer Gentian

4-6”H. x 12-18”W. low, trailing mound of deep green, with cobalt-blue trumpet flowers appearing among the leaves in mid to late summer. While not as showy as the fall blooming types, these are much easier to grow in the rock garden, or as an edging. Also suitable for growing in alpine troughs or mixed containers.

***Lewisia ‘Little Plum’***

Bitterroot

4”H x 6”W. Large, intense rose-purple flowers with a touch of orange at first on short, upright stems. Lanceolate leaves in strong rosettes. Blooms May-June, re blooms in September. Easy to grow. *Lewisia*, Northwest U.S. native succulents with interesting, fleshy, sometimes crinkly leaves producing clusters of beautiful flowers in pleasing, soft colors, including stripes. Must have sharp drainage in scree or slope and be protected from winter wet.

***Phlox subulata ‘Tamaongalei’***

Candy Stripe Creeping Phlox

4-6”H x 12”W. Very colorful, white and pink, two-toned flowers. Evergreen mats of moss-like foliage, a fine ground cover that is a mass of color in spring.

***Platycodon grandiflorus ‘Mariesii’***

Balloon Flower

15”H x 15”W. RHS Award of Garden Merit. Large, rich blue bells.

***Saponaria × lempergii ‘Max Frei’***

Soapwort

8”H x 12-18”W. Clouds of bright pink flower masses with 1” blooms all summer. Blue-green foliage on compact plants.

***Scutellaria resinosa ‘Smoky Hills’***

Skullcap

12”H x 12-16”W. 2004 GreatPlantsTM Release. Deep blue or purplish flowers tipped with two, small white patches from May-July. Growing in a rounded form, the plants have leaves with grayish pubescence. This handsome Great Plains native is an essential.

## PLANTS RATED ZONE 5

***Buddleja ‘Dark Dynasty’***

Monarch® Butterfly Bush

3”H x 3.5”W. This compact Buddleia fits easily into urban gardens with its densely compact, rounded habit. Unlike some other dwarf Buddleias that become very wide spreading, ‘Dark Dynasty’ keeps its composure as it ages, growing just 3’ tall and 3 ½’ wide in two years. Rich royal purple, fragrant flowers are borne on branched panicles from late summer into early fall, just in time to feed the migrating Monarchs passing through.

***Buddleja ‘Queen of Hearts’***

Monarch® Butterfly Bush

12”H x 12-16”W. 2004 Great Plants TM Release. Deep blue or purplish flowers tipped with two, small white patches from May-July. Growing in a rounded form, the plants have leaves with grayish pubescence. This handsome Great Plains native is an essential.

***Catalpa x erubescens ‘Purpurea Catalpa’***

Catalpa

30-40’H x 30-40’W. Large heart shaped velvety leaves emerge nearly black-purple in the spring. Purple hues remains though the color does fade to a dark green by the end of the summer. This hybrid cultivar is a cross between *C. bignonioides* and *C. ovata* that originated in France more than 100 years ago. Large clusters of fragrant orchid-like flowers bloom in mid-summer, bean-like seed pods follow. A fast grower, does best in full sun to light shade with well-drained soil.

***Chaenomeles ‘Toyo-nishiki’***

Flowering Quince

3-4’H x 4-5’W. A medium sized deciduous shrub with abundant clusters of reddish, pink, and white blooms, up to 1.5” across. Borne on thorny, tangled, branches, they bloom in profusion for a few weeks in early spring, creating a brilliant floral display. The flowers give way to yellow fruits which ripen in early fall, they are too bitter to be eaten directly from the shrub, but may be used for preserves and jellies.

***Coreopsis verticillata ‘Crazy Cayenne’***

Sizzle & Spice® Threadleaf Tickseed

15-18”H x 22-26”W. Vibrant orange, perfectly domed, rounded, uniform habit. 1¾” wide, fiery sunset orange flowers have intense red-orange color concentrated at the centers of the petals. The undersides of its petals are golden yellow, with some petal tips displaying the same golden yellow. The flowers will cover the gray-green, threadleaf foliage for a showy midsummer display.

***Coreopsis verticillata ‘Creme Brulee’***

Threadleaf Tickseed

16-20”H x 35”W. Soft yellow blooms cover the compact mounds of bright green, threadleaf foliage from early thru late summer. Cutting this plant back by 1/3 to 1/2 after its first flush of flowers is finished will extend the bloom period into fall.

***Coreopsis verticillata ‘Hot Paprika’***

Sizzle & Spice® Threadleaf Tickseed

15-18”H x 22-26”W. This beautiful red *Coreopsis* forms a compact, rounded, uniform mound. 1½”, rich, deep red flowers cover the bright green, threadleaf foliage for a showy midsummer display.

***Carex fraseriana***

Fraser’s Sedge

8-12”H x 12-18”W. Full to partial shade. Dense clumps of evergreen leaves that are 8-24” long, up to 2” wide, smooth, shiny, leathery, with many faint parallel veins but no midvein, margins are wavy and finely toothed. Flower stalk is 8-24” tall.

***Delosperma ‘Alan’s Apricot’***

Ice Plant

2-4”H x 18-24”W Large, showy, 2” blooms and a flower color that’s orange-apricot-pink. This is the most hardy and longest blooming of the ice plant selections. Good drainage is essential.

***Delosperma ‘P001S’***

Fire Spinner® Ice Plant

2-4”H x 18-24”W. A striking color combination of orange, red and pink flowers are massed in spring and appear periodically throughout summer. Good drainage is essential.

***Delosperma ‘PJS01S’***

GRANITA® Raspberry Ice Plant

2-4”H x 18-24”W. A vigorous and floriferous plant with large, stiking, iridescent raspberry flowers that are densely packed. Good drainage is essential.

***Delosperma ‘Psfave’***

Lavender Ice Ice Plant

2-4”H x 18-24”W. A striking color combination of orange, red and pink flowers are massed in spring and appear periodically throughout summer. Good drainage is essential.

***Delphinium ‘Red Lark’***

Larkspur

2.5-3’H x 1-5-2’W. A uniquely colored *Delphinium* that must be seen to be believed! Coral-red flowers are held just above the foliage at a modest 2½’ tall. This variety is produced from tissue culture and has perfect uniformity compared with seed strains. Stem length and branching makes them perfect for use as a cut flower. Foliage is glossy dark green.

***Hibiscus syriacus ‘Aphrodite’***

Rose of Sharon

Maturing to 8’H. Blooming continuously from midsummer to fall, ruffled pink flowers up to 4” across adorned with a dark red throat, decorate the bush until late in the season. A beautiful specimen plant.

***Hibiscus syriacus ‘Minfren’ Bali™***

First Editions® Rose of Sharon

Maturing to 5-8’H. Tree form is perfect for small landscapes or as a specimen plant. Semi-double pure white flowers are highlighted with a bold purple red center from July-September. Bred by Minier Nursery in France.

***Hibiscus syriacus ‘Minspot’ Fiji™***

First Editions® Rose of Sharon

Maturing to 5-8’H. Medium pink buds give way to 3” to 4” flowers with a unique pattern, which slowly fades to light pink. A splash of deep red colors the center. Bred by Minier Nursery in France.

***Kniphofia ‘Jackpot’***

Winners Club™ Red Hot Poker

32-36”H x 24-28”W. Having this plant in your garden will definitely feel like winning the jackpot: useful garden height, vigor in the landscape, and a rich flower color. Bright reddish orange flowers open yellow for a bicolor effect atop a large mound of grass-like, green foliage. After the first flush of flowers, this *Kniphofia* will continue to rebloom with new flower spikes, staying in bloom for most of the summer.

***Kniphofia ‘Solar Flare’***

Pyromania® Red Hot Poker

3-3.5’H x 2-2.5’W. Bright sunny yellow flowers hold consistent color throughout the season. The spiky flowers and upright habit gives a very unique drama to your landscape, with rebloom extending the color late into the season.

***Magnolia ‘First Love’***

Hybrid Magnolia

“A small tree with a compact, bushy form. Blooms profusely at the turn of April and May, before leaf development. It has a slender flowers. Petals purple-red outside, white inside. After 10 years it reaches about 4 m in height. Prefers sunny location, sheltered position and fresh, moist, well-drained, fertile, humus soil with slightly acidic. In winter the root system must be protected by covering. All year mulching is preferred.

***Magnolia × loebneri ‘Merrill’***

Loebner Magnolia

Matures to: 20-30’H x 20-30’W. Vigorous and very free-flowering, an outstanding deciduous tree. In early to mid-spring, masses of large 4” white flowers appear before foliage. Each fragrant blossom is packed with 15 broad tepals delicately blushed with pink. Blooms at a young age.

***Magnolia ‘Pinkie’***

Hybrid Magnolia  
Matures to: 10-15’H x 8-12’W. Perfect for small gardens, Pinkie is a compact, multi-stemmed shrub or small tree with abundant blossoms in mid to late spring. It produces masses of large, cup-shaped flowers, 7-8” across, with 9-12 broad tepals, reddish-purple fading to pale pink and then white.

***Magnolia x loebneri ‘Raspberry Fun’***

Loebner Magnolia  
Matures to: 8-12’H x 8-12’W. Perfect for small gardens, a slow growing deciduous shrub or small tree. Produces slightly larger flowers with numerous petals (16-18). They are deeper pink outside and pale pink inside. Being almost 2 weeks later in blooming, they often escape late frosts.

***Magnolia tripetala***

Umbrella Magnolia  
Matures to: 15-18’H x 15-18’W. Noted for its enormous ovate leaves , a remarkable deciduous tree, often multi-trunked, with a broad, open crown of spreading branches. Flowers are bowl-shaped, creamy-white 6-8” across. A beautiful specimen plant.

***Origanum ‘Amethyst Falls’***

Ornamental Oregano  
16” H. Showy and heavy flowering with pendent, amethyst flowers.

***Stokesia ‘Peachie’s Pick’***

Stokes’ Aster  
18”H x 18-24”W. Stokesia is a native North American wildflower. It has been grown for many years for its beautiful flowers and ease of culture. Because of its heat tolerance, it is widely grown in the south. Blooming from midsummer to early fall (if deadheaded), it is a tremendous accent.

ANNUALS

***Abutilon Giant Hybrids Mix***

Flowering Maple  
12-15”H. Huge single blooms on well branched ornamental leaves with a wide mix of many colors. If given plenty of sunshine and warm temperatures abutilons will flower non-stop and also make excellent houseplants. A versatile plant that can be made into standards, grown in pots.

***Aeonium haworthii ‘Dream Color’***

Variegated Pinwheel  
Rosettes of fleshy, spoon-shaped leaves that are brilliantly colored. The leaves in the center are pale yellow and progressively the leaves get greener to the outside of the rosette. The edges of the leaves are red. Yellow flowers bloom in the summer. Succulent. Part Sun.

***Ageratum houstonianum Aloha Blue***

Floss Flower  
Easily grown in average, moist, well-drained soils in full sun, provides continuous bloom for beds, gardens or containers from late spring to frost. Slightly rounded lavender-blue clusters atop compact, mounded plants.

***Argyranthemum Angelic™ Everest***

Marguerite Daisy  
18-20”H x 18”W. Everest White™ Marguerite Daisy is a fine choice for the garden, but it is also good outdoor pots and containers. It is often used as a ‘filler’ in the ‘spiller-thriller-filler’ container combination, providing a mass of flowers against which the larger thriller plants stand out.

***Argyranthemum Grandaisy® Yellow***

Marguerite Daisy  
18-24”H x 18-24”W. Extra-large, extra-bright yellow 2” daisy-like flowers with honey-gold-brown eyes. Full, vigorous plants light up the landscape with big radiant blooms. Stunning in large pots, dazzling as cut flowers.

***Alternanthera dentata ‘LRU30’***

Little Ruby™ Joseph’s Coat  
12”H x 18”W Striking foliage in shades of burgundy and purple with ruby undersides. This heat lover grabs the spotlight in your garden areas all summer long where other plants wither away. The colors are best in sunny locations. It is heat, humidity tolerant, and has low moisture needs.

***Angelonia angustifolia ‘Baladanueb’***

Angel Dance™ Fuchsia Bicolor Angelonia  
14-18”H x 12-14”W. Huge flowers are vibrant against glossy dark green leaves. Thrives in extreme heat, humidity and drought. Excellent landscape performance. Branches very well.

***Angelonia angustifolia ‘Baladaniob’***

Angel Dance™ Violet Bicolor Angelonia  
14-18”H x 12-14”W. Huge flowers are vibrant against glossy dark green leaves. Thrives in extreme heat, humidity and drought. Excellent landscape performance. Branches very well.

***Angelonia angustifolia ‘Balarcckle’***

Archangel™ Dark Purple Angelonia  
14”H x 10-12”W. An amazing show of deep, dark purple snapdragon-like flowers all summer; has an upright and dense growth habit ; perfect for cottage gardens, borders, and containers; water frequently and thoroughly in hot weather.

***Angelonia angustifolia ‘Balarcorpin’***

Archangel™ Pink Angelonia  
12-14”H x 10-12”W. Huge flowers are vibrant against glossy dark green leaves. Thrives in extreme heat, humidity and drought. Excellent landscape performance.

***Antirrhinum majus Liberty Classic™ Rose Pink***

Snapdragon  
18-20”H x 12-14”W. Liberty Classic snapdragons provide tall luscious spikes in an attractive assortment of colors and make excellent garden plants. Bedding plant growers appreciate the uniformity of bloom time across the series.

***Antirrhinum majus Liberty Classic™ Mix***

Snapdragon  
18-20”H x 12-14”W. This is a formula mix of all the Liberty Classic colors including bronze, cherry, crimson, lavender, light pink, rose pink, scarlet, white, and yellow. Liberty Classic Mix snapdragons are superb cut flowers. Plants are showy, vertical accents. Mass in the landscape or combine with other tall flowers in mixed borders.

***Antirrhinum majus Liberty Classic™ White***

Snapdragon  
18-20” H x 12-\*14”W. Liberty Classic snapdragons provide tall luscious spikes in an attractive assortment of colors and make excellent garden plants. Bedding plant growers appreciate the uniformity of bloom time across the series.

***Antirrhinum majus Liberty Classic™ Yellow***

Snapdragon  
12-20”H x 12-14”W. Liberty Classic snapdragons provide tall luscious spikes in an attractive assortment of colors and make excellent garden plants. Bedding plant growers appreciate the uniformity of bloom time across the series.

***Antirrhinum majus Rocket Mix***

Snapdragon  
24-36”H. The best tall snapdragon. Plants produce densely-packed spikes of fragrant flowers in a wide range of shades. They are among the very best of cut flowers. Rocket Mix includes snapdragons in shades of bronze, lemon, orchid, pink, red, rose, white, and yellow.

***Begonia I’conia® Portofino Citrix***

Begonia  
10-12”H. A beautiful mounded variety ideal for adding interest to patio containers and hanging baskets; featuring large, vibrant double blooms in shades of yellow and peach, nestled on top of deep and dark green foliage. Flowers sit above the foliage. Extra-large, resilient flowers. Dark foliage for contrast.

***Begonia I’conia® Upright Fire***

Begonia  
14”H. A beautiful upright variety with a slight cascade, ideal for patio containers, hanging baskets, borders and landscapes; featuring large, bright orange, single blooms nestled on top of deep and dark green foliage; heat and stress tolerant.

***Begonia Waterfall® Encanto Pink***

Begonia  
8-10”H. Myriad blooms of deep pink grace this gorgeous Begonia boliviensis Waterfalls® Encanto Pink all season long. The flowers are in their glory cascading over the side of a container or hanging basket. Plants are carefree and require little maintenance.

***Begonia Super Olympia® Red***

Green Leaf Begonia  
6-8”H x 6-8”W. Compact mounding annual with glossy dark green heart-shaped foliage with copper-bronze tints. The clusters of small rich orchid-like flowers with yellow centers bloom from late spring through summer. Flowers best in part shade and rich, moist well-drained soils.

***Begonia Super Olympia® Rose***

Green Leaf Begonia  
6-8”H x 6-8”W. Compact mounding annual with glossy dark green heart-shaped foliage with copper-bronze tints. The clusters of small rich orchid-like flowers with yellow centers bloom from late spring through summer. Flowers best in part shade and rich, moist well-drained soils.

***Begonia Super Olympia® White***

Green Leaf Begonia  
6-8” H x 6-8”W. Compact mounding annual with glossy dark green heart-shaped foliage with copper-bronze tints. The clusters of small rich orchid-like flowers with yellow centers bloom from late spring through summer. Flowers best in part shade and rich, moist well-drained soils.

***Begonia ‘Bepapink’***

Dragon Wing® Pink Begonia  
14”-18” H. Rosy pink flowers. Leaves become bronze tinged in sunlight. Begonias are one of the few plants that bloom under almost any light conditions, but they do best in light shade.

***Begonia ‘Bepared’***

Dragon Wing® Red Begonia  
14”-18” H. Scarlet Red flowers. Leaves become bronze tinged in sunlight. Begonias are one of the few plants that bloom under almost any light conditions, but they do best in light shade.

***Begonia ‘PAS1484340’***

Dragon Wing® White Begonia  
12-15”H x 15-18”W. Unique and beautiful arching, pendulous habit is spectacular in hanging baskets, large containers and commercial landscape plantings. Angel-wing leaves and large blooms give Dragon Wing a dramatically different look.

***Begonia Illumination® Apricot Shades***

Tuberous Begonia  
4-8”H. The flowers of Illumination Apricot Shades begonia feature delicate, ruffled petals in pale peach to deep cantaloupe shades. Large, semi to fully double flowers are especially gorgeous when spilling down from above or spilling over the edge of a planter. Easy to grow, heat tolerant plants.

***Begonia Illumination® Orange***

Tuberous Begonia  
4-8”H. Vigorous, large, cascading stems of delicate orange blooms. Semi to fully double flowers are especially gorgeous when spilling down from above or spilling over the edge of a planter. Easy to grow, heat tolerant plants.

***Begonia ‘Richmondensis’***

Pink Angel Wing Begonia  
4-8”H. Richmondensis is a small to medium leaf sized cane begonia. The blooms for this plant are light pink on the edges, fading to white in the center.

***Bidens ferulifolia ‘Bee Alive’***

Bidens  
8-10”H x 18-24”W. Beautiful mounding form covered in large orange-red flowers. Great for containers and baskets for all season color. Perfect for sunny beds and borders as well.

***Bidens ferulifolia ‘Sun Drop Double Yellow’***

Bidens  
10-12”H x 16-18”W. Cheerful yellow, double flowers have an excellent growth habit. This plant works well in mixed containers and small pots. Bidens are perfect for attracting butterflies and bees to your garden.

***Browallia ‘Unhbr12’***

Endless™ Illumination Bush Violet  
12-16”H x 10-14”W. This delightful annual blooms profusely all season long until the first hard frost. Its mounding habit and clear, rich blue flowers make it a winner for beds and containers alike. Endless Illumination makes a solid Impatiens alternative in part shade and offers a color not found in Impatiens.

***Calibrachoa ‘Balcabooni’***

Cabaret® Good Night Kiss Calibrachoa  
10”H x 12”W. Smothered in stunning rose trumpet-shaped flowers with burgundy overtones and yellow stripes at the ends of the stems from late spring to early fall. Its small pointy leaves remain green in color throughout the season.

***Calibrachoa ‘Balcabotro’***

Cabaret® Hot Rose Calibrachoa  
6-10”H x 10-12”W. An abundance of bright rose colored blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season.

***Calibrachoa ‘Balcabighlu’***

Cabaret® Midnight Blue Calibrachoa  
6-10”H x 10-12”W. An abundance of bright blue blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season.

***Calibrachoa ‘Balcabmiss’***

Cabaret® Midnight Kiss Calibrachoa  
6-10”H x 10-12”W. An abundance of bright purple blooms with a dark throat highlighted with a yellow star. Blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season.

***Calibrachoa ‘Balcaborim’***

Cabaret® Orange Calibrachoa  
6-10”H x 10-12”W. A compact, well-branched, trailing annual boasting masses of brilliant orange flowers adorned with a yellow throat from late spring to the first frosts. Terrific for containers or hanging baskets. Attracts hummingbirds.

***Calibrachoa ‘Balcabwhite’***

Cabaret® White Calibrachoa  
6-10”H x 10-12”W. An abundance of bright blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season. Sun.

***Calibrachoa ‘Balcabyelow’***

Cabaret® Yellow Calibrachoa  
6-10”H x 10-12”W. Early flowering, well-branched, trailing annual, boasting masses of bright sunny flowers from late spring to the first frosts. Vigorous and blooming freely all season. Terrific in containers or hanging baskets. Attracts hummingbirds.

***Callistephus chinensis Macaroon White***

China Aster  
Early flowering, pom-pom type blooms that make wonderful cut-flowers. 1.5–2.5”, bright white, double blooms with creamy yellow centers. Uniform and productive plants. Ht. 32–38”.

***Callistephus chinensis Matsumoto Mix***

China Aster  
24-30”H x 8-10”W. A vivid mix of double-flowered asters with impressive disease tolerance. This blend of purple, fuchsia, lavender, pink, red, white, & apricot is perfect for containers, beds, borders and of course as a cut flower!

***Canna South Pacific™ Ivory***

Canna  
2-2.5’H. Compact in habit and well suited for landscapes, water gardens and containers. Tropical looking plants are floriferous and have outstanding ivory color. An excellent addition to pollinator gardens with flower spikes of up to 4 1/2” that bloom all summer and withstand a light frost.

***Canna South Pacific™ Orange***

Canna  
2-2.5’H. 2018 AAS Winner! Judges were impressed with this new outstanding color in a unique soft glowing orange. Blooms contrast beautifully with large, lush green tropical foliage. Vigorous, uniform and has more basal branching than comparable varieties. compact plants are great for growing in large containers and as a border plant. Flower spikes grow up to 4-1/2”, blooms all summer and withstand a light frost better than similar varieties.

***Canna South Pacific™ Rose***

Canna  
2-2.5’H. This Canna is compact in habit and well suited for landscapes, water gardens and containers. Tropical looking plants are floriferous and have outstanding rose color. An excellent addition to pollinator gardens with flower spikes of up to 4 1/2” that bloom all summer and withstand a light frost.

***Canna South Pacific™ Scarlet***

Canna  
2-2.5’H. 2013 AAS Winner. South Pacific Scarlet is more floriferous than most cannas, boasting 6 to 7 stems per plant topped with 4 by 4 inch, scarlet, orchid-like blooms. They thrive in a full sun location in garden beds, borders and containers, blooming early and steadily all summer, even withstanding a light frost in fall.

***Canna South Pacific™ Yellow***

Canna  
2-2.5’H. This Canna is compact in habit and well suited for landscapes, water gardens and containers. Tropical looking plants are floriferous and have lovely yellow color. An excellent addition to pollinator gardens with flower spikes of up to 4 1/2” that bloom all summer and withstand a light frost.

***Catharanthus roseus ‘PAS1197791’***

Titan™ Dark Red Vinca  
14-16”H x 10-12”W. Titan Dark Red will give you large, deep red blooms with darker red centers. Plants are both heat and drought tolerant while being a vigorous grower even in cooler climates. Titan series is perfect for landscapes and containers.

***Catharanthus roseus ‘PAS1551580’***

Titan™ Icy Pink Vinca  
14-16”H x 10-12”W. Titan Icy Pink will give you large, light pink blooms with darker pink centers. Plants are both heat and drought tolerant while being a vigorous grower even in cooler climates. Titan series is perfect for landscapes and containers.

***Catharanthus roseus ‘PAS336360’***

Titan™ Lilac Vinca  
14-16”H x 10-12”W. Very low watering needs – outstanding in sunny, hot and dry conditions. Also works in light shade. Largest vinca flowers on the market.

***Catharanthus roseus ‘PAS420775’***

Titan™ Pure White Vinca  
14-16”H x 10-12”W. Very low watering needs – outstanding in sunny, hot and dry conditions. Also works in light shade. Largest vinca flowers on the market.

***Catharanthus roseus ‘PAS336362’***

Titan™ Punch Vinca  
14-16”H x 10-12”W. Titan™ Punch Vinca features showy violet star-shaped flowers at the ends of the stems from late spring to mid fall. Its glossy oval leaves remain dark green in color throughout the year.

***Celosia argentea (Spicata Group) ‘CEL888975’***

Celway™ Purple Celosia  
Celosia spicata Vibrant color and unmatched texture. Spiky, fuzzy, magenta, prismatic plumes on tall, strong stems with small leaves on top. Reliable as a cut-flower. The branching plants reach up to 48 inches.

***Celosia argentea (Cristata Group)***

Twisted Purple Celosia  
16-20”H x 12-14”W. The brilliant red/purple color combination of Celosia ‘Twisted’s flowers seem to absolutely glow in the sun. This eye catching cockscomb is very long blooming, from early Spring through Fall.

***Celosia argentea (Cristata Group) ‘Twisted’***

Strawberry Celosia  
16-20”H x 12-14”W. Celosia Twisted Strawberry has an upright habit and an exciting red not often seen in celosia. Drought-tolerant annual is an excellent choice for Fall Flower Gardens and Patio Decor. Planted in full sun, Twisted Strawberry Celosia is heat tolerant and easy to care for.

***Celosia argentea (Plumosa Group) Fresh Look Mix***

Celosia  
14”H x 12”W. A popular bedding plant with brightly colored, plumed flowers, that reach up to 10 inches high. New leaves will cover the old plumes, as they grow, so the plants will continue to look “fresh”.

***Celosia argentea (Plumosa Group) ‘New Look’***

Celosia  
10”H x 8”W. New Look celosia is a plumed type commonly called feathered amaranth or feather celosia. It has bright red flowers soaring above dark, bronze foliage. The flowers are very long lasting and are continually produced throughout the summer season.

***Celosia argentea (Spicata Group) 'Spitenz'***

Intenz™ Classic Celosia

18"H x 12"W. An unique annual with vibrant green to purple foliage that produces masses of pink to magenta blooms from Spring through to autumn. Fantastic as a contrast plant in the garden or in pots. Location – Grows best in fertile soil in a full sun to part shade position.

***Clarkia amoena Grace Shell Pink***

Satin Flower

An excellent cut flower with good uniformity and beautiful pink and white color. The Grace series produces cut flowers measuring 24-30 inches in height on lateral branching of up to 15 stems each carrying 5 to 6 solid clusters of blooms.

***Cleome boutteana 'Cherry Queen'***

Spider Flower

4'H x 18"W Holds its 5–6" flower clusters and narrow seed pods aloft on sturdy, 4' stems that will create a focal point in the back of a border all summer. Full Sun.

***Cleome hassleriana 'Violet Queen'***

Spider Flower

4'H x 18"W Holds its 5–6" flower clusters and narrow seed pods aloft on sturdy, 4' stems that will create a focal point in the back of a border all summer. Full Sun.

***Cleome hassleriana 'White Queen'***

Spider Flower

4'H x 18"W Holds its 5–6" flower clusters and narrow seed pods aloft on sturdy, 4' stems that will create a focal point in the back of a border all summer. Full Sun.

***Colocasia 'Black Swan'***

Elephant Ear

3-5' x 5-6"W. Dark, near-black leaves will still make you catch your breath in amazement. This plant forms an upright, arching habit which showcase its jet black, glossy stems, creating a singular basal clump. This is the perfect plant for combining with brightly colored annuals in large containers.

***Cosmos sulphureus Cosmic Orange***

Cosmos

12-22"H x 12-17"W. Masses of 2-inch double and semi-double blooms arise all summer long on well-branched 12- to 22-inch plants. Heat- and pest-resistant, Cosmic thrives on neglect, Months of joy in the garden from this stunning AAS Winner. Sun.

***Cosmos sulphureus Cosmic Red***

Cosmos

12-22"H x 12-17"W. Like all Cosmos, this charming variety Cosmic Red Cosmos thrives in the sunny garden, drawing butterflies and compliments by the dozen.

***Cosmos sulphureus Cosmic Yellow***

Cosmos

12-22"H x 12-17"W. Masses of 2-inch double and semi double blooms arise all summer long on well-branched plants, even in poor, dry soils. Heat & pest-resistant, thrives on neglect, provides months of joy in the garden. Like all cosmos, this charming variety thrives in the sunny garden, drawing butterflies and compliments by the dozen.

***Cosmos bipinnatus Cupcakes Blush***

Cosmos

3-4'H x 20"W. The pale blush petals on this large bloomer are fused together forming a teacup shaped flower. Blooms are as big as the palm of your hand and the edges look like they have been cut with pinking shears. This romantic variety is a mix of single, semi double, streaked and solid flowers.

***Cosmos bipinnatus 'PAS1786'***

Sonata™ Carmine Cosmos

20-24"H x 12-14"W. Sonata Carmine is a good choice in containers, borders, as a mass planting in a sunny spot, or as a cut flower. The Sonata Series is a dwarf cultivar and not a short day type. Tolerating poor soil conditions, heat and drought, the 3" daisy-like blooms of Sonata Carmine are red-purple with a golden yellow eye. Another unique feature is its fern like foliage.

***Cosmos bipinnatus 'PAS1789'***

Sonata™ White Cosmos

20-24"H x 12-14"W. The pure white, Daisy-like blooms of Cosmos bipinnatus 'Sonata White' are held atop wiry stems above delicate, feathery foliage on compact, bushy plants. Great for cutting.

***Cotyledon tomentosa subsp. ladismithiensis***

Bear's Paw

The leaves are yellow green, with 1-3 teeth. The flowers are orange red to almost yellow in color. Succulent. Full Sun.

***Cuphea cyanea 'Ashevilla'***

Pink Cigar Plant

12"H x 10-18"W. This dainty plant becomes flower-covered, with tubular, tropical looking flowers that dangle. Blooms are pink with yellow tips and are numerous. This is a lot of color from a plant that looks quite delicate. Green leaves form a loose and airy mound of foliage that is dark enough to really offset the color of the bright, tropical blooms. Attracts Hummingbirds.

***Cuphea 'Balhoelrel' Honeybells***

Firecracker Plant

10-12"H x 14-20"W. 'Honeybells' shrugs off high heat and continues in bloom all summer. Self-cleaning, freely-branching for a tidy form. It requires little in the way of care, just fertilize and water regularly. Best as garden edging and planted in pots and window boxes. Attracts Hummingbirds.

***Cuphea hyssopifolia***

False Heather

10-12"H x 10-12"W. Profuse purple flowers on a versatile, tidy, compact shrub with finely textured, glossy, bright green foliage. Re Blooms continuously, well into fall. Good for edging and seasonal color in beds and borders. A popular container plant for pots and baskets.

***Cuphea llavea***

Bat-faced cuphea

12-18"H x 12-18"W. The name comes from the flower which has a one inch long, hairy purple calyx with two upward facing red petals, resembling a bat face. It begins blooming in late spring and continues until frost, producing clusters of numerous flowers in the leaf axils. Attracts Hummingbirds.

***Dianthus barbatus 'PAS247229'***

Amazon™ Neon Cherry Dianthus

18-36"H x 10-12"W. Amazon™ Neon Cherry is smothered in stunning fragrant cherry red frilly flowers with white eyes and a dark red ring at the ends of the stems from late spring to early fall. The flowers are excellent for cutting. Attracts butterflies.

***Dianthus barbatus 'PAS247290'***

Amazon™ Neon Purple Dianthus

18-36"H x 10-12"W. Amazon™ Neon Purple is smothered in stunning fragrant cherry red frilly flowers with white eyes and a dark red ring at the ends of the stems from late spring to early fall. The flowers are excellent for cutting. Attracts butterflies.

***Dianthus chinensis x barbatus***

Floral Lace™ Mixture Single Dianthus

Hardy, cool season annuals that often overwinter and return a second year or more, flowers white to pink, vibrant red or purple. Full Sun.

***Dichondra argentea 'Silver Falls'***

Silver Nickel Vine

Trailing, vigorous, fan-shaped silver foliage on silver stems, very heat and drought tolerant. Full Sun.

***Eschscholzia californica***

California Poppy

California poppies are the state flower of California and is famous for carpeting entire hillsides up and down the coast, creating one of the most amazing natural shows in the world. This annual grows anywhere and the brilliantly-orange blooms truly illuminate the meadow into the fall months.

***Eucalyptus pulverulenta Baby Blue Bouquet***

Silver-leaved Mountain Gum

24-36"H 12-20"W. This beautiful foliage plant produces large sprays of glaucous stems that are covered in distinct rounded leaves that alternate from side to side. A fragrant and textural addition to late-season bouquets that can be used both fresh and dried.

***Euphorbia hypericifolia Euphoric™ Double White***

Baby's Breath Euphorbia

This beautiful flower has a compact nature and a well-mounding growth habit. It has a spread of 14-20 inches, requiring a space of 10-12 inches to properly grow, and has an optimal height of 14-20 inches. Euphoric White Imp is wonderful for hanging baskets, patio containers, or as a border crop. This variety is also resistant to deer.

***Euphorbia hypericifolia 'Hip Hop'***

Euphorbia

12"H x 18"W. Clouds of airy white flowers on dense green foliage are presented during the spring and summer season; excellent for mixed containers or hanging baskets; heat and drought tolerant; low maintenance. Sun to part shade.

***Evolvulus 'USEVO1201'***

Blue My Mind™ Dwarf Morning Glory

6"-12" H. Miniature, indigo-blue, morning glory flowers cover spreading plants. For containers, baskets, and bedding. Full Sun.

***Fuchsia 'Autumnale'***

Hybrid Fuchsia

10-12"H x 12-18"W. The Autumnale Fuchsia is all about colorful foliage. This easy-care annual features gold-colored leaves that transition to orange and purple hues as the summer progresses. The broad leaves come to a point and feature pronounced and colorful veining. This plant grows in low light, so it is a great choice to brighten up a dark corner of your yard. Attracts hummingbirds and butterflies.

***Fuchsia 'Dark Eyes'***

Trailing Fuchsia

4-8"H x 12-18"W. Trailing Fuchsia with exotic and eye-catching beauty. Beautiful color scheme of pink and purple delight. The flowers mimic a festive ballroom gown suspended in the air. Expect blooms all spring and summer long and it will flourish from planting to frost. Attracts Hummingbirds and butterflies.

***Fuchsia 'John Ridding'***

Firecracker Upright Fuchsia

12-24"H x 12-24"W. Firecracker is a step up from many other fuchsias because it has beautiful variegated green leaves edged in white with just a kiss of pink. The 1 ½-inch long, trumpet-like orange-red flowers flare at their tips to invite hummingbirds, which can't seem to resist fuchsia. Sun or shade.

***Fuchsia 'Gartenmeister Bonstedt'***

Upright Fuchsia

12-36"H x 12-18"W. This vigorous, upright plant tolerates heat better than other fuchsias. Dark bronze-red leaves and stems provide striking contrast to vibrant clusters of deep coral-red tubular flowers in late spring and summer. A must for the hummingbird garden! Performs well in containers.

***Gazania rigens New Day® Mixture***

Treasure Flower

8-10”H x 6-8”W. Gazania New Day mix is a sunny mix of red stripe, rose strips, garden sun and bronze. The plant habit is compact, but the flower power is anything but. It loves the heat and dry, well-drained locations.

***Gerbera jamesonii***

Gerbera Daisy Mixture

8-10”H x 6-8”W. Beautiful flowers which measure 3 1/2 - 4 inches wide, appear above the large, lovely dark green foliage on compact, sturdy little plants. Sun to part sun.

***Gomphrena globosa ‘Audray Pink’***

Globe Amaranth

18-24”H. x 12”W. Despite the name, the bloom color of Audray Pink has more of a lavender or cool pink hue, producing beautiful bracts of 1 1/2” blooms. Compared to the QIS series, Audray is taller and more uniform but a bit later to flower.

***Gomphrena ‘Fireworks’***

Globe Amaranth

12-24”H x 24-36”W. Merry masses of bright, bouncy, 2”, rosy-pink “pom-poms” tipped in gold, it pumps out the blooms on long, strong, branchy stems midsummer till frost. Sun.

***Hedra helix***

English Ivy (Green)

9-11”H x 6-10”W. A lovely addition to hanging baskets, containers, trailing on a retaining wall, or as a wonderful houseplant.

***Hedra helix ‘Glacier’***

English Ivy

9-11”H x 6-10”W. A lovely addition to hanging baskets, containers, trailing on a retaining wall, or as a wonderful houseplant.

***Heliotropium arborescens ‘KLEHA13711’***

Marino™ Blue Heliotrope

15” H. Features beautiful clusters of fragrant royal blue flowers with white overtones at the ends of the stems from late spring to early fall. Part Sun. Toxic.

***Hypoestes phyllostachya ‘PAS2341’***

Splash Select™ Pink Polka Dot Plant

12” H. Attractive pointy leaves remain pink in color with distinctive dark green spots throughout the year. Neither the flowers nor the fruit are ornamentally significant. Full Sun/ Part Shade.

***Hypoestes phyllostachya ‘PAS2344’***

Splash Select™ Red Polka Dot Plant

12” H. Attractive pointy leaves remain cherry red in color with distinctive dark green spots throughout the year. Neither the flowers nor the fruit are ornamentally significant. Full Sun/Part Shade.

***Hypoestes phyllostachya ‘PAS2343’***

Splash Select™ White Polka Dot Plant

12” H. Attractive pointy leaves remain white in color with distinctive dark green spots throughout the year. Neither the flowers nor the fruit are ornamentally significant. Full Sun/ Part Shade.

***Impatiens ‘SAKIMP017’***

SunPatiens® Compact Deep Rose Impatiens

12-30”H x 12-20”W. Compact Deep Rose SUNPATIENS® are a stunning deep rose color that ‘pop’ against the dark green foliage. Each plant produces tons of flowers from early summer until fall. SUNPATIENS® Compact Deep Rose are unique, in that they tolerate the heat and sun in the summer.

***Impatiens ‘SAKIMP061’***

SunPatiens® Compact Hot Pink Impatiens

12-30”H x 12-20”W. SUNPATIENS® Compact Hot Pink’s bright bubblegum pink blooms stand out from a distance and draw you into the garden. Blooming all summer long, SUNPATIENS® can be grown in full sun to part shade locations. It fills in a landscape bed in no time. Perfect for borders, in mass, or planted in containers.

***Impatiens ‘SAKIMP025’***

SunPatiens® Compact Electric Orange Impatiens

12-30”H x 12-20”W. SunPatiens® Compact Electric Orange New Guinea Impatiens features bold orange round flowers at the ends of the stems from mid spring to early fall. Its pointy leaves remain dark green in color throughout the season. SUNPATIENS® can be grown in full sun to part shade locations. Attracts butterflies.

***Impatiens ‘SAKIMP044’***

SunPatiens® Compact Purple Impatiens

16-30”H x 14-20”W. Crisp, clean white in color, larger 12-30”H x 12-20”W. SUNPATIENS® Compact Purple is bright magenta-purple that shimmers in the sun. The thick, dark green leaves are the answer to why these typically shade plants can tolerate the sun and humid conditions. SUNPATIENS® can be grown in full sun to part shade locations. Attracts butterflies.

***Impatiens ‘SAKIMP030’***

SunPatiens® Compact Red Impatiens

12-30”H x 12-20”W. SUNPATIENS® Compact Deep Red’s flowers contrast beautifully with the deep green foliage. It makes its presence known in the landscape. SUNPATIENS® can tolerate full sun to part shade locations and humid conditions. Attracts butterflies.

***Impatiens ‘SAKIMP027’***

SunPatiens® Compact White Impatiens

16-30”H x 14-20”W. Crisp, clean white in color, larger blooms, produce an abundant amount of flowers from spring through fall. SUNPATIENS® has a slightly thicker leaf wall, which helps the plant tolerate summer conditions. Prefers a moist, well watered location, full sun to part shade.

***Impatiens walleriana ‘PAS1413665’***

Beacon® Bright Red Impatiens

These disease-resistant impatiens are easy to grow in part shade to full shade gardens. Beacon® Bright Red forms a 15-20 inch mound of color that blooms all summer long. A perfect selection for hanging baskets, containers, or garden borders.

***Impatiens walleriana ‘PAS1413664’***

Beacon® Coral Impatiens

This series features impressive, high quality blooms on vigorous plants that have a high degree of disease resistance; coral-pink flowers form on 15-20 inch mounded plants; perfect for shaded beds, borders, and patio containers.

***Impatiens walleriana ‘PAS1587589’***

Beacon® Lipstick Impatiens

This series features impressive, high quality blooms on vigorous plants that have a high degree of disease resistance; deep fuchsia-red flowers form on 15-20 inch mounded plants; perfect for shaded beds, borders, and patio containers.

***Impatiens walleriana ‘PAS1377331’***

Beacon® Orange Impatiens

This series features impressive, high quality blooms on vigorous plants that have a high degree of disease resistance; bright orange flowers form on 15-20 inch mounded plants; perfect for shaded beds, borders, and patio containers.

***Impatiens walleriana Beacon® Pearl Island Mix***

Impatiens

This series features impressive, high quality blooms on vigorous plants that have a high degree of disease resistance; Coral, White and Blue Pearl flowers form on 15-20 inch mounded plants; perfect for shaded beds, borders, and patio containers.

***Impatiens walleriana Beacon® Sanibel Mix***

Impatiens

This series features impressive, high quality blooms on vigorous plants that have a high degree of disease resistance; Bright Red, Orange & Violet flowers form on 15-20 inch mounded plants; perfect for shaded beds, borders, and patio containers.

***Impatiens walleriana ‘PAS1357832’***

Beacon® White Impatiens

15-20”H x 8-10”W. Impatiens Beacon White features prolific amounts of snow-white flowers that bloom all season long. A staple plant in the shade garden, popular planted in masses.

***Ipomoea batatas ‘Margarita’***

Sweet Potato Vine

6-9”H x 36”W Bright chartreuse leaves that lean to gold in sun, pale green in partial shade and are vaguely heart shaped. Full Sun/Part Shade.

***Ipomoea batatas ‘Blackie’***

Sweet Potato Vine

4-10”H x 4-5’W. This tender tuberous perennial with heart-shaped, lobed, almost black leaves bears trumpet-shaped lavender to pale purple flowers. It is excellent in containers or weaving among other plants in beds and borders. Full sun to part shade.

***Ipomoea batatas ‘Balsolared’***

SolarPower™ Red Sweet Potato Vine

6-12”H x 36”W. Brightly colored leaves are great for mixed containers and garden beds. Sun to partial sun.

***Ipomoea batatas ‘Balsolabart’***

SolarPower™ Black Heart Sweet Potato Vine

Ipomoea SolarPower™ Black Heart, a dark-leaved variety of Ornamental Sweet Potato, features nearly black, heart-shaped foliage on neatly mounding plants that spread to about 2–3’ wide. Its tidy habit makes it a smart choice for containers, hanging baskets, and garden beds.

***Ipomoea alba***

Giant White Moonflower

The Giant White Ipomoea, or moonflower, is an enormous flowering plant that is a fragrant standard for any fence or trellis that blooms at night! This variety is a vigorous, easy to grow flower that grows up a vine upwards of 15 feet if given support.

***Ipomoea ‘Sunrise Serenade’***

Morning Glory

8-10’H. A stunning variation to the usual morning glory flower, producing masses of ruffled rich deep pink / Red 4cm flowers, absolutely stunning. The vine twists and climbs, needing support. Blooms continually July to September.

***Ipomoea tricolor ‘Heavenly Blue’***

Morning Glory

6-8’ H. Sky blue trumpet flowers with white throats. Full Sun.

***Ipomoea purpurea ‘Carnevale Di Venezia’***

Morning Glory

From Europe, a truly stunning mix of blooms in rose-pink or purple-blue stripes! The vigorous climbing plants climb up to 15 ft. on a trellis.

***Ipomoea purpurea ‘Grandpa Ott’***

Morning Glory

8-10’ H. Intense violet-blue, with a ruby red star produced in profusion. Full Sun.

***Jacobaea maritima ‘Silver Dust’***

Dusty Miller

10-12”H x 8-10”W. Dusty Miller Silver Dust makes for a fantastic accent plant with its silvery-white, oak-shaped foliage, contrasting well with most green leafed plants.

***Lampranthus blandus***

Pink Vygie  
18”H x 24”W. A succulent shrublet with masses of tiny, grey green, jagged foliage growing on attractive, pinkish red stems. Pink, daisy-like flowers will bloom above the foliage, opening during the middle of the day and retreating at night. Full sun to partial shade.

***Lantana camara ‘Bante Cheriasun’***

Bandana® Cherry Sunrise Lantana  
12-22”H x 12-24”W. A steady, summer-long bloomer, is heat and drought tolerant, thrives in pots or in the ground. Many flowers have variable colors, which just adds to their beauty, with a mounded habit. Full sun.

***Lantana camara ‘Bant Reda09’***

Bandana® Red Lantana  
16-20”H x 12-20”W. A plant that can perform in tough conditions, Bandana Lantana Series will fit the bill. Heat tolerant, drought tolerant, deer resistant, little to no need for deadheading, versatile, fragrant, attractive to butterflies and hummingbirds. Perfect for walls, baskets, containers as well as the landscape as its name suggests. Bandana Red will present you with flower clusters combining red and orange. Perfect for a full sun location.

***Lantana camara***

Bandana® Yellow Lantana  
16-20”H x 12-20”W. A plant that can perform in tough conditions, Bandana Lantana Series will fit the bill. Heat tolerant, drought tolerant, deer resistant, little to no need for deadheading, versatile, fragrant, attractive to butterflies and hummingbirds. Perfect for walls, baskets, containers as well as the landscape as its name suggests. Bandana Yellow will present you with flower clusters of cheery bright yellow. Perfect for a full sun location.

***Lantana camara ‘Baldansunrim’***

Landmark™ Sunrise Rose Lantana  
12-16”H x 10-12”W. Landmark™ Rose Sunrise is a mounding annual that is deer resistant and heat tolerant, has scented foliage, and attracts butterflies and hummingbirds. Use this vigorous Lantana just about anywhere: it’s ideal for large group plantings, but Rose Sunrise also looks lovely in a hanging basket, where its brightly colored dark rose-pink and yellow blossoms over deep green foliage can be appreciated up close.

***Limnanthes douglasii***

Meadowfoam  
6-12”H x 6-10”W. Great in borders, beds or in containers. Attracts hoverflies to the garden to help with aphids. Fragrant flowers. Attracts bees. Bloom time: summer. Bloom color: clear white with lemon yellow center. Sun/partial shade.

***Lobelia erinus ‘Regatta Marine Blue’***

Trailing Lobelia  
6-8”H x 10-12”W. Partial sun. The regatta series of trailing lobelia makes a perfect addition to hanging baskets or to annual beds. Lovely cobalt blue flowers.

***Lobularia maritima***

Sweet Alyssum  
Sweet alyssum is widely grown as a border ornamental for its fragrant clusters of small flowers. Sweet alyssum has white four-petaled flowers.

***Nicotiana alata Starmaker Bright Red***

Flowering Tobacco  
12”H x 10”W Clusters of bright red star shaped flowers on short, stocky stems. Blooms from early spring to late summer.

***Nicotiana x sanderae Perfume™ Deep Purple***

Flowering Tobacco  
20”H x 12”W Highly scented star-shaped deep purple 2-inch blooms on free-flowering plants.

***Nicotiana x sanderae Perfume™ Bright Rose***

Flowering Tobacco  
20”H x 12”W. Deer resistant, floriferous and fragrant beyond belief! An abundance of fragrant bright rose trumpet-shaped flowers. Heat and shade tolerant. Good bed, border, cut flower and pot plant. Sun-part shade.

***Nicotiana sylvestris***

Flowering Tobacco  
3-5”H x 1-2”W. Long-lasting tubular white flowers appear from June and last until the first frost. Provides color and intoxicating fragrance into late summer when many other blooms fade. Works well in gardens where its showy blooms and sweet fragrance can be enjoyed; walkways, near patios or nighttime gardens. Consider it also for borders, cottage gardens.

***Nierembergia ‘Purple Robe’***

Cupflower  
6”H x 6-12”W. The adorable cup-shape flowers of nierembergia and its neat growth habit make it a useful annual flower for everything from containers to edging. Plant it in rows along the front of beds, borders or in containers.

***Oplismenus hirtellus***

Basket Grass  
Full Sun. 4-6”H. Attractive Foliage. Trailer. Can be Grown Indoors.

***Osteospermum ecklonis ‘KLEOE23096’***

Serenity™ Dark Purple African Daisy  
10-14”H x 14-20”W. Green ovate leaves form a clumping mound of foliage, well suited for mass plantings. Dark purple daisy-like flowers bloom from spring until fall, making a long-lasting bright pop of color in any garden. Deer resistant. Needs good drainage.

***Osteospermum ecklonis ‘Balsertricos’***

Serenity™ Electric Rose African Daisy  
10-14”H x 14-20”W. Green ovate leaves form a clumping mound of foliage, well suited for mass plantings. Bright rose color, daisy-like flowers bloom from spring until fall, making a long-lasting bright pop of color in any garden. Deer resistant. Needs good drainage.

***Osteospermum ecklonis ‘Balserimwhi’***

Serenity™ White African Daisy  
10-14”H x 14-20”W. Stunning white daisy flowers with steel blue eyes at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. Its spiny narrow leaves remain green in color throughout the season. Needs good drainage.

***Passiflora caerulea***

Blue Passionflower  
A most glamorous, vigorous climber with twining tendrils. White 3” flowers are at times pink-flushed with a ring of blue, white and purple filaments. Egg-sized deep-orange fruits develop in late summer through fall. Thrives in full sun. Excellent choice for trellises, walls, fences or arbors.

***Passiflora vitifolia ‘Scarlet Flame’***

Perfumed Passionflower  
Scarlet Flame’ is a vigorous climber with reddish-orange 4-5” flowers adorned with a ring of bright red coronal filaments. Thrives in full sun. Excellent choice for trellises, walls, fences or arbors.

***Petunia ‘PAS933347’***

Dreams™ Burgundy Petunia  
14-16”H x 16-18”W. As grandifloras with 3-1/2” blooms, the Dreams are also noted for their holding ability under hot, humid and rainy conditions. This series continues to be one of the most reliable grandiflora series on the market. Excellent for flower beds, pots and containers.

***Petunia ‘PAS3116’***

Dreams™ Midnight Petunia  
14-16”H x 16-18”W. As grandifloras with 3-1/2” blooms, the Dreams are also noted for their holding ability under hot, humid and rainy conditions. This series continues to be one of the most reliable grandiflora series on the market. Excellent for flower beds, pots and containers.

***Petunia***

Dreams™ Mixture Petunia  
14-16”H x 16-18”W. As grandifloras with 3-1/2” blooms, the Dreams are also noted for their holding ability under hot, humid and rainy conditions. This series continues to be one of the most reliable grandiflora series on the market. Excellent for flower beds, pots and containers.

***Pelargonium zonale***

Americana® Cherry Rose Zonal Geranium  
12-18”H x 10-12”W. Big, beautiful, intensely colored flower clusters are the crowning glory of the Americana™ Series of zonal geraniums. Robust, upright, well-branched habits as well as pretty scalloped leaves in addition to its huge clusters of semi-double flowers. Plants will bloom continuously if well-maintained and can tolerate oppressive summertime heat better than the typical zonal geranium.

***Pelargonium zonale***

Americana® Coral Zonal Geranium  
12-18”H x 10-12”W. Big, beautiful, intensely colored flower clusters are the crowning glory of the Americana™ Series of zonal geraniums. Robust, upright, well-branched habits as well as pretty scalloped leaves in addition to its huge clusters of semi-double flowers. Plants will bloom continuously if well-maintained and can tolerate oppressive summertime heat better than the typical zonal geranium.

***Pelargonium zonale***

Americana® Dark Red Zonal Geranium  
12-18”H x 10-12”W. Big, beautiful, intensely colored flower clusters are the crowning glory of the Americana™ Series of zonal geraniums. Robust, upright, well-branched habits as well as pretty scalloped leaves in addition to its huge clusters of semi-double flowers. Plants will bloom continuously if well-maintained and can tolerate oppressive summertime heat better than the typical zonal geranium.

***Pelargonium***

Calliope® Large Dark Red Hybrid Geranium  
14-16”H x 20-24”W. A cross between Ivy and Zonal Geraniums, these one-of-a-kind geraniums have huge flowers and boast exceptional heat tolerance. Calliope geraniums have a vigorous, mounding to semi-trailing habit that will fill your hanging baskets, patio planters and garden beds.

***Pelargonium***

Calliope® Medium Dark Red Hybrid Geranium  
14-16”H x 20-24”W. A cross between Ivy and Zonal Geraniums, these one-of-a-kind geraniums have huge flowers and boast exceptional heat tolerance. Calliope geraniums have a vigorous, mounding to semi-trailing habit that will fill your hanging baskets, patio planters and garden beds.

***Pelargonium***

Calliope® Medium Hot Hybrid Geranium  
14-16”H x 20-24”W. A cross between Ivy and Zonal Geraniums, these one-of-a-kind geraniums have huge flowers and boast exceptional heat tolerance. Calliope geraniums have a vigorous, mounding to semi-trailing habit that will fill your hanging baskets, patio planters and garden beds.

***Pelargonium x hortorum ‘TOSTC0563’***

Dynamo™ Orange Zonal Geranium  
12-14”H x 12-14”W. Powerful first flush of color with more continuous blooms per plant. It has big, bright flowers and crisp, medium-green leaves. The ultimate geranium for garden beds and large containers. Bright, vibrant orange!

***Pelargonium x hortorum ‘TOSTD0407’***

Galaxy™ Violet Zonal Geranium  
16-20”H x 16-20”W. Mounded plants are vigorous enough to keep their large, semi-double blooms all season in large containers. Offers excellent garden performance. Features a bright, vibrant violet color with excellent branching.

***Petunia ‘PAS3106’***

Dreams™ Pink Petunia  
10-15”H x 10-12”W. Free-flowering, covered in 3 to 4” deep pink blooms with yellow throats. Extra-large blooms and even growth habit makes them a real winner. Good tolerance to the weather and botrytis. Use in window boxes, containers, borders, edges, rock ridges, hanging baskets, anywhere that receives a minimum of 6 hours of full sun and good draining soil. Plants are floriferous, fragrant, and tolerant of light frosts.

***Petunia ‘PAS3113’***

Dreams™ Red Petunia  
10-15”H x 10-12”W. Free-flowering, covered in 3 to 4” deep red blooms. Extra-large blooms and even growth habit makes them a real winner. Good tolerance to the weather and botrytis. Use in window boxes, containers, borders, edges, rock ridges, hanging baskets, anywhere that receives a minimum of 6 hours of full sun and good draining soil. Plants are floriferous, fragrant, and tolerant of light frosts.

***Petunia ‘Balcobees’***

Bee’s Knees Petunia  
8-10”H x 16-22”W. Lush blooms, puts on a high-impact show season long with very little attention. An intense yellow petunia and performance! Holds its yellow color better than any other yellow petunia. Sun.

***Petunia ‘Dray68’***

Black Magic Petunia  
10-16”H x 16-20”W. The blackest black petunia on the market! Features stable, non-stripping blooms with excellent flower form and a controlled, mounded, trailing habit.

***Petunia ‘Balcushlu’***

ColorRush™ Blue Petunia  
10-12”H x 24-36”W. Powerful blue color! Exceptional garden performance from Spring through Summer. Works great in the ground and in containers. Sun.

***Petunia ‘Balcushink’***

ColorRush™ Pink Petunia  
10-12”H x 24-36”W. ColorRush™ Blue Petunia is blanketed in stunning blue trumpet-shaped flowers with violet overtones at the ends of the stems from mid spring to mid fall. Its pointy leaves remain green in color throughout the season.

***Petunia ‘Balcushurp’***

ColorRush™ Purple Petunia  
10-12”H x 24-36”W. ColorRush™ Purple Petunia is blanketed in stunning purple trumpet-shaped flowers with fuchsia overtones and black throats at the ends of the stems from mid spring to mid fall. Its pointy leaves remain green in color throughout the season.

***Petunia ‘Balcushed’***

ColorRush™ Red Petunia  
10-12”H x 24-36”W. Brilliant red color! Exceptional garden performance from Spring through Summer. Works great in the ground and in containers. Sun.

***Petunia ‘Balcushite’***

ColorRush™ White Petunia  
10-12”H x 24-36”W. Lovely white blooms! Exceptional garden performance from Spring through Summer. Works great in the ground and in containers. Sun.

***Petunia ‘PAS3110’***

Dreams™ White Petunia  
10-15”H x 10-12”W The free-flowering grandiflora ‘Dreams White’ is covered in 3 to 4-inch clear white blooms with yellow throats. Attracts bees, butterflies, hummingbirds. Full Sun/Part Shade.

***Petunia ‘KLEPH15313’***

Headliner™ Night Sky® Petunia  
16”H x 24”W. Headliner™ Night Sky® Petunia is bathed in stunning purple trumpet-shaped flowers with sky blue overtones and white spots at the ends of the stems from mid spring to early fall. Its pointy leaves remain green in color throughout the season.

***Petunia ‘KLEPH22684’***

Headliner™ Pink Sky Petunia  
16”H x 24”W. Headliner Pink Sky and its sister variety, Headliner Night Sky, may have the most distinctive blooms you’ve ever seen on this planet. Headliner Pink Sky is primarily pink/rose but features eye-catching splashes of white/cream. Headliner Night Sky is primarily purple with splashes of white/cream.

***Petunia ‘KLEPH22668’***

Headliner™ Strawberry Sky Petunia  
10-16”H x 20-24”W. Medium-vigor, mounded petunia is early flowering for a fast finish and features a dramatic color range. Large strawberry-red blooms have a white speckled pattern that offers outstanding stability and reliability. Provides out-of-this-world color in large pots, hanging baskets and mixes.

***Petunia grandiflora***

Prism™ Sunshine Petunia  
12-14”H x 18-24”W. A Ray of Light. Early-flowering, traditional upright petunia with extra large and showy, bright yellow flowers. A cheerful appealing color in pots, gardens, or baskets.

***Plectranthus scutellarioides ‘Black Dragon’***

Coleus  
12-14”H x 10-14”W. Coleus Black Dragon is an unusually richly-textured, warmly-colored foliage plant. Compact, very showy, and easy to grow, it’s a must-have for anyone with an area of shade.

***Plectranthus scutellarioides ‘UF12-22-1’***

Campfire Coleus  
1-2.5’H x 1.5-2’W. ‘Campfire’ shrugs off extreme heat and is an easy to grow vigorous plant. Intense colors of fiery copper red shine in both sunny or shady locations — a surefire choice for your summer pots and beds.

***Plectranthus scutellarioides ‘UF17-52-25’***

Copperhead Coleus  
14-26”H x 14-16”W. Compact plants add striking color and texture to landscaping, even in shady areas. Chestnut-red foliage fans out to a ruffled, light-green outline – an eye-catching contrast! High-impact and fuss-free, this coleus is ideal for container plantings on small patios and balconies.

***Plectranthus scutellarioides ColorBlaze® Dipt in Wine***

Coleus  
24-40”H x 20-24”W. ‘Dipt in Wine’ is a broad leaved coleus that has a bold crimson color with a lime green edge and a yellow center. A fun accent plant that grows well in full sun to part shade.

***Plectranthus scutellarioides ‘UF04335’***

Electric Lime® Coleus  
14-28”H x 16-24”W. Vibrant, incandescent foliage of yellow-green in the summer border. Serrated leaves with distinctive chartreuse veining excel in sun or glow in the shade, as a focal point or as supporting foliage for splashy flowers. Versatile, easy-upkeep plants are prime candidates for containers. Feel the neon glow.

***Plectranthus scutellarioides ‘Rose’***

Florida Sun Rose Coleus  
20”H x 10-15”W. Fringed leaves of deep purple with a pink/magenta edge often have yellow, green and red highlights. While classified as an upright, this variety will often develop a mounding/trailing tendency that is great for the front of a pot. Sun tolerant.

***Plectranthus Rainbow Festive Dance***

Coleus  
16”H x 10-16”W. Rainbow Festive Dance Coleus’ attractive serrated pointy leaves remain dark red in color with distinctive cherry red veins and tinges of light green throughout the year on a plant with an upright spreading habit of growth. Shade to part shade.

***Plectranthus scutellarioides ‘UF08-19-10’***

FlameThrower™ Chili Pepper Coleus  
20”H x 18”W. Bold colors in a compact plant make this striking variety ideal for small pots and mixed containers; great garden performance in sun or Shade.

***Plectranthus scutellarioides ‘UF09-8-37’***

FlameThrower™ Habanero Coleus  
12-18”H x 16-18”W. Bright bronze-orange foliage on compact plants. Low-maintenance, high-impact plants are perfect for mixed pots and landscaping. Great performance in sun and shade.

***Plectranthus scutellarioides ‘UF17-64-1’***

Mainstreet™ Beale Street Coleus  
24-36”H x 24-36”W. Coleus Main Street Beale Street is an outstanding variety exhibiting deep red foliage that holds its color extremely well in the garden. The rich color doesn’t fade, bleach or get spotty as the season moves into late summer. The lush, bushy plant grows uniformly. Sun or shade.

***Plectranthus scutellarioides***

Mainstreet™ Venice Boulevard Coleus  
18-24”H x 12-18”W. Main Street™ ‘Venice Boulevard’ Coleus’ attractive serrated leaves are golden to chartreuse with coppery-red veining. This pleasing color combination has been quite sought after in recent years, and we are happy to see it available in the Main Street series. It has compact, medium growth habit with good branching. Excellent for containers and landscape use. Sun tolerant.

***Plectranthus scutellarioides***

Stained Glassworks™ Royalty Coleus  
18-24”H x 18-24”W. Each variegated leaf has a hot pink centre and dark plummy margin, fantastic colour contrast. Vigorous, bushy and rounded habit, an eye-catching focal point whether planted in patio pots or containers or in annual beds along with summer perennials. A versatile plant, easy to maintain, does well in both sun or shade.

***Plectranthus scutellarioides* ‘PAS2018’**

Wizard® Jade Coleus

10-14”H x 10-12”W. Wizard Jade’s attractive serrated pointy leaves remain forest green in color with hints of creamy white throughout the season, with an upright spreading habit of growth. Shade to part shade.

***Plectranthus scutellarioides* ‘PAS406822’**

Wizard® Mosaic Coleus

12-14”H x 10-12”W. Wizard Mosaic Coleus’ attractive serrated pointy leaves remain light green in color with showy ruby-red variegation and tinges of creamy white throughout the season. Shade to part shade.

***Portulaca grandiflora***

Happy Hour™ Mix Moss Rose

4-6” H. Sundial Mix is vigorous with large 3” double flowers that stay open longer than other varieties. Fuchsia, pink, orange, scarlet, yellow and white. Sensational peach-coral blooms. Full Sun.

***Ptilotus exaltatus* ‘Joey’**

Pink Mulla Mulla

12-18”H x 10-12”W. Boasts masses of large, long-lasting, conical spikes of feathery flowers, up to 3” resembling bottle brushes. Luminous blossoms start out silver maturing to neon pink. Attracts bees and butterflies, heat and drought tolerant. Full sun, well drained soil. Good cut-flower.

***Rhodanthe chlorocephala* ‘Pierrot Red’**

Helipterum, Paper Daisy

18–24”H. Productive plants produce, 1–2” upward-facing, daisy-like flowers with papery petals. Most blooms have a dramatic, contrasting black center while a small percentage have golden centers. The flowers have a long vase life and also make excellent dried flowers.

***Rudbeckia hirta* ‘Indian Summer’**

Black-eyed Susan

3-4’H x 12-18”W. The semi-double and single flowers are adorned with bright, golden-yellow rays surrounding a dark chocolate center disk. Blooming profusely from early summer to frost, it provides weeks of eye-catching color. The flowers are produced in such quantities that they almost cover the lovely foliage of mahogany leaves. Indian Summer is biennial or short-lived perennial and is accordingly often grown as an annual.

***Rudbeckia hirta* ‘Prairie Sun’**

Black-eyed-Susan

30-36”H x 18-24”W. Tall, robust, daisy-like blooms with peachy orange petals that wash to yellow at the tips surrounding green centers. Great for cutting. Stunning paired with Fountain Grasses and Perovskia. Full sun.

***Rudbeckia hirta* Sunspot Yellow Bicolor**

Black-eyed Susan

10-12”H x 12-14”W. The flowers are a bright and showy yellow and make perfect cut flowers and are attractants for pollinators and beneficial insects. Rudbeckia hirta is a short-lived perennial that should be treated as an annual. It may likely endure few winters, but will often self-seed prolifically. One of the best plants for attracting butterflies and other pollinators. Ideally suited for garden beds, landscapes and containers.

***Ruellia* sp.**

Mexican Petunia

1-3’ H. Willow-like foliage constantly covered with 1-2”, rich blue, petunia-like flowers all summer. Sun/Part Shade.

***Salpiglossis* ‘Kew Blue’**

Painted Tongue

2 1/2’H x 12”W. Velvety blue-purple trumpets with burgundy centers distinguish this rare variety. Intense deep blue, nearly-black blooms remind us of a dark night. Flecks of pollen splash across the petals like stars in the sky. Excellent focal plant, plays so beautifully when planted with white blooms, like moonflower. This rare painted tongue is deeply dramatic, sure to draw attention.

***Salpiglossis***

Royale Casino Mix Painted Tongue

Funnel-shaped and velvety in appearance. Royale Mix is superior in handling the stresses of weather changes, blooming for the entire season. Plants reach up to 2 1/2’ and are multi-branching. Rich hues of purple, maroon, chocolate red, golden yellow, and scarlet are common, most with veins of yellow and contrasting colors. Lovely as a cut flower. 2” blooms.

***Salvia coccinea* Summer Jewel™ Pink**

Salvia

15-20”H x 10-15”W. It is a wildly popular pollinator attractant, especially for its namesake, the hummingbird! Stellar border plantings, color bed plantings and containers. Suitable for woodland gardens & meadow plantings. Grows in part shade or full sun.

***Salvia coccinea* Summer Jewel™ Red**

Salvia

15-20”H x 10-15”W. Noted for its prolific blooms throughout the growing season, Salvia coccinea ‘Summer Jewel Red’ (Scarlet Sage) is a compact, upright perennial boasting loose spikes of two-lipped, tubular, brilliant red flowers. Hummingbirds can’t resist!

***Salvia coccinea* Summer Jewel™ White**

Salvia

15-20”H x 10-15”W. Neat and heavy blooming plants produce spikes of showy flowers continuously from spring until fall. They are hummingbird magnets. Blooms appear two weeks earlier, and hold better in wind and rain compared to other salvias of this type.

***Salvia* ‘Vivisal’**

Victoria Blue® Sage

12-24”H x 10-12”W. Resembling lavender with its rich violet-blue flower spikes, blooms profusely from late spring to frost. Densely packed small flowers peeking from calyces. Fresh fragrant leaves. Sun to light shade.

***Salvia guaranitica* ‘Black and Blue’**

Anise-scented Sage

2-3’H x 12-18”W. A flower of Salvia guaranitica. The striking flowers are 1½-2” long, with purple to true blue petals surrounded by a green calyx. The petals form a hood-like upper lip and a shorter, downward pointing lower lip, sort of resembling an open parrot’s beak or snake’s mouth, around whisker-like stamens.

***Salvia guaranitica* ‘Black and Bloom’**

Anise-scented Sage

2-3’ H x 12-18”W. Deep cobalt blue flowers with black calyces. Flowers appear on spikes to 15” long over a long midsummer to fall bloom. Sun/Part Shade.

***Salvia guaranitica* ‘Purple and Bloom’**

Anise-scented Sage

2-3’H x 12-18”W. Stunning, elegant deep purple blooms emerge on dark purple spikes from late spring until frost; fast growing and vigorous; a wonderful large-bodied plant, ideal for patio containers, garden landscapes and flower arrangements; heat and drought tolerant. Great choice for attracting bees, butterflies and hummingbirds.

***Salvia splendens***

Vista™ Mixture Scarlet Sage

10-12”H x 7-8”W. Sitting on compact plants, the dense spikes of vista mix feature all the vista colors. Use in garden beds, containers, or borders. Sun and well-drained soil keep them happy. Bees, butterflies, and hummingbirds flock to the colorful spikes while deer tend to pass by.

***Salvia splendens* ‘PAS3285’**

Vista™ Red Scarlet Sage

10-12”H x 8”W Dense spikes and dark green foliage hold their color all season. Full Sun.

***Scaevola aemula* ‘Bomy Dabule’**

Bombay® Dark Blue Fan Flower

6-10”H x 14-18”W. High versatility makes it a wise choice for potted combinations or garden ground coverage. Create beautiful potted combinations and garden landscapes with these unique fan flowers.

***Sedum japonicum* ‘Tokyo Sun’**

Sedum

2” H x 8” W. Tiny yellow succulent leaves. Best yellow color in sun, more lime-green in shade. Full Sun.

***Senecio serpens***

Mini Blue Chalksticks

4” H. Dwarf form of South Africa’s Senecio repens. Powder blue, cylindrical, tapered leaves; white pom flower heads. Full Sun/Part Shade.

***Strobilanthes auriculata* var. *dyeriana***

Persian Shield

12-24”H x 18-24”W. Iridescent, colorful leaves of purple, green and silver all season; heat tolerant. Sun to part sun.

***Tagetes erecta* ‘PAS1060545’**

Taishan® Orange African Marigold

10-12”H x 8-10”W. Bold orange ball-shaped flowers at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. Its fragrant ferny leaves remain dark green in color throughout the season. Sun to part sun.

***Tagetes erecta* ‘PAS1060543’**

Taishan® Yellow African Marigold

10-12”H x 8-10”W. Bright yellow ball-shaped flowers at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. Its fragrant ferny leaves remain dark green in color throughout the season. Sun to part sun.

***Tagetes erecta* ‘White Swan’**

African Marigold

28-36”H. 2–3” cream to pale yellow-colored, fully double, uniform blooms borne on productive, sturdy, uniform plants. High-quality blooms produce a mild, sweet, marshmallow fragrance, without the typical strong marigold scent. White Swan is significantly taller and higher quality than all other cream-colored marigolds.

***Tagetes patula* ‘PAS2276’**

Bonanza Yellow™ Marigold

12”H Bright lemon yellow flowers are attractive to pollinators.

***Tagetes patula* Disco Yellow**

French Marigold

10”H x 6”W. Disco Yellow Marigold features bold yellow daisy flowers from late spring to late summer. The flowers are excellent for cutting. Its fragrant ferny leaves remain dark green in color throughout the season.

***Tagetes patula* Durango® Mix**

French Marigold

10-12”H x 6-8”W. Setting the highest standard for anemone-type marigolds with strong stems, excellent branching, and extra large, 2-2½”, flowers that bloom early. These bushy, vigorous plants are well suited for hot, dry locations and work well in containers and in masses for bold color in the garden.

***Tagetes patula ‘PAS221545’***

Durango® Red French Marigold  
10-12”H x 6-8”W. Durango Red exhibits large 2-2.5” mahogany red anemone flowers. The Durango series is relied on for their uniform habit across the series and strong stems.

***Thunbergia alta***

Susie™ Mixture Black-eyed Susan Vine  
Sun. Small orange, yellow, and white blooms either with or without jet-black centers are produced in great profusion all summer on this dainty vine. Vines can be grown up to 6 to 8 feet on a small erect support or in a container.

***Thunbergia alata ‘PAS3552’***

Susie™ Yellow with Eye Black-eyed Susan Vine  
Susie Yellow with Black Eye’ is a vigorous selection of black-eyed Susan vine that features yellow blooms with black center eyes and a well-branched habit. Mature vines will reach up to 8’ tall and 2’ wide in one growing season.

***Thunbergia alata ‘PAS3554’***

Susie™ Orange with Eye Black-eyed Susan Vine  
Susie Orange Black-Eye is a selection of the traditional black-eyed Susan vine that gardeners have loved for generations. These 1- to 2-inch blooms arise very profusely, facing out from the vine. Tube-shaped and richly colored, they sport golden-orange petals surrounding a violet-black throat.

***Thunbergia alata ‘PAS884644’***

Susie™ White with Eye Black-eyed Susan Vine  
This fantastic climber will grow in a flash, and produce lashings of dark-eyed white flowers over a prolonged period in summer and autumn. It’s perfect for smothering an unsightly fence during the summer, or it can be trained onto an obelisk or arch if you want to create some height.

***Tithonia rotundifolia ‘Torch’***

Orange Mexican Sunflower  
4-6’H x 3’W. Wide multi-branched plant with tons of 4” wide rich orange flowers that butterflies and bees swoon for. Wonderfully velvety soft stems and leaves. Tolerates heat like a champ. Full sun.

***Torenia ‘Sunrenilabu’***

Summer Wave® Large Blue Wishbone Flower  
SUMMER WAVE® Large Blue Torenia has true blue color, forming trumpet-shaped blooms, flowering all season long, while attracting hummingbirds and bees. Large Blue is self-cleaning, so no deadheading and very little maintenance. Torenia loves filtered sun, and does well in shady locations.

***Verbena bonariensis Finesse®***

Brazilian Vervain  
24-48”H x 18-24”W. A staple of the cottage garden, cutting garden, and meadow. It tolerates poor soils beautifully, asking only for good drainage and plenty of sunshine. The ideal addition to a wildflower garden. Attractive for beneficial insects. A great filler for the perennial border Long flowering season until frost.

***Verbena bonariensis Vanity***

Brazilian Vervain  
30-47”H x 18-24”W. The airy, free-spirited tall verbena we all love now has a companion in this compact, freely branching, flower-filled verbena named Vanity. The wiry, angular stems culminate in vivid violet-purple flower clusters that entice beneficial insects and hummingbirds.

***Vinca major ‘Maculata’***

Vinca Vine  
3-6”H x trailing. Attractive variegated foliage contrasts nicely with blue flowers. Easy-care plant stylishly accents other bright colors. Adds a touch of class to any garden planting. Perfect for all kinds of containers, including window boxes, hanging baskets and combination planters. Tumbles beautifully over rocks, slopes.

***Zinnia angustifolia Star White***

Zinnia  
12”H x 12”W Has a low, mounded shape and narrow, dark green foliage. The flowers are daisy-shaped and have pure white petals with gold centers. Full Sun.

***Zinnia elegans Benary’s Giant Deep Red***

Zinnia  
24-36”H. High yields of long, sturdy stems with 4-6”, fully double, dahlia-like blooms. Excellent vase life. Vigorous plants hold up well in summer heat and rain. Sun

***Zinnia elegans Benary’s Giant Mix***

Zinnia  
36-48”H x 30”W Superior strain of zinnia originating from a historic German seed company. Large, double blossoms 4-5”, in multiple, colors. Full Sun.

***Zinnia elegans Benary’s Giant Orange***

Zinnia  
36-48H x 30”W. Zinnia ‘Benary’s Giant Orange’ features rounded, fully double flowers packed with glowing orange petals and opening up to 6 in. across (15 cm). As the flower matures, a circle of small golden stars surrounds its center disk.

***Zinnia elegans Benary’s Giant Purple***

Zinnia  
24-36”H. High yields of long, sturdy stems with 4-6”, fully double, dahlia-like blooms. Excellent vase life. Vigorous plants hold up well in summer heat and rain. Sun.

***Zinnia elegans Benary’s Giant Golden Yellow***

Zinnia  
24-36”H x 30”W. Zinnia ‘Benary’s Giant Golden Yellow’ features rounded, fully double flowers packed with golden yellow petals and opening up to 4-6 in. across (10-15 cm). As the flower matures, a circle of small golden stars surrounds its center disk.

***Zinnia angustifolia Profusion 5-Color Mix***

Zinnia  
12-18” H. Highly prolific bloomers produce masses of 2” semi-double apricot, cherry, fire, orange and white flowers. Full Sun.

***Zinnia Profusion Cherry***

Zinnia  
12-18”H x 12-20”W. Single cherry rose blooms are borne just above dark green foliage. The flowers can be cut and used in informal arrangements. Plants will produce more flowers if cut and will reward you with flowers all summer long. Heat and drought tolerant. Sun.

***Zinnia Profusion Fire***

Zinnia  
14-18”H x 20-24”W. produce bright red-orange 2 in. flowers. Excellent performers in borders or pots, stunning when massed in the landscape. The neat and tidy plants tolerate heat, humidity, drought, and powdery mildew. Sun.

***Zinnia Profusion White***

Zinnia  
12-24”H x 12-24”W. Blooming profusely late summer to frost, perfect for a sunny border, resists powdery mildew. Adored by butterflies hummingbirds, and bees. Sun.

***Zinnia Profusion Yellow***

Zinnia  
12-24”H x 12-24”W. Blooming profusely late summer to frost, perfect for a sunny border, resists powdery mildew. Adored by butterflies hummingbirds, and bees. Sun.

***Zinnia elegans State Fair Mix***

Zinnia  
30-36” H. Jumbo 5” semi-double dahlia-type flowers, a wide range of colors and tall, robust plants. Colors include red, yellow, orange, purple, pink, white and bicolor. Full Sun.

***Zinnia marylandica ‘PAS989992’***

Double Zahara™ Cherry Zinnia  
12-24” x 12-24”W. Fully double, large, cherry-red flowers, makes a bold statement in the landscape. Blooms early summer to frost. Perfect for a sunny border, resists powdery mildew. Adored by butterflies hummingbirds, and bees. Sun.

## ANNUAL GRASSES

***Carex comans ‘Bronco’***

Leatherleaf Sedge  
8-10”H x 12-14”W. Carex Bronco (also known as Leatherleaf Sedge) is a finely textured bronze-brown grass with a arching habit. Perfect for spilling over walls or in containers.

***Carex buchananii ‘Red Rooster’***

Leatherleaf Sedge  
18-24”H x 12-18”W. Finely textured ornamental grass has an upright, V-shaped habit and adds texture, form and motion to plantings. Red-bronze color looks great mixed with other grasses and plants in containers and beds. It does best in a sunny location.

***Juncus effusus ‘Big Twister’***

Corkscrew Rush  
1.5-2’H x 1.5’-2W Full Sun – Part Shade. Large, spiraling foliage, resembling giant corkscrews. This low maintenance plant is ideally suited in moist bright shade. Adapts well to containers.

***Juncus ‘Blue Dart’***

ColorGrass® Rush  
3’H x 1’W Attractive grassy leaves emerge lime green in spring, turning bluish-green in color throughout the season.

***Melinis nerviglumis ‘Savannah’***

Savannah Ruby Grass  
6-18”H x 9-12”W. Showy ornamental grass that forms small clumps of soft blue-green foliage that turns red in fall. Its 3 to 4 in. long, fluffy plumes of ruby pink flowers slowly fade to creamy white. The blooms carry well into fall and can be used for fresh or dried flowers.

***Nassella tenuissima ‘Ponytails’***

Mexican Feather Grass  
Southwest Native with very fine foliage, not hardy.

***Pennisetum setaceum***

Green Fountain Grass  
2-4’H x 2-3’W. A deciduous, warm-season ornamental grass with a neat, fountain-like form. Feathery, red flower panicles are fuzzy and foxtail-like. Blooms start in summer, aging to a creamy-tan in fall. Medium green foliage is finely textured and arching.

***Pennisetum setaceum ‘Rubrum’***

Purple Fountain Grass  
3-5’H x 2-4’W Bronze-purple foliage topped with graceful arches of burgundy toned seed heads.

***Setaria italica ‘Highlander’***

Foxtail Millet  
3-6” pendulous heads give tapestry-like effect to arrangements. Ht. 28-36”.

## MARTAGON LILY & Species

***Lilium ‘Sunny Morning’***

Hybrid Martagon Lily  
4-5’ H. Striking deep orange-yellow recurved flowers with gold circular spots. Hybridized and named in Holland. Formerly known as ‘Nicotine.’ Very desirable. June.

***Lilium speciosum ‘Uchida’***

Japanese Lily  
3-4’ H. Deeply reflexed, brilliant pink petals are flecked with crimson and trimmed in white. A glorious garden classic.  
Mid to late summer.

***Lilium ‘Alberta Morning’***

Hybrid Martagon Lily  
3-4’ H.

***Lilium ‘Arabian Knight’***

Hybrid Martagon Lily  
3-4’ H. Up to twenty nodding recurved blooms are rusty-red with large creamy-gold spots. Hybridized by George Slate, named by Hugh and Ruth Cocker, Rochester, MN. June.

***Lilium ‘Claude Shride’***

Hybrid Martagon Lily  
3-4’ H. Fifteen to twenty purplish-red recurved blooms with a few yellow-orange spots and slightly ruffled petals. Named for the hybridizer Claude Shride by Hugh and Ruth Cocker of Rochester, MN. June.

***Lilium ‘Fairy Morning’***

Hybrid Martagon Lily  
3-4’ H. Dainty pendant flowers in shades of pink, orange, and golden caramel with maroon spots.

***Lilium ‘Golden Morning’***

Hybrid Martagon Lily  
3-4’ H. A richly blooming yellow with dark red speckled martagon lily with fragrant Turkish cap flowers.

***Lilium ‘Guinea Gold’***

Hybrid Martagon Lily  
3-4’ H. Striking.

***Lilium ‘Manitoba Morning’***

Hybrid Martagon Lily  
3-4’ H. The recurved tips of these speckled Turkscap flowers—yellow-orange with purple spots—are rosy pink.

***Lilium ‘Orange Marmalade’***

Hybrid Martagon Lily  
3-4’ H. Striking dark orange-red outfacing flowers on rather tall stems. Pollen-free. Hybridized by Ed Robinson of Canada. June.

***Lilium ‘Peppard Gold’***

Hybrid Martagon Lily  
4-5’ H. Pink buds open to fragrant golden flowers with recurved petals. 30 or more flowers per stem. June.

***Lilium ‘Pink Morning’***

Hybrid Martagon Lily  
3-4’ H. Peachy pink flowers dangle like little lanterns in the sun.

***Lilium ‘Purple Morning’***

Hybrid Martagon Lily  
3-4’ H. Glossy purple-pink flowers that have recurved petals upon erect stems.

***Lilium ‘Snowy Morning’***

Hybrid Martagon Lily  
4’ H. A white-flowering variety with green at the center, adds a shower of flowers to the garden in mid to late summer.

## LILIES Asiatic, Oriental, Trumpet, and hybrids

***Lilium ‘African Queen’***

Trumpet Lily  
Trumpet 3-4’ H. Striking. June.

***Lilium ‘Aubisque’***

Oriental Lily  
Oriental 3-4’ H. Striking. June.

***Lilium ‘Avalon Sunset’***

Hybrid Lily  
A.O.A. 3-4’ H. Striking. June.

***Lilium ‘Zanlorossa’***

(Barossa) Longiflorum Trumpet Lily  
Oriental 3-4’ H. Striking. June.

***Lilium ‘Bentley’***

Longiflorum Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Big Smile’***

Oriental Lily  
Oriental 3-4’ H. Striking. June.

***Lilium ‘Black Beauty’***

Oriental Trumpet Lily  
O.T. 3-4’ H. Striking. June.

***Lilium ‘Boardwalk’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘Brindisi’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘BudLight’***

Oriental Trumpet Lily  
O.T. 3-4’ H. Striking. June.

***Lilium ‘Cameleon’***

Asiatic Lily  
Trumpet 3-4’ H. Striking. June.

***Lilium ‘Casa Blanca’***

Oriental Lily  
Oriental 3-4’ H. Striking. June.

***Lilium ‘Courier’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘Delicate Joy’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Domaso’***

Oriental Lily  
Oriental 3-4’ H. Striking. June.

***Lilium ‘Dynamix’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘Easy Dance’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Easy Dream’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Easy Love’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Easy Spot’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Easy Waltz’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Easy Whisper’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘The Empress’***

Oriental Lily  
Oriental 3-4’ H. Striking. June.

***Lilium ‘Ercolano’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘Eyeliner’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘Fangio’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium lancifolium ‘Flore Pleno’***

Tiger Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Forever Linda’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Forever Summer’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Forever Susan’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Four Queens’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘Fremont’***

Longiflorum Asiatic Lily  
L.A. 3-4’ H. Striking. June.

***Lilium ‘Fusion’***

Hybrid Lily  
Interdivisional 3-4’ H. Striking. June.

***Lilium ‘Golden Joy’***

Asiatic Lily  
Asiatic 3-4’ H. Striking. June.

***Lilium ‘Golden Romance’***

Oriental Lily  
Oriental 3-4’ H. Striking. June.

***Lilium Golden Splendor Group***

Trumpet Lily  
Trumpet 3-4’ H. Striking. June.

***Lilium ‘Golden Stone’***

Longiflorum Asiatic Lily

## PAEONIA (PEONY)

**VE-Very Early, E-Early, EM-Early Mid-season, M-Mid-season, LM-Late Mid-season, L-Late**

***Paeonia ‘Amalia Olson’***

Peony  
Pure white, late season, double forming blooms. APS Gold Medal Winner. Makes an excellent cut flower. Tolerates heat well.

***Paeonia ‘Bartzella’***

Intersectional Peony  
24-32” H. Semi-double. Large lemon-yellow flowers with soft red center flares. Will tolerate some shade. 2006 APS Gold Medal Winner.

***Paeonia ‘Bouquet Perfect’***

Peony  
Bright solid pink, Bomb Double blooms, arrive late season. Mildly fragrant. Excellent cut flower and stem strength.

***Paeonia ‘Bowl of Cream’***

Peony  
Award winning ‘Bowl of Cream’ features very large, rich creamy-white, fully double blossoms that can reach up to 12” in diameter. Flowers are packed with delicately ruffled inner petals that the golden stamens are nearly hidden. Slightly fragrant blooms are borne on strong stems.

***Paeonia ‘Charlie’s White’***

Peony  
White, crown-type double, lightly fragrant, early, 36” tall, lactiflora. Large outer petals surround globular in curved white bomb with a glow of yellow from inside.

***Paeonia ‘Claudia’***

Peony  
Peony ‘Claudia’ is a Midseason semi-double coral pink Peony Herbaceous Hybrid, fine clear coral flowers opens light cherry, becoming pale salmon pink, average height 36 inch

***Paeonia ‘Cora Louise’***

Peony  
36”H. Large, semi-double, lightly fragrant blossoms, white with striking dark lavender central flares, stand above lush, toothed foliage. An especially vigorous plant - producing up to 50 blooms in a single season; the sturdy flower stems require no staking. A wonderful addition to any spring bouquet.

***Paeonia ‘Coral Charm’***

Peony  
36” H. Semi-double. Large coral to peach flowers. Vigorous bush.

***Paeonia ‘Coral Sunset’***

Peony  
Coral Sunset’ is a herbaceous peony, among the first to bloom, it is exceptionally beautiful! Large, semi-double bowl-shaped blossoms, and ruffled petals that emerge intense coral with rose overtones. Modestly fragrant, strong stems. It will typically grow 30-32” tall.

***Paeonia ‘RTPIV790-01’ Duchesse de Lorraine***

Intersectional Peony  
Very large, wonderfully fragrant, bright yellow, double, dense bomb-like blooms on strong stems rise above a lush deep green foliage. Truly the first fully double yellow Itoh peony. The sturdy stems will not require staking. An excellent spring specimen for sunny gardens and shrub borders.

***Paeonia ‘Early Scout’***

Peony  
24” H. Single. Dark red flowers with fern leaf foliage.

***Paeonia ‘Elsa Sass’***

Peony  
The white, fragrant, fully double flowers of Peony ‘Elsa Sass’ may carry a soft pink blush when in bud stage. Once open, they are so packed with petals they resemble large Roses. This elegant favorite, the latest to bloom of the white Peonies, has delighted gardeners since its introduction in 1930.

***Paeonia ‘Felix Supreme***

Peony  
Peony ‘Felix Supreme’ is beloved for its intense red-pink double blooms, which are as beautiful in the landscape as they are in vases. The subtly scented flowers are large and showy, with sizable outer petals and dense inner segments that lend verticality. Introduced in 1955. Midseason.

***Paeonia ‘Frances Willard’***

Peony  
Opens pale pink, changing to white with yellow suffusion in collar; develops a hollow, symmetrical center and bears a few faint red lines; mildly fragrant. Tall; very floriferous; strong stems. Heavy dark foliage. Blooms retain their excellent form, and the habit of the plant gives it value for garden decoration.

***Paeonia ‘Geraldine’***

Peony  
Purplish pink color is deeper in cool climates. Japanese type with wide outer petals around a large cluster of narrow, pointed inner petals. Vigorous.

***Paeonia ‘Going Bananas’***

Intersectional Peony  
Big, deep scarlet flowers with gold center anthers provide a stunning spring display on this unique and rare Itoh peony. Blooms are held on strong stems that need no staking, showcased against a robust mound of lush, dark green foliage that holds up well through summer. Perfect for mid-border.

***Paeonia ‘Julia Rose’***

Intersectional Peony  
Itoh Peony ‘Julia Rose’ is a remarkable Intersectional Peony with magnificent single to semi-double blossoms changing color over time. Cherry red in bud, they open to orange and apricot, with delicate purple flushed edges, and fade later to yellow.

***Paeonia ‘Kansas’***

Peony  
36”H. The vivid crimson flowers of Peony ‘Kansas’ are borne on exceptionally strong stems. The show is glorious in the garden or in a vase. This old variety has been around since 1940 and it’s still widely considered the very best double red peony.

***Paeonia ‘Lollipop’***

Intersectional Peony  
Lollipop’ is a gorgeous variety that bears an abundance of yellow, semi- to fully double, 6” flowers liberally streaked and striped in clear candy red. The big blooms cover neat, mounding plants for several weeks in the landscape or cutting garden, dependably appearing from May until June.

***Paeonia ‘Lovely Rose’***

Peony  
Peony ‘Lovely Rose’ is an Early semi-double pink Peony Herbaceous Hybrid, pink, soft warm pink flower with lovely large upright petals that exude elegance, very erect stems on a shorter plant that will attract attention in the flower bed.

***Paeonia ‘Many Happy Returns’***

Peony  
Slightly scented, award-winner Peony ‘Many Happy Returns’ is a spectacular Hybrid Peony with medium-sized, double, rich cardinal-red flowers, packed with warm red petals. The eye-catching blossoms retain their color in strong sunshine and display nicely rounded guard petals.

***Paeonia ‘Mary Jo LeGare’***

Peony  
Peony Mary Jo Legare is a Midseason bomb Pink Peony Herbaceous Hybrid, pink, A very deep pink double with outer petals that fades to pale pink but the deep pink is retained in the heart of the bloom until petals drop, average height 24 inches. Makes a good cut-flower.

***Paeonia ‘Monsieur Jules Elie’***

Peony  
Introduced to American gardeners in 1888, award-winner Peony ‘Monsieur Jules Elie’ (Paeonia lactiflora) is still incredibly popular. The very large, double blossoms are richly packed with light rose-pink petals, elegantly ruffled, and with a delicate silvery sheen at their tips.

***Paeonia ‘Morning Lilac’***

Peony  
One of the Intersectional (Itoh) Peonies, ‘Morning Lilac’ is a gem that will set your garden apart with its large, fragrant, lilac-pink blooms! Their form ranges from single to semi-double, with dark centers and unusual petals highlighted by purple and white streaks. Plants have a shapely habit and dark green leaves, and will come into flower before your herbaceous Peonies. Deer resistant, too.

***Paeonia ‘Pastel Splendor’***

Intersectional Peony  
The upward-facing, lightly fragrant flowers of Itoh Peony ‘Pastel Splendor’ are artful and intriguing, each 4-6” single bloom sporting lavender-pink petals that are creamy near the center with deep reddish-purple flares at the base, all the better to provide contrast for the creamy center. This popular Intersectional variety is a vigorous grower, and mature plants have a high blossom count, even by Peony standards. Midseason.

***Paeonia ‘Old Faithful’***

Peony

Paeonia ‘Old Faithful’ is the biggest red peony in existence. Dark velvet red, double, lightly fragrant, 36” tall, midseason, hybrid. Regal velvety red flowers. Strong stems with healthy, dark green foliage. APS Gold Medal Award 1997. Award of Landscape Merit 2009. The broad buds, shaped like a rose, will transform to even broader flowers.

***Paeonia ‘Pastelegance’***

Peony

Peony ‘Pastelegance’ is a cross between Peonies ‘Salmon Dream’ and ‘Lemon Chiffon.’ This beauty produces elegant double blossoms in tones of pale pink and cream, adding considerable romance to the spring garden and bouquets. Stamens are woven throughout the blooms, which are held on sturdy stems and framed by generously sized glossy green foliage. Winner of the American Peony Society grand champion or “Queen of the Show” prize. Midseason.

***Paeonia ‘Paula Fay’***

Peony

This award winning peony is incredibly showy in bloom, revered for its excellent plant habit and dark green foliage. Glowing hot pink, large, semi-double flowers with a central boss of bright gold stamens are produced on strong stems early in the peony season.

***Paeonia ‘Peter Brand’***

Peony

Peter Brand’ is a sumptuous double variety of deep ruby red that matures to a purplish hue, giving the landscape a cast of cool, calming purple. The lush flowers reach an impressive 6” wide and look great in cut-flower bouquets and fresh floral arrangements.

***Paeonia ‘Pink Double Dandy’***

Intersectional Peony

Large, fragrant, semi double to double blossoms in a captivating shade of violet pink arrive in profusion on ‘Pink Double Dandy,’ an Intersectional (Itoh) Peony. Large, fragrant, semi double to double blossoms in a captivating shade of violet pink arrive in profusion on this Intersectional Peony. The color intensifies toward the base of each flower, beautifully framing the golden centers. These plants form a compact and tidy mound of foliage, and are perfect for smaller gardens or the middle of a border.

***Paeonia ‘Pink Hawaiian Coral’***

Peony

Among the first peonies to bloom, multiple award-winner ‘Pink Hawaiian Coral’ is exceptionally beautiful! Glowing semi-double, coral pink blossoms gradually opening to reveal their yellow stamens, and fading to soft apricot-pink as they mature. Fragrant blooms. Strong stems.

***Paeonia ‘Rachel’***

Peony

Free-flowering ‘Rachel’ has stunning deep rosy-red blossoms that are long-lasting and dependable, even in the wet weather that can cause lesser varieties to droop. Golden stamens peek from between the many petals like shy stars in a crimson sky. Mildly fragrant.

***Paeonia ‘Sarah Bernhardt’***

Peony

34-36” tall x 24-36” wide. Like their namesake, the legendary stage actress, ‘Sarah Bernhardt’ Peony is steeped in poise and elegance. Luxurious layers of ruffled petals make for dramatic blossoms. ‘Sarah Bernhardt’ holds its showy blooms atop sturdy stems, lending an air of sophistication to the garden.

***Paeonia ‘Scarlet Heaven’***

Peony

Big, deep scarlet flowers with gold center anthers provide a stunning spring display on this unique and rare Itoh peony. Blooms are held on strong stems that need no staking, showcased against a robust mound of lush, dark green foliage that holds up well through summer. Perfect for mid-border.

***Paeonia ‘Scarlet O’Hara’***

Peony

Extremely vigorous, award-winner Peony ‘Scarlett O’Hara’ is a well-named Hybrid Peony with its vivacious, fiery scarlet-red flowers. Fragrant, the large single blossoms feature nicely rounded petals surrounding a center packed with golden-yellow anthers.

***Paeonia ‘Tropical Isle’***

Peony

Tropical Isle’ has ruffled center petals of coral, fading to white. With a strong stem structure. Great for dried or fresh cut flowers arrangements.

***Paeonia ‘Victoire de la Marne’***

Peony

The flower of this peony variety is beautiful purple-red colored and double filled. The flower of the Paeonia ‘Victoire de la Marne’ is long lasting on water. The flowers of this variety are very large in size. And this peony flowers abundantly and has strong stems.

***Paeonia ‘White Sands’***

Peony

Paeonia ‘White Sands’ is a Late Midseason White Peony Lactiflora, white, anemone to bomb form, white guard petals surround a center of narrower white petals, tawny petal-odes mixed in, on younger plants the tawny petal-odes predominate, fragrant, an easy performer, strong, erect bush, many stems.

## ROSES

***Rosa ‘BAIrage’***

Easy Elegance® All the Rage Shrub Rose

Shrub. 2008 U.S.A., (3-5ft H) Multi-colored rose with tight coral buds swirling open to apricot-colored blossoms with luminous yellow centers. Blooms age to lipstick pink before dropping cleanly away. Everblooming.

***Rosa ‘BAIypso’***

Easy Elegance® Calypso Shrub Rose

Shrub. (2ft H.) Blooms are a coral-apricot blend, repeat blooming, semi-double blooms, with dark green glossy foliage. Excellent disease resistance. Zone 5.

***Rosa ‘CA 29’***

First Editions® Campfire Shrub Rose

Shrub 3’x3’. A beautiful variety producing clusters of pink and white blooms with intense yellow centers; habit is upright with vigorous dark green glossy foliage that is very resistant to blackspot; all roses need full sun and well-drained soil.

***Rosa ‘BAIark’***

Easy Elegance® Como Park Shrub Rose

Shrub. 2009 U.S.A., (2-3ft H) Blooms early, producing masses of lightly scented, 3-inch double recurrent blossoms that will blanket your shrub in red brilliance from late spring until early fall. Dark, glossy green foliage is disease resistant.

***Rosa ‘BAIlove’***

Easy Elegance® Coral Cove Shrub Rose

Shrub. Easy Elegance® rose with orange-pink flowers.

***Rosa ‘BAIage’***

Easy Elegance® High Voltage Shrub Rose

Shrub. 2009 U.S.A., (4-5 ft H) Shockingly beautiful clusters of double yellow blossoms are held high on sturdy canes. Super clean foliage complements the fragrant blooms. Upright, vase-shaped habit will stand up in the back of the border or stand out as an accent. Recurrent bloomer.

***Rosa ‘Hope for Humanity’***

Shrub Rose (Dark Red)

Shrub. 4-6’H x 3-4’W. This hardy saturated red takes the cake for cold conditions. Big sprays of blooms give loads of color, set against deep green leaves. A vigorous and fitting choice to honor the 100th anniversary of the Canadian Red Cross. Hardy and red.

***Rosa ‘BAIfairy’***

Easy Elegance® Mystic Fairy® Shrub Rose

Shrub. 2004 U.S.A., (3-4 ft H) Blooms of rich red with pink undertones carpet the plant in massive clusters all summer long. New foliage is glossy red, which slowly gives way to dark green mature leaves, a striking complement to the blooms. This compact, vigorous shrub rose is crown hardy to zone 4 and resistant to both blackspot and mildew. Everblooming.

***Rosa ‘AAC333’***

Easy Elegance® Oscar Peterson™ Shrub Rose

Shrub rose from Canada that is named after jazz pianist and composer Oscar Peterson. It blooms from early summer until fall with semi-double flowers that start out a shade of soft yellow cream that soon turn to bright white with a yellow center of stamens. One of the hardest easy elegance roses.

***Rosa ‘BAItown’***

Easy Elegance® Paint the Town Rose

Shrub rose, (2-4 ft H) Red, hybrid tea-shaped blooms carpet this everblooming shrub all season long. Its striking flowers are accented by disease resistant, glossy dark green foliage. Rosa ‘RADramblin’

***Rosa ‘RADramblin’***

First Editions® Ramblin’ Red® Climbing Rose

Ramblin’ Red Rose is an own root climbing rose that is covered in red roses. The leaves are borne on strong pliable canes and display a touch of red before maturing to deep, dark green. Disease resistant and hardy, this rose boasts rich red flowers that make a dramatic statement in the landscape.

***Rosa ‘BAIsuhe’***

Easy Elegance® Super Hero Shrub Rose

Shrub. 2008 U.S.A., (3-6 ft H) Clusters of perfect, red hybrid tea-shaped blossoms stand out strongly against clean, medium to dark green, satiny foliage. Try this neat, compact, disease-resistant shrub in the border or foundation planting. Everblooming.

***Rosa ‘BAIlena’***

Northern Accents® Lena Shrub Rose

U of M introduction. Northern Accents® Lena is blanketed in stunning white flowers with pink tips at the ends of the branches from late spring to early fall. Flowers are excellent for cutting. The fruits are showy re hips displayed in late fall. An exceptionally tough, hardy, disease-resistant rose. 3’H x 3’W.

***Rosa ‘BAIole’***

Northern Accents® Ole Shrub Rose

U of M introduction. Northern Accents® Ole Rose is smothered in stunning lightly-scented white flowers with shell pink overtones at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. A beautiful hardy shrub, its beauty belies its toughness; good resistance to blackspot; may die back to ground some winters but recovers nicely. 3’H x 3’W.

***Rosa ‘UMNsigrid’***

Northern Accents® Sigrid Shrub Rose  
U of M introduction. Northern Accents® Sigrid Rose features showy clusters of hot pink flowers with yellow eyes and white centers at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. The oval compound leaves turn yellow in fall. The lightly fragrant flowers are excellent for cutting. Sigrid has good resistance to blackspot, allowing the glossy-green leaves to remain all season. 3’H x 3’W. Zone: 4a

***Rosa ‘UMNRosa66’***

Summer Waltz Suddenly Summer® Shrub Rose  
U of M introduction. Summer Waltz flowers feature lovely double cupped pink frilly 3.5 inch blossoms with a light fragrance. It is cold hardy and disease-resistant. 3-3.5’H x 4-4.5’W. Zone: 4

***Rosa ‘BAIsven’***

Northern Accents® Sven Shrub Rose  
U of M introduction. Northern Accents® Sven Rose is covered in stunning lightly-scented violet flowers with pink overtones at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green deciduous foliage. The fruits are showy red hips displayed from early to late fall. 3’H x 3’W. Zone: 4a

**HOSTA MINI  
<8” Tall**

***Hosta ‘Blue Mouse Ears’***

Hosta  
2008 HoY. Round, blue leaf with substance. Lavender flower.

***Hosta ‘Cameo’***

Hosta  
6” sport of Pandora’s Box with small, round, green leaves with creamy white margins jet towards the midrib. Purple flowers.

***Hosta ‘Cherry Tart’***

Hosta  
Sweet, smallish but fast growing little beauty... glowing lemon yellow foliage tops cherry red petioles for a fruity, contrasty, garden delight! At a mere 6-8” in height and an eventual 12-18” wide, YOU have room for this! Flowers are lavender on taller stems.

***Hosta ‘Mighty Mouse’***

Hosta  
In spring, the rounded leaves of heavy substance are blue-green with a bright creamy yellow margin. By summer, the leaves transition to grey-green with a creamy white margin. Incredible substance. Lavender flowers on perfectly proportioned scapes appear in early summer.

***Hosta ‘Mini Skirt’***

Hosta  
Wavy, thick, blue-green leaf with creamy yellow margins. Pale lavender flowers.

***Hosta ‘Munchkin Fire’***

Hosta  
7”H x 15”W. This vigorous new yellow miniature hosta is the perfect size for troughs and the ever-popular fairy gardens. Short and narrow leaves hold their bright yellow color all season long. Since the leaves are so narrow, there isn’t a prominent leaf base, and the leaves simply taper to become part of the petiole. Lavender flowers appear above the petite habit in midsummer.

***Hosta ‘Pandora’s Box’***

Hosta  
4-6” ,2” long leaves have blue-green margins, white centers, and green streaking between the blue and white areas. Flowers lavender on taller 10-12” stems.

***Hosta ‘School Mouse’***

Hosta  
This sport of ‘Church Mouse’ shares all the same great features as its parent but possesses a clearly defined yellow margin. Thick, coarsely wavy leaves have blue-green to green centers and creamy yellow margins that holds its color fairly consistently throughout the season. Proportionate scapes carry lavender flowers in early summer.

***Hosta ‘Smiling Mouse’***

Hosta  
Another member of the ‘Mouse Club’ a sport of H. Frosted Mouse Ears with very wavy margins. The blue-green leaves have a chartreuse margin in the spring that turns almost pure white by large summer.

***Hosta ‘Smiling Mouse’***

Hosta  
This miniature Hosta hybridized by Tony Avent has a similar leaf shape and performance to ‘Blue Mouse Ears’, but with brilliant yellow leaves that holds its yellow color well into summer. The color is perfect for brightening up hosta troughs and shade gardens. Compared to ‘Blue Mouse Ears’, ‘Sun Mouse’ is a little bit shorter and wider. Plant it in an area with morning sun or filtered shade for best yellow color. Lavender flowers appear in midsummer.

**HOSTA SMALL  
9”-14” Tall**

***Hosta ‘Golden Scepter’***

Hosta  
Yellow-gold leaf. Medium blue flower.

***Hosta ‘Golden Tiara’***

Hosta  
Green leaf/chartreuse and white margin. Lavender flower.

***Hosta ‘Island Breeze’***

Hosta  
Wide, dark green margins stand in sharp contrast to the bright yellow centers in early spring. As summer approaches, the centers become more chartreuse when plants are grown in heavier shade or lighter yellow if they are grown in more sun. Like ‘Paradise Island’, this one also has showy red speckled petioles that bleed up into the leaves.

***Hosta ‘Leapin’ Lizard’***

Hosta  
“Heavily puckered green leaves are rippled, ruffled and folded. Forms an attractive mound of wild and crazy leaves. The color of this hosta along with the puckering similar to alligator skin. Try this hosta in a container to really show it off. Attractive pale lavender flowers in late summer.”

***Hosta ‘Lemon Candy’***

Hosta  
Sweet, but with a little zing, this sport of Peter Cross’ Hosta ‘Zowie’ is the ever rare yellow and white variegation. Hosta ‘Lemon Candy’ has pointed, yellow leaves edged by wide, pure white margins. In mid-late summer, deep purple flowers make for a bold contrast above the light colored foliage.

***Hosta ‘Lemon Lime’***

Hosta  
This excellent smaller selection has pointy chartreuse-green leaves. Showy purple flowers appear in July. Superb for edging. Suitable also for planting in mixed containers or tubs.

***Hosta ‘Party Streamers’***

Hosta  
Party Streamers’ has a habit that lives up to its name-long, narrow, wiggly yellow leaves form a mounding habit. Its rapid growth rate means you won’t have to wait long to see it come to maturity. Deep purple flowers contrast beautifully with the foliage when they bloom in mid to late summer.

***Hosta ‘Rainbow’s End’***

Hosta  
Thick, rubber-like dark green leaf with yellow center which matures to white. Dark lavender flower on showy red scapes!

***Hosta ‘Silly String’***

Hosta  
This is definitely a hosta that you can identify without a plant tag! This unique hosta has narrow blue leaves with intensely wavy margins. The leaves are the most blue in spring; as the season progresses the leaves become more blue-green. Pale purple flowers top the plant for a perfect package. Perfect for containers or the front of the shade garden.

***Hosta ‘Silver Bullet’***

Hosta  
Like a giant ‘Blue Mouse Ears’, ‘Silver Bullet’ creates a densely packed clump of very thick, rounded blue leaves. The thick foliage provides great slug resistance. Near white flowers are held just above the foliage. While this technically meets the classification of a medium-sized Hosta, the landscape presence is more in accordance with a small Hosta.

***Hosta ‘Time in a Bottle’***

Hosta  
12” narrow yellow leaves are moderately wavy with deep purple flowers in late summer and do not open (bottle-shaped) so last longer!

***Hosta ‘Trendsetter’***

Hosta  
Green, heart-shaped leaves have wide yellow margins. Over the course of the summer, the margins will turn creamy white. The slightly rippled margins will draw attention to its beautiful variegation. Pale lavender flowers appear in early to midsummer.

***Hosta ‘Waterslide’***

Hosta  
‘Waterslide’ has wavy, ruffled leaves with heavy substance. The blue, rippled leaves look like water splashing in the shade garden, and hold their blue color well into the summer season. Lavender flowers appear on proportionate flower scapes in late summer. This medium-sized hosta is a perfect companion to ‘Wheee!’ and suitable for landscapes and containers alike.

***Hosta ‘Wrinkle in Time’***

Hosta  
This sport of the classic variety ‘Pilgrim’ shows a little more character with showy, wavy margins. Leaves have a single prominent wave that begins one third of the way from the leaf base. Dark green leaves have creamy yellow margins in spring, maturing to creamy white margins in summer. Gray-green color appears where the margins and centers overlap. Lavender flowers appear above the foliage in midsummer. Sizes measured are based on a five year clump. A vigorous, fast-growing variety suitable for edging or landscapes.

## HOSTA MEDIUM 15”-22” Tall

***Hosta ‘Autumn Frost’***

Hosta  
Frosty blue leaf with wide bright yellow margins that lighten to creamy white.

***Hosta ‘Beyond Glory’***

Hosta  
This sport of ‘Old Glory’ goes above and beyond its parent with its attractive, very wide, dark green margins. The margins measure about 3” at the widest point, more than twice the width than those of ‘Old Glory’. Pale lavender flowers appear above the clump in midsummer.

***Hosta ‘Cape Cod’***

Hosta  
Don’t miss your chance to get this hosta added to your collection! Beautiful blue-green leaves have a wide creamy margin. The leaves are corrugated and rippled giving this hosta a lot of character. Margins are more yellow in spring and white in summer. Lavender flowers in summer.

***Hosta ‘Color Festival’***

Hosta  
Wide green margins surround a white flame with yellow highlights. Lavender flowers

***Hosta ‘Colored Hulk’***

Hosta  
14-16” has deeply cupped, heart-shaped, rippled leaves have chartreuse and lime green variegation with striking, deep green, irregular margins. Resists slug damage. Showy lilac flowers

***Hosta ‘Dancing With Dragons’***

Hosta  
This beautiful blue hosta positively dances when you look at it. Heart-shaped leaves have margins that are heavily rippled and give the hosta an overall wavy appearance. As an added bonus, ‘Dancing with Dragons’ holds its beautiful blue color throughout the season. Near white flowers top the habit in late summer.

***Hosta ‘Diamond Lake’***

Hosta  
Attractive, heart-shaped, thick and heavily corrugated blue leaves have wavy margins. The large size of this plant also translates to large leaves: they can get up to 9” wide by 11” long. Pale lavender flowers appear in early to midsummer. Use this blue hosta to add some color to your shade garden. This plays well with ferns, hellebores, and other hostas.

***Hosta ‘Echo the Sun’***

Hosta  
Bright golden leaves have a wavy dark green margin. There is lighter green streaks between the margin and gold leaf center that adds to the beauty of this hosta! The sharp contrast between the leaf center and leaf margin create a striking plant. Visitors to our gardens always ask about this hosta in our display gardens. ‘Emerald Ruff Cut’ stands out in the garden!

***Hosta ‘Emerald Ruff Cut’***

Hosta  
All gardening is an exercise in optimism, and ‘Hope Springs Eternal’ is appropriate name for a hosta that will bring joy year after year. Heart-shaped, blue horizontal leaves have a crisp creamy white margin and form a formal habit. Its most notable feature are the incredible ruffling on the leaves that undulate all the way to the pointed tips. Near white flowers in midsummer.

***Hosta ‘Hope Springs Eternal’***

Hosta  
Bright yellow leaf with contrasting red petiole which extends into base of leaf. Lavender flower.

***Hosta ‘June’***

Hosta  
2001 HoY. Light yellow with dark blue-green margin. Medium violet, flared flower.

***Hosta ‘Love Story’***

Hosta  
This Hosta will be a part of your garden “love story.” Long heart-shaped leaves have medium green margins with chartreuse jetting that bleeds into creamy white centers. The medio-variegation extends from leaf tip to the petiole, flaring at the base of the leaf. A gentle piecrust wave edges each leaf. Tall scapes hold large clusters of tubular white flowers in early summer, creating a Hosta that can be enjoyed for its foliage and flowers.

***Hosta ‘Loyalist’***

Hosta  
A reverse variegation sport of H. ‘Patriot’ but listed as growing larger. Leaves emerge creamy yellow in spring with dark green margins. By midsummer the leaf center is pure white with dark green margins. There is a lighter green streak where the leaf center and margin overlap.

***Hosta ‘Miss America’***

Hosta  
2025 PW Host of the Year. A majestic, variegated large hosta that will capture the hearts of any gardener who showcases it in their garden. Medium green, heart-shaped leaves have white centers and light green intermediate streaking between the center and margin. The contrast between the margin and the center is dramatic and refined. Near white, tubular flowers have a lavender pattern in the center of the petals are borne on thick, upright, tall stems. The flowers were notably the most attractive we’ve seen on a hosta.

***Hosta ‘Neptune’***

Hosta  
Wedge-shaped blue-green leaves with a wonderful rippled margin are topped with lavender flowers in August on arching scapes.

***Hosta ‘Night before Christmas’***

Hosta  
Dark green margins with creamy centers which change to white. Lavender flower.

***Hosta ‘Oyster Bar’***

Hosta  
The newest sport of ‘Tidewater’ will have you longing for a taste of the ocean. Keeping the deep 13 vein pairs and much-admired bluegreen leaves covered with white wax in the spring, ‘Oyster Bar’ adds a deliciously tempting thick cream yellow edge that turns white in the summer.

***Hosta ‘Praying Hands’***

Hosta  
2011 HoY—Elongated dark green leaf/rippled yellow margin/waxy sheen. Pale lavender flower.

***Hosta ‘Sister Act’***

Hosta  
Very wide green margins. Good vigor and garden performance. Near white flowers in early to midsummer.

***Hosta ‘Skywriter’***

Hosta  
A medium hosta with heavily ruffled blue leaves atop purple petioles. Lavender flowers bloom on purple scapes in late summer. A real beauty for the garden!

***Hosta ‘Sound of Music’***

Hosta  
H. Summer Music has beautiful multi-colored foliage. The leaf centers emerge yellow and brighten to white in early summer. The snow white centers are edged with a dark green margin and streaks of gold and chartreuse splash the leaf where the margin meets the center. Site this hosta where it will get good bright morning sun.

***Hosta ‘Spartacus’***

Hosta  
This green-centered sport of ‘Sea Gulf Stream’ has deeply veined leaves that form a dome-like shape with heavily rippled yellow margins. Pale lavender flowers in early to midsummer.

***Hosta ‘Tears in Heaven’***

Hosta  
A beautifully cascading blue hosta whose movement is reminiscent of waterfall. ‘Tears in Heaven’ has an upright habit that’s unique from other blue hosta. Ruffled, wedge-shaped leaves have an intense blue color that remains late into the season. Pale lavender flowers with darker lavender pattern on center of petals.

***Hosta ‘Voices in the Wind’***

Hosta  
This beautiful variegated hosta will catch your eye with its sophisticated beauty. Blue-green wedge-shaped leaves have very ruffled, creamy yellow margins. Pale lavender flowers appear in mid to late summer.

***Hosta ‘Wheee!’***

Shadowland® Hosta  
Light green, ruffled leaf with cream-colored margin. Light lavender flower with purple scapes.

***Hosta ‘Whirlwind’***

Hosta  
Cream to white streaked leaf with dark green margin. Lavender flower.

***Hosta ‘Wild Imagination’***

Hosta  
This wild looking blue Hosta creates a sizeable mound of narrow twisted and ruffled leaves. Exceptionally large plant for a strap-leaf Hosta. Compared with recent new introduction ‘Silly String’, this plant is more than twice the size. Lavender flowers.

# HOSTA LARGE 23”-29” Tall

***Hosta ‘Big Daddy’***

Hosta  
Giant, heavily puckered, cool glaucous blue, rounded, cupped leaves.

***Hosta ‘Brother Stefan’***

Hosta  
2017 HoY. Thick, heavily corrugated gold leaf with wide blue-green margin. White flower.

***Hosta ‘First Frost’***

Hosta  
2010 HoY. Blue center with gold margin turns to dark green with cream margin. Lavender flower.

***Hosta ‘Great Expectations’***

Hosta  
Creamy-white/dark green leaf. White flower.

***Hosta ‘Hudson Bay’***

Hosta  
This showy hosta forms a large mound of attractive tricolor leaves of heavy substance. The wide, bright blue margin, apple green jetting, and creamy white center will set this variety apart all season long.

***Hosta ‘Liberty’***

Hosta  
A gorgeous sport of H. ‘Sagae’. Blue-green leaves have wide, dramatically streaked, yellow margins which fade to creamy-white later in the season. They are of much heavier substance, providing greater slug resistance. Lavender flowers appear on 40” scapes from early to midsummer.

***Hosta ‘Seasons in the Sun’***

Hosta  
H. ‘Seasons in the Sun’ is a large, very bright yellow Hosta with a relatively upright habit. Flat leaves have a gentle wave along the margins and deeply impressed veins. Near white bell-shaped flowers are held on proportionate scapes.

***Hosta ‘Stained Glass’***

Hosta  
2006 HoY. Gold center with green edge. Large, fragrant, near white flower.

***Hosta ‘Terms of Endearment’***

Hosta  
A beautiful blue hosta with a non-burning yellow margin! Blue-green, moderately corrugated leaves have smooth margins that show off its attractive variegation. White flowers poke up just above the foliage in early to midsummer. An improvement on the classic Hosta ‘Frances Williams’.

***Hosta ‘When I Dream’***

Hosta  
Exciting medio-variegated hybrid of H. ‘Empress Wu’ and H. ‘Queen of the Seas’. Large creamy white centered leaves have very wide rippled blue-green margins. Chartreuse jetting separates center and margin colors. Although not as large as the pod parent, ‘When I Dream’ still reaches an impressive landscape size and will be a head-turning performer in the garden. White flowers appear over the mounded habit in early to midsummer.

# HOSTA EXTRA LARGE Over 30” Tall

***Hosta ‘Age of Gold’***

Hosta  
A large gold hosta from renowned Hosta breeder Hans Hansen. With golden yellow leaves, this is the perfect specimen for making a statement in the shade with its upright spreading habit and large smooth leaves. In midsummer, near white, tubular flowers appear with a very faint pale lavender central pattern on the interior petals. Plant in morning sun or filtered shade for best yellow color.

***Hosta ‘And You and I’***

Hosta  
Sport of H. ‘Gentle Giant’ with an added white margin. Very tall upright mound of blue-green foliage with white margins. Discovered by Rob Mortko who named it for his wife for their 40th anniversary. Lavender flowers in early summer.

***Hosta ‘Blueberry Waffles’***

Hosta  
Forms a giant mound of unruly and puckered blue foliage. Leaves are intensely corrugated. Very attractive leaves have a thick coating of wax for a great blue color. Leaves cup and fold so no two leaves are alike. Give this hosta a good spot to show it off.

***Hosta ‘Coast to Coast’***

Hosta  
Emerges chartreuse then turns lighter gold in the summer. Thick, puckered texture. Upright, vase shaped clumped. Pale lavender flowers.

***Hosta ‘Dancing Queen’***

Hosta  
Emerges a bright yellow in spring. Deep veins and a heavily ruffled margin. Lavender flowers. Place in bright morning sun to achieve the best yellow color.

***Hosta ‘Drop-dead Gorgeous’***

Hosta  
A beautifully variegated large majestic hosta. Large, ovate leaves have green centers with brightly contrasting yellow margins. The margins are heavily rippled and give the leaves a lightly wavy overall effect. White flowers appear above the foliage in midsummer. A showy specimen for the shade!

***Hosta ‘Earth Angel’***

Hosta  
A superb introduction from Hans Hansen. A sport of ‘Blue Angel’. Large, heart-shaped, blue-green leaves with wide, creamy-white margins that are creamy yellow in spring. Pale lavender flowers appear on 40” scapes in midsummer. Outstanding specimen plant.

***Hosta ‘Empress Wu’***

Hosta  
Huge dark green, deeply veined leaves of good substance can measure more than 1½’ wide and long. Large leaves are formed as a young plant, though entire clump takes about 5 years growing in the ground to achieve mature size. Strongly upright habit, forming a very tall and wide clump. Pale reddish violet flowers appear just above the foliage in early to midsummer. An outstanding focal point and topic of conversation in your shade garden!”

***Hosta ‘Komodo Dragon’***

Hosta  
Large, mound-forming hosta selection that can reach up to 3’ tall with a 7’ spread. Its leaves are dark blue-green in color with wavy margins and can reach up to 15” long. In midsummer, 4’ tall flowering stalks emerge bearing light lavender-purple, funnel-shaped blooms.

***Hosta ‘Twin Cities’***

Hosta  
A reverse sport of ‘St. Paul’ and a tetraploid form of ‘Paul’s Glory’. Thick, blue-green leaves have wide, 2” chartreuse margins that mature to gold and produce an upright, spreading clump. Light lavender flowers are produced in early to midsummer.

***Hosta ‘Victory’***

Hosta  
2015 HoY. Thick, shiny green center with a margin that changes from greenish yellow to creamy white by early summer. Near white flowers on tall scapes in midsummer.

***Hosta ‘Wind beneath My Wings’***

Hosta  
30”. A large majestic blue hosta with ruffled blue, heart-shaped and tapered leaves. Pale lavender flowers in midsummer.

***Hosta ‘Wu-la-la’***

Hosta  
This sport of ‘Empress Wu’ takes the size and presence of the massively popular hosta and takes it to the next level with an attractive margin. Blue-green leaves have striking apple-green margins, as well as good substance. Like ‘Empress Wu’, this hosta will take about 5 years to reach full maturity and size. Once you get there, the size of this plant will definitely be a conversation starter! Violet flowers appear in early to midsummer.

# WOODY VINES

***Celastrus scandens ‘BAILUMN’ Autumn Revolution™***

American Bittersweet

***Hydrangea petiolaris***

Climbing Hydrangea  
up to 40’H. Climbing Hydrangea plants have lateral branches that grow out as much as 3’ from the supporting structure, giving a rich, deep texture that is quite unlike that of other vines. The dried flower heads, reddish brown, peeling bark are attractive in winter. Produces aerial roots that cling to its support. Blooms on old wood.

***Lonicera ‘Mandarin’***

Honeysuckle Vine  
Mature height:15’ Delightful, tubular, mandarin orange flowers with pale orange interiors on this vigorous vine with a twining habit that will quickly cloak shade arbors, old trees, and woven wire fences. Drape over walls or let it sprawl across the rooftop for cottage garden charm. Deciduous.

***Lonicera x brownii ‘Dropmore Scarlet’***

Honeysuckle Vine  
Mature height: 10-20’ These beautiful Fuchsia-like flowers are remarkably hardy. Coral-red flowers are very showy when cascading off wood fences, twining up lattice and shrouding unsightly wire or chain-link fencing. Excellent for shade and color on arbors overhead or snaking up stone or concrete pillars. Particularly nice when allowed to cascade off concrete block or railroad tie retaining walls. If left to sprawl, it will behave a lot like ground cover on slopes and embankments.

***Lonicera sempervirens ‘Major Wheeler’***

Trumpet Honeysuckle  
6-8’H x 5-10’W Blazing red and gold blooms appear all summer long, and into fall. Stems are often red to purple turning greenish brown with age. A vigorous, fast growing vine.Zone 5, native southward and a hummingbird magnet.

***Vitis ‘Beta’***

Grape  
Beta Grape is a semi-wild type of grape that is very hardy and productive. This grape can be grown in the extreme north where it will stand without protection. This edible plant produces grapes that make excellent wine, juice, or jelly. Be sure to harvest early to mid-September.

***Vitis ‘Concord’***

Grape  
Vitis ‘Concord’ Grape is a seeded grape, with big blue globes “frosted” with white and large edible seeds. The skin removes easily, and the fruit is wonderfully fragrant, even from a distance. The flavor is sweet and soft—absolutely addictive.

***Vitis ‘Swenson Red’***

Table Grape  
20’H x 2’W A top-quality variety of grape, grown for its delicious red fruit in fall, excellent for eating fresh, makes a fantastic wine, a vigorous and trailing vine. The fruits have a sweet taste and a firm texture.

***Vitis ‘Edelweiss’***

Wine Grape  
A high quality hardy grape, selected for its large sweet white fruit in fall, ideal for fresh eating, good for jellies or wine, a vigorous vine. Developed by Elmer Swenson in 1980.

***Vitis ‘Frontenac’***

Wine Grape  
Red and rosé wine and port grape. Wine has cherry and plum flavors. Vigorous and disease resistant. 1996 U of MN Introduction. -30°F.

***Vitis ‘Marquette’***

Wine Grape  
Red wine grape. Resists downy and powdery mildew, and black rot, with open, orderly growth habit. Wine has complex notes of cherry, berry, black pepper, and spice on both nose and palate. 2006 U of MN Introduction.

***Vitis ‘Bluebell’***

Table Grape  
Early ripening, blue-seeded table grape with a mild Concord-like flavor with exceptional hardiness and disease resistance. 1944 U of MN Introduction.

***Vitis ‘Brianna’***

Grape  
2001 Elmer Swenson introduction that is a cross of Riverbank and Frost grapes. A seeded-green grape with an excellent complex, fruity flavor and exceptional hardiness.

***Vitis ‘Clarion’***

Wine Grape  
Clarion is a white wine grape that has been evaluated at the Research Center for more than 20 years and consistently produces top quality wines.

***Vitis ‘Frontenac Blanc’***

Wine Grape  
White wine grape. White-fruited sports of ‘Frontenac’ and ‘Frontenac gris’ with earlier harvest date. 2012 U of MN Introduction.

***Vitis ‘Frontenac Gris’***

Wine Grape  
White wine grape. Vigorous and very disease resistant. Wine has a characteristic peach flavor. Can be high in acidity. 2003 U of MN Introduction.

***Vitis ‘Itasca’***

Wine Grape  
Dry white wine grape. Itasca has lower acidity and high sugar levels. Itasca produces a wine that is light yellow to straw in color and has aromas of pear, quince, violet, melon, minerals, and subtle honey notes. 2016 U of MN Introduction.

***Vitis ‘La Crescent’***

Wine Grape  
White wine grape. Wine has flavors of apricot, citrus, and tropical fruit. Moderately disease resistant. 2002 U of MN Introduction. -34°F.

***Vitis ‘Louise Swenson’***

Wine/Table Grape  
One of Elmer Swenson’s hardest selections, Louise Swenson produces small to medium-sized clusters of round, medium-sized berries that turn yellow-gold when ripe. It has naturally low sugar with moderate acidity, wines are light-bodied with a delicate aroma of honey and flowers.

***Vitis ‘Petite Jewel’***

Table Grape  
Petite Jewel is an excellent choice for growers in northern climates and was selected by Elmer Swenson for its cold hardiness, ability to ripen in short seasons and excellent flavor that tastes of strawberries with a bit of a spicy finish.

***Vitis ‘Somerset’***

Table Grape  
The earliest, sweetest, hardest and highest quality red seedless grape available. Bred by Elmer Swenson, a pioneer of grape breeding from Osceola, Wisconsin.

***Wisteria macrostachya ‘Betty Matthews’***

First Editions® Summer Cascade™ Wisteria  
Mature height:15-20’ zone 4 Blooming in June on new growth, individual flowers are borne on long showy racemes and open in a lovely shade of dark lavender before fading. A beautiful flowering vine that can easily cover an arbor or pergola, creating a cool, shady place. Producing an interesting seedpod in late summer, this vine has lovely multi-season interests and is more reliably cold hardy than other wisteria.

## WOODY TREES & SHRUBS

***Acer ‘IsIAJ’ Arctic Jade®***

Jack Frost® Hybrid Maple  
Acer x pseudosieboldianum Arctic Jade® is a member of the Jack Frost® collection of hybrid maples and is an excellent substitute for less hardy Japanese maples in harsh climate conditions. It has large green, deeply cut leaves reminiscent of A. japonicum ‘Aconitifolium’ with an excellent branching habit. In autumn, the foliage is an impressive canvas for the dazzling fusion of orange and red tones. 20’H x 15’W.

***Aesculus ‘Autumn Splendor’***

Buckeye Tree  
Matures to: 35’H x 30’W. U of M introduction. Selected primarily for its outstanding fall color, yellowish-green flowers and rounded growth habit, a distinct improvement over species buckeyes. Autumn Splendor Buckeye features showy spikes of creamy white flowers rising above the foliage in mid spring. It has dark green deciduous foliage. The palmate leaves turn an outstanding tomato-orange in the fall. Zone: 4a

***Amelanchier alnifolia ‘Regent’***

Saskatoon Serviceberry  
4-6 ft. A low type serviceberry with showy spring flowers and delicious fruit in early summer. Planted in the parking lot islands in front of the Oswald Visitor Center.

***Aronia melanocarpa***

Black Chokeberry  
4-6’H. A dependable landscape shrub, Black Chokeberry can used in a shrub borders, or allowed to naturalize in an open wooded garden. In tighter spaces it can provide the perfect backdrop for low growing perennials and groundcovers. Its adaptability makes it suitable for the rain garden, as well. Either full sun or partial shade are best, and a wide variety of soil types are tolerated, including wet boggy soils.

***Callicarpa dichotoma ‘Issai’***

Purple Beautyberry  
Zone 5. A shrub that dies back each winter but blooms and fruits on new wood with dazzling purple berries at the end of the season. Has performed well at the Arb.

***Calycanthus floridus***

Eastern Sweetshrub  
Zone 4. 6’H x 4-5’W. Valued for the sweet, fruity fragrance of its flowers. Dense, rounded, well-branched deciduous shrub boasting a profusion of dark red flowers. from mid-spring to mid summer.

***Carpinus caroliniana***

Blue Beech/American Hornbeam  
Zone 3. 20-35’H x 20-35’W. The American hornbeam is a native forest understory tree, making it useful for shady landscapes and naturalized or woodland gardens. New leaves emerge reddish-purple, changing to dark green, then turn yellow to orange-red in the fall. Even in winter, the tree’s fluted blue-gray bark with long, sinewy ridges make it a special addition to the landscape.

***Catalpa x erubescens Purpurea***

Catalpa  
Zone 3. 20-35’H x 20-35’W. The American hornbeam is a native forest understory tree, making it useful for shady landscapes and naturalized or woodland gardens. New leaves emerge reddish-purple, changing to dark green, then turn yellow to orange-red in the fall. Even in winter, the tree’s fluted blue-gray bark with long, sinewy ridges make it a special addition to the landscape.

***Cephalanthus occidentalis***

Buttonbush  
Zone 4. 4-6’H x 4-6’W. Buttonbush is a distinctive native shrub with spherical pincushion blossoms composed of dense clusters of tiny white or pale-pink tubular flowers. The fragrant blooms are attractive to a wide array of pollinators including butterflies.

***Cercis canadensis Minnesota Strain***

Eastern Redbud Tree  
Zones: 4-9 Matures to: 20-30’H x 20-25’ W. This handsome tree bears lovely pink flowers in spring before leaves appear. Later brown fruit pods form. This strain is grown from seed collected at the Minnesota Landscape Arboretum. It does well in sun and part shade. Selected for hardiness by the University of Minnesota and introduced in 1992.

***Chaenomeles x superba ‘Fusion’***

Flowering Quince  
Zone: 4. Matures to: 12-24”H x 12-24”W. An unusually dwarfing variety with an arching habit developed in Germany as a seedling of ‘Crimson and Gold’. Single bowl-shaped, scintillating, carmine-red flowers, sporting a perky central flourish of gold anthers, appear in early spring on year-old and older branches.

***Chaenomeles speciosa ‘Kingishi’***

Flowering Quince  
Zones: 4-8. Matures to: 4.5’H x 4.5’W. Showy orange, double, almost two inches, saucer shaped flowers in early spring. Apple shaped, green pome fruit turns to yellow, unpalatable if eaten raw, but can be made into preserves.

***Chamaecyparis pisifera* ‘Blue Moon’**

Sawara Cypress

Zone: 4. Matures to: 4’H x 4’W. The bright steel blue foliage of *Chamaecyparis pisifera* ‘Blue Moon’ adds a special color element to the garden, featuring short stiff branches covered with juvenile foliage that develop into a tight, compact ball with minimal shearing required to maintain its tidy form. ‘Blue Moon’ can be planted as a single color accent or in groupings for bright blocks of color. An excellent choice for foundation plantings also. Grows best in full sun with moist, well-drained soil.

***Cornus Garden Glow*™**

Dogwood

Zone: 4. 4-5’H x 4-5’W. U of M introduction. A striking shrub! The leaves will shine a chartreuse-yellow when planted in areas with light shade to dappled sun. Autumn colors range from rosy red to burgundy. The stems are red year-round. Small white flowers are clustered into a flat-topped cyme that turn into white drupes. Resistant to pests and diseases. The form is a multi-stemmed informal mound that can be pruned back in the early spring. Bright foliage that seems to glow on red stems.

***Cornus sericea* ‘Cardinal’**

Red-osier Dogwood

Noted for its outstanding bright red winter stems. It’s a multi-stemmed, suckering, deciduous shrub of great ornamental value in the winter landscape. Small clusters of tiny creamy flowers will attract butterflies appear in late spring, giving way to clusters of white berries that are very attractive to birds. 6-9’H x 8-12’W. Zones: 2-8

***Cornus sericea* ‘Isanti’**

Red-osier Dogwood

Zone 3. 4-5’H x 4-5’W. Isanti Dogwood has clusters of creamy white flowers at the ends of the branches in late spring. It has dark green deciduous foliage. The pointy leaves turn an outstanding brick red in the fall. It produces white berries in late summer. The red branches are extremely showy and add significant winter interest.

***Diervilla sessilifolia* ‘LPDC Podaras’**

Cool Splash® Bush Honeysuckle

2.5-4.5’H x 2.5-4.5’W. U of M introduction. Cool Splash® Honeysuckle has bright white leaf margins that remain vibrant and clean until the first frost. Bunches of yellow blossoms adorn the plant in June and July, adding texture and color to the landscape. Cool Splash® is easy to grow in a variety of soils as long as it is not bone dry. This cultivar is a densely branched shrub that can form underground suckers, developing colonies over time. Use in lightly shaded areas or mass plantings in full sun for a spectacular effect.

***Exochorda x macrantha* ‘Bailmoon’**

First Editions® Lotus Moon™ Pearlbush

4-8’ H. VI. Known as a pearlbush, this spring bloomer is covered in white round flower buds resembling pearls. Buds open to clear white blooms in April and May, and has bright green foliage on the compact, upright, mounded plant.

***Forsythia* ‘Meadowlark’**

Forsythia

Zone: 3a. Matures to 8’H x 7’W. Spectacular, clear yellow flowers appear in late April before foliage; vigorous grower great for screens, hedges, and borders. Tolerant of a variety of soils, this shrub should be grown in full sun for the best flower production. Deciduous.

***Forsythia* ‘Northern Sun’**

Forsythia

Zone 3. 6-8’H x 6-8’W. The harbinger of spring, with prolific yellow flowers smothering the branches in early spring ahead of the leaves, the rest of the year rather unassuming; an upright cultivar with a more controlled habit than the species, one of the hardiest varieties.

***Forsythia* ‘Northern Gold’**

Forsythia

Zone: 3a. Matures to 8’H x 7’W. This shrub is the undisputed harbinger of spring, with prolific yellow flowers smothering the branches in early spring ahead of the leaves; fades into the background the rest of the year; a vigorous cultivar, probably the hardiest variety available.

***Forsythia* ‘Sunrise’**

Forsythia

Zones: 4-8. Matures to: 4-5’H x 4-5’W. Sunrise Forsythia actually gives you a jump-start on happiness with a vivid yellow bloom time that starts in late winter. It’s a true harbinger of spring and is one of the earliest to bloom. The bright, bell-shaped flowers cover the bare branches before the leaves appear.

***Gymnocladus dioica* ‘Synergy’**

True North™ Kentucky Coffee Tree

Matures to: 50-70’H. U of M introduction. True North is a male selection, meaning it does not produce any seeds, an important factor when selecting a long-term tree for your landscape. The leaves of the Kentucky coffeetree are large and bi-pinnately compound. Each leaf can be easily 2 to 3 feet long with more than 40 leaflets. The foliage is dark green throughout the summer and turns a lovely shade of yellow in autumn. The bark is scaly and looks dramatic in the winter months.

***Hamamelis virginiana***

Common Witch-hazel

Zone 3. A native shrub or small tree with a multi-stemmed trunk and spreading branches that form an irregular, open crown. Mature plants can reach heights of 25 feet, however 12 to 15 feet is typical. Despite its stunning fall leaf color, Witch Hazel is best known for its fringed yellow flowers which appear in late fall and stay on the branches long after the leaves have dropped. Even in the cold Midwest, the blooms persist into November and beyond. Great fall color, winter interest, a large vase shape, fragrant flowers, and fruit for the birds are features that make this a very popular landscape shrub.

***Heptacodium miconioides* ‘Minhep’**

First Editions® Tianshan® Seven-Son Flower

8-12’ H x 35-7’W. This new cultivar is named after the mountain range in China where the species is native. Clusters of fragrant, creamy-white flowers appear in late summer, with each whorl containing 7 flowers. The blooms are followed in autumn by unusual purplish-red fruits. This small plant is well branched and forms a rounded, upright shrub or small tree with dark green shiny foliage that turns yellow in late fall. Exfoliating bark is very attractive in the winter. The flowers are a Monarch and pollinator magnet. Listed as Zone 5.

***Hydrangea arborescens* ‘Annabelle’**

Smooth Hydrangea

Zone 3. 3-5’H x 4-6’W. In July, it produces huge (8–12”) round heads of pure white blooms that remain attractive into September and can be cut for fresh or dried arrangements. Its small scale and summer flowering make it a good choice for the mixed border, partial shade and evenly moist but well-drained soil.

***Hydrangea macrophylla* ‘PIIHM-II’**

Endless Summer® BloomStruck® Bigleaf Hydrangea

3-4’H x 4-5’W. This reblooming hydrangea adds color to the garden all season long with vivid rose-pink or blue-purple hydrangea flower heads, depending on your soil pH. Hardy to Zones 4-9, BloomStruck® has extremely strong stems, above average heat tolerance, and great disease resistance, especially to powdery mildew.

***Hydrangea macrophylla* ‘Bailmacsix’**

A compact hydrangea that blooms like nothing you’ve seen before, blooming profusely from top to bottom, all season long. Bringing dazzling color to the landscape, Pop Star® features show-stopping electric blue or bright pink blooms, depending on the soil pH. Growing to a height and width of only 18 to 36 inches tall and wide, the massive flower power of Pop Star® is that much more impactful. The lacecap blooms bring unique texture to the garden and are irresistible to bees, butterflies, and other garden pollinators. Hardy from Zones 4-9

***Hydrangea macrophylla* ‘Bailmacfive’**

Endless Summer® Summer Crush® Bigleaf Hydrangea

A profusion of big raspberry red or neon purple blooms, Summer Crush® Bigleaf Hydrangea brings floral quality blooms to your garden or patio container. Not only is it drop-dead gorgeous, but it is compact, too. Summer Crush® only grows to a mature size of 18 to 36 inches tall and wide, so you can count on it to stay small, neat, and tidy throughout the season. Hardy for Zones 4-9

***Hydrangea macrophylla* ‘PIIHM-I’**

Endless Summer® Twist and Shout® Bigleaf Hydrangea

Boasts picturesque color all season long with deep pink or periwinkle blue lacecap hydrangea flowers, depending on soil pH. Hardy in Zones 4-9 and covered with loads of dependable blooms, this hydrangea has become a favorite for new and expert gardeners alike. Not only are the blooms on Twist-n-Shout® remarkable, but the sturdy stems are also vivid red, adding even more interest to your landscape. 3-5’H x 3-4’W.

***Hydrangea paniculata* ‘Renba’**

First Editions® Berry White® Panicle Hydrangea

6-7’ H x 4-5’W. This variety has abundant, long lasting, rounded flower heads that start white and progress to pink, intense raspberry red and finally wine red. Flowers start blooming in July and take on red coloration early in the season. Flower color is best in the fall when night temperatures are 10 degrees cooler than day temperatures.

***Hydrangea paniculata* ‘Ilvobo’**

Bobo® Panicle Hydrangea

30” H x 36”W. Compact and dwarf in habit, and the white flowers cover every inch of the plant right down to the ground.

***Hydrangea paniculata* ‘Rendia’**

First Editions® Diamond Rouge® Panicle Hydrangea

Diamond Rouge® Panicle Hydrangea has abundant, long lasting, rounded flower heads that start white and progress to pink, intense raspberry red, and finally wine red. Flowers start blooming in July and take on red coloration earlier in the season than other pink panicle hydrangeas, with fall color at its best when night temperatures are 10 degrees cooler than day temperatures. Diamond Rouge® is a mid-size hydrangea, working beautifully as a focal point or small hedge. 4-5’H x 3-4’W. Zones: 3-8

***Hydrangea paniculata* ‘Wims Red’**

Fire and Ice Panicle Hydrangea

3-5’H x 3-4’W. Fire and Ice™ Panicle Hydrangea will never cease to amaze you with its continuous change in colors. As the blooms begin to expand in the early days of spring, they appear as a cream color, turning into pink blooms toward the middle of summer until the entire plant shows off cotton candy colors. As the end of the season approaches, from the late days of summer and into the fall, Fire and Ice Panicle Hydrangea magically bursts into colors of magenta and burgundy. Zones: 3-8

***Hydrangea paniculata 'Limelight'***

Hardy Hydrangea  
72" H x 96"W. Huge, football-shaped flowers open in a celadon green that looks fresh and clean in summer's heat. The blooms age to an array of pink, red, and burgundy which persists through frost for months of irresistible flowers.

***Hydrangea paniculata 'Jane'***

Little Lime® Hardy Hydrangea  
3-4' H x 3-4'W. The same refreshing color as 'Limelight', on a shrub about one-third the size. Produces large, tightly packed, green blossoms that turn shades of vintage pink in the fall.

***Hydrangea paniculata 'SMHPLQF'***

Little Quick Fire® Hardy Hydrangea  
36"H x 60"W. Early blooming, dwarf hydrangea. White flowers transform to pinkish red as summer progresses.

***Hydrangea paniculata 'Dvppinky'***

Pinky Winky® Hardy Hydrangea  
6-8' H x 5-6'W. Dense, cone-shaped, exceptionally large panicles of two-toned flowers. Flowers emerge white, maturing to dark pink. Dark green leaves take on purple tinge in fall.

***Juniperus horizontalis 'NOSlg'***

Limeglow™ Creeping Juniper  
Zone: 3. Garden Size: 2'H x 4'W. Not your typical juniper! Limeglow™ displays feathery foliage in electric chartreuse, a color that makes a striking contrast to other greens in the garden. Its spreading, vase form and juvenile foliage lend a cheery presence in almost any garden, including one with hot, dry conditions. The yellow sport from 'Youngstown' is reported to hold its bright color and to resist sunburn.

***Larix gmelinii var. principis-rupprechtii***

Prince Rupprecht's Larch  
Zones: 2-5. A deciduous conifer whose needles turn a showy yellow in fall before falling to the ground for winter. It is native to northeastern Siberia, northern China, Mongolia and North Korea. This is a tree of very cold climates, ranging northward inside the Arctic Circle to tree line. In the wild, it grows to 40-60' tall with a broad conic but open crown and horizontal branching, but much smaller near tree line. Bright green needles (to 1 1/2" long) in brush-like clusters appear at the ends of spur-like shoots along the branches. Cones (to 1 1/2" long) emerge purple but mature to light brown.

***Lonicera caerulea 'Aurora'***

Honeyberry  
3-4'H x 3-4'W. Zones: 3-8. Aurora Honeyberry was bred as the companion to Borealis by the University of Saskatchewan. This variety is sweeter and more productive than its counterpart, with slightly larger fruit. Similar in flavor to blueberries and producing earlier than strawberries, Aurora can be eaten fresh, used in baking, as jams, or jellies. A good pollinator for Borealis, Tundra, and other varieties in the Indigo series.

***Lonicera caerulea 'Borealis'***

Honeyberry  
4'H x 4'W. Zones: 3-8. Honeyberry's taste has been compared to blueberries, blackberries, raspberries and black currants. You can eat them fresh, bake into pies or make into jams or jellies. Borealis is an excellent source of antioxidants and Vitamin C. Needs Berry Blue or Cinderella for fruit set.

***Lonicera caerulea 'Cinderella'***

Honeyberry  
3'H x 3'W. Zones: 3-8. Perfect for any backyard or for full orchard, honeyberries are tasty fresh, on ice cream, baked into pies or made into jams or jellies. The flavor is reminiscent of blueberries, blackberries, raspberries or black currants. Excellent source of antioxidants and Vitamin C. Pollinator for Borealis, Tundra or Indigo Gem for fruit set.

***Magnolia 'Ann'***

Hybrid Magnolia  
Matures to: 8-10'H x 8-10'W. Zones 3-8. Perfect for small gardens. Blooms at an early age, makes an elegant specimen tree. A slow-growing deciduous shrub or small tree with slightly fragrant reddish-purple flowers in mid to late spring. Chalice-shaped blossoms are up to 4" across, 6-8 erect tepals.

***Magnolia 'Betty'***

Hybrid Magnolia  
Matures to: 10-15'H x 10-15'W. Zones 4-8 A wonderful specimen tree. Spectacular purple-pink cup-shaped flowers with white inside appear in spring before the leaves. These magnolias are easy to grow, low-maintenance, frost-hardy, and smaller than some of their relatives.

***Magnolia x loebneri 'Encore'***

Loebner Magnolia  
Matures to: 8-15'H x 6-15'W. Zones 4-8. Slow-growing and very floriferous, a medium to large deciduous shrub or small tree of remarkable beauty. Flowers open from soft pink buds, to fragrant white flowers and are adorned with a delicate pink tinge, opening in succession for a long-lasting spectacle in early spring.

***Magnolia x loebneri 'Leonard Messel'***

Loebner Magnolia  
Matures to: 10-15'H x 8-12'W. Zones 4-9. A delightful specimen that develops stunning, bi-colored flowers on bare stems at an early age. The petals of the exquisit star-magnolia-like blooms have rosy-purple undersides and crisp white topsides. Green foliage emerges after the flowers in the spring. Excellent for use as a spectacular large shrub of a small multi-trunk specimen tree.

***Magnolia 'Roseanne'***

Magnolia  
Matures to: 15-20'H x 15-20'W. Zones 4-9. An exceptionally hardy hybrid by Dennis Ledvina. Flowers have six or seven broad tepals which are rich lavender-pink on the outside and a soft pink on the inside. The tepals retain upright form.

***Magnolia 'Simple Pleasures'***

Magnolia  
Matures to: 8-10'H x 8-10'W. Zones 4-8. Blooms at a young age with light lavender-pink, cup-shaped, slightly fragrant flowers. The mid-season bloomer is extremely flower bud hardy.

***Magnolia 'Susan'***

Magnolia  
Matures to: 8-12'H x 8-12'W. Zones 3-8. Perfect for small gardens, a slow growing deciduous shrub or small tree with fragrant reddish-purple flowers in mid to late spring. Narrow goblet-shaped 5" blossoms bloom primarily in in spring and may continue to bloom sporadically thereafter where moisture is adequate.

***Malus 'Adams'***

Pink Flowering Crabapple  
Matures to: 25'H x 20'W. Zones: 4-8. Highly rated for disease resistance, this crab has carmine buds that open to single pink blooms. In spring, new foliage emerges green with a red tint, retaining a very slight tinge when mature. Fall color is a beautiful orange-red, topped by persistent carmine-red fruit.

***Malus 'Adirondack'***

White Flowering Crabapple  
Matures to: 15-18'H x 12-16'W. Zones: 4-8. Highly rated for both aesthetics and disease resistance by the International Ornamental Crabtree Society. Dark carmine buds are evident for weeks before opening into large pink-edged white blossoms. The slender, upright form lends itself well to home gardens where space is at a premium. Abundant, persistent, orange-red fruit adds fall and winter interest. Requires virtually no pruning nor chemical controls for the common crabapple diseases.

***Malus 'Prairifire'***

Red Flowering Crabapple  
Matures to: 15-20'H x 20'W. Zones: 4-7. This disease resistant cross by Dr. Dan Dayton, University of Illinois, has especially good foliage retention during summer. It blooms later than most crabs. The bark is a glossy dark red with numerous prominent lenticels, and the fruit does not drop. 1996 Iowa Tree of the Year.

***Malus 'Haralson'***

Apple Tree  
Introduced in 1922 by the University of Minnesota. This variety produces large, tart apples that are very firm. They are excellent for pies and also for fresh eating for those who prefer eating hard, tart apples. Haralson apples hold their shape well when sliced and cooked in a pie.

***Malus 'Honeycrisp'***

Apple Tree  
Developed at the University of Minnesota decades ago, The 'Honeycrisp' remains a standing favorite among commercial growers and home gardeners. This is one of the best eating apples around. The fruits are sweet, firm and tart.

***Malus 'Honeygold'***

Apple Tree  
Introduced in 1970 by the University of Minnesota. Golden to yellow-green fruit that is sweet, crisp, and juicy. Excellent for fresh eating and also good for cooking. The fruit will store for 2 to 3 months. The tree is easy to manage but susceptible to fire blight.

***Malus 'Wildung'***

SnowSweet® Apple Tree  
Introduced in 2006 by the University of Minnesota. The SnowSweet® Apple is sweet with a slight tart balance and rich overtones. Savory, sweet tasting apple, with a slight tart balance and rich overtones. Amazingly slow to turn brown when cut. Appealing, large, bronze-red blush fruit. Excellent for fresh eating, snack trays, and salads.

***Malus 'Sweet Sixteen'***

Apple Tree  
Introduced in 1977 by the University of Minnesota. Crisp and juicy with an exotic yellow flesh and a very sweet, unusual sugar cane or spicy cherry candy flavor. The fruit stores for 5 to 8 weeks. The tree is very vigorous.

***Malus 'MN80'***

Triumph® Apple Tree  
University of Minnesota release with trees first available in 2021. It has a firm but crisp texture, sweet-tart balance of flavor, good storage life and an attractive red overcolor, strong disease resistance and contains two genetic forms of resistance to apple scab, one of the most common diseases of apples.

***Malus 'Minnewashta'***

Zestar!® Apple Tree  
Introduced in 1999 by the University of Minnesota. The most outstanding feature of a Zestar!® Apple is its sprightly sweet-tart taste, unlike other early season apples that are often soft or mealy, Zestar!® is juicy with a light, crisp texture. Just one bite, and you will savor the zesty flavor and crunch.

***Ostrya virginiana***

Ironwood

20-40'H x 15-30'W. Showy, shaggy bark provides winter interest and a planted row can be pruned to create an interesting hedge. Plant in a lawn, along a driveway, street, or in a woodland garden. Possible host plant for Red-spotted Purple and Eastern Tiger Swallowtail butterflies. Nutlets are eaten by songbirds, wild turkeys, quail, and small mammals. Witches' brooms that commonly occur on this tree provide a home to many invertebrates eaten by songbirds, especially during winter.

***Philadelphus lewisii 'Blizzard'***

Mockorange

4-5'H x 3'W. Zones: 3-7. A selection from a seedling population of *Philadelphus lewisii* collected in Alberta, Canada, that has proven hardy to zone 3. It blooms in June for up to 4 weeks with single, white fragrant flowers borne in clusters. It forms a medium sized upright shrub that is tolerant of full sun. The name 'Blizzard' was chosen for both the profuse amount of spring bloom and the extreme winter hardiness of this fine plant.

***Philadelphus 'Miniature Snowflake'***

Mockorange

Zone 4. 3-4'H x 3-4'W. A dwarf flowering shrub with a natural vase shape. Wonderfully fragrant double flowers provide a delightful spring landscape accent. Densely branched with attractive, lush green foliage. Cut stems are great for floral arrangements. Deciduous.

***Physocarpus opulifolius 'UMNHarpell'***

First Editions® Fireside® Ninebark

8' H x 8'W. U of MN introduction. Leaves are glowing red as if on fire in spring, maturing a dark purple; white flowers in late spring are great for pollinators.

***Physocarpus opulifolius 'Center Glow'***

Ninebark

8' H x 8'W. Leaves have centers of golden green, orange, and copper tones surrounded by dark red purple changing into shades of red as summer takes over.

***Physocarpus opulifolius 'ZLEMicheal'***

First Editions® Lucky Devil® Eastern Ninebark

3-4'H x 3-4'W. With bright yellow leaves, Lucky Devil® Ninebark is a spectacular shrub to serve as a focal point, informal hedge, or along the foundation of your home. With a mature size of 3-4' tall and wide, beautiful white blooms in spring, and orange fall color, this compact shrub is a multi-season wonder in cool and moderate climates. While some yellow-leafed plants may bleach out in full sun, Lucky Devil® maintains its bright color to capture attention and serve as a strong accent to other plants in the landscape. Zones: 3-7.

***Picea abies 'Motala'***

Norway Spruce

4'H x 4'W. Zone: 3. An unique needle arrangement and color give *Picea abies 'Motala'* a distinctive look. Blunt-

tipped needles radiate out and downward on short, stout, vertical branches, which produces an *Abies*-like appearance. Minute, glaucous striations on needle tops complement the color with a silver-blue cast. This attractive selection, rarely found in the trade, enhances any landscape.

***Picea abies 'Tompä'***

Norway Spruce

3'H x 2'W. Zone:3. Fresh green needles and a compact habit make the slow-growing *Picea abies 'Tompä'* a great choice for smaller landscapes and rock gardens. Its wide, conical shape resembles the well-known Alberta Spruce for which it is a superior alternative.

***Pinus strobus***

Eastern White Pine

3'H x 2'W. Zone:3. Fresh green needles and a compact habit make the slow-growing *Picea abies 'Tompä'* a great choice for smaller landscapes and rock gardens. Its wide, conical shape resembles the well-known Alberta Spruce for which it is a superior alternative.

***Pinus banksiana***

Jack Pine

30-50'H x 20-30'W. Zones: 2-6. Seed for this conifer originates from its native area in northern Minnesota. It is often found in the wild on poor, dry, sandy, barren plains. It is a scraggly tree with a somewhat pyramidal shape that becomes open and irregular with age. Jack pine is particularly noted for its short, stiff, olive green needles (to 1.5" long) in bundles of two, its strongly-curved cones (to 2.5" long) and its ability to grow in poor soils. Needles may develop yellowish tones in winter. Cones ripen in two years, either opening at maturity or remaining closed on the tree for as much as 10 or more years.

***Potentilla fruticosa 'Bailmeringue'***

First Editions® Lemon Meringue™ Bush Cinquefoil

2-3'H x 2-3'W. Zones: 2-6. Lemon Meringue™ *Potentilla* is loaded with light yellow, double flowers that might remind you of a rose. This deer-resistant selection blooms all summer and forms a round, compact shrub with little pruning required.

***Potentilla fruticosa 'Jefman'***

First Editions® Mandarin Tango™ Bush Cinquefoil

Zone 2. 2-3'H x 2-3'W. Full sun. The 1" single round flowers are a lovely shade of orange with just a hint of red. Beautifully compact, it forms a rounded shrub reaching only 2-3' in height and spread, making it perfect for the foundation. Deer resistant.

***Prunus 'Meteor'***

Tart Cherry Tree

Introduced by the University of Minnesota. Meteor cherry is a genetically dwarf tree that reaches 8-10 feet tall. This self-pollinating cherry produces sour fruit 2-3 years after planting. The fruit are large and shiny red- the popular image of a cherry. Harvest the fruit for pies, sauces, and eating straight from the tree. For the best fruit production plant other cherries nearby, ensure good air circulation, and plant the trees in full sun.

***Prunus virginiana var. melanocarpa***

Black Chokecherry

6-10 ft. A chokecherry with longer flower clusters and edible (a little better than regular chokecherry) fruit.

***Pyrus 'MN121'***

Juicy Jewel® Pear Tree

University of Minnesota introduction. Unlike European pears, which ripen to a soft, creamy texture, Asian pears are known for their crisp, apple-like texture. The tree produces attractive oval to elliptical fruit with yellow-green skin and the occasional orange-pink blush. Taste-wise, Juicy Jewel® fruit is sweet with mild tropical overtones and is ready to harvest by mid-August in central Minnesota. It can be picked ripe for immediate consumption and may be stored for two to three months when refrigerated. Juicy Jewel® has proven to be winter hardy in USDA Zone 4 and relatively free of disease when grown at the UMN Horticultural Research Center. The tree should be planted in combination with another pear variety to ensure cross pollination and optimum fruit production.

***Quercus robur 'Fastigiata'***

English Oak

The fastigate English oak is a columnar form of this species, which is popular in Europe. It has been widely planted in North America since the 1600s. It is a large, majestic, deciduous oak of the white oak group that typically grows in cultivation to 40-70 feet tall with a broad-spreading, rounded crown. Trunks are typically short, with ridged and furrowed dark gray to black bark. Acorns are an important source of food for wildlife. Short-stalked, dark green leaves (3-5 inches long) with 3-7 blunt lobes per side are blue-green beneath. Upswept branches bearing dark green leaves typically spread no more than 10 to 15 feet at maturity, making this a useful tree for tight spaces. English oak is very adaptable and suitable for urban planting but should be sited in full sun to reduce the occurrence of mildew. Zone: 4.

***Quercus rubra***

Northern Red Oak

50-70'H x 40-65'W. Northern red oak is a Midwest native and is one of the faster growing oaks for the home landscape, they grow tall and straight with a clear trunk and narrow crown. The bark on young stems is smooth, dark gray to dark brown. On older trees, the bark is thick and brown, with shallow fissures on smooth-surfaced vertical plates. Leaves are simple and grow alternately on the stem often 5" to 9" in length. The leaves are handsome throughout the year, emerging pinkish-red, turning lustrous dark green in summer, and changing to russet-red to bright red in autumn. Its tolerance of salt and air pollution makes it a good tree for more exposed areas. Zone: 4

***Quercus macrocarpa***

Bur Oak

40-70'H x 40-70'W. Zones: 3-9. Bur oak is a large drought resistant, long-lived and reasonably fast-grower for an oak. Its acorns have a bur or mossy appearance hence the common name. Tolerates lime soils better than most oaks. It is native to the central plains and the great lakes regions of North America. The tree has strong branches, drought tolerance, winter hardiness, and freedom from serious insects or diseases. It prefers rich bottomland but is tolerant of poor soil conditions as rocky slopes and dry or clay soils if given full sun conditions. A long taproot makes it difficult to transplant.

***Quercus x warei 'Long'***

Regal Prince® Hybrid Oak

40-60'H x 20-25'W. Zones: 4-8. This vigorous oak resulted from a cross of *Q. robur fastigiata* (upright English oak) and *Q. bicolor* (swamp white oak) and has a distinctive upright oval habit. Beautiful all season long, the foliage has an attractive silvery lower surface. It is tolerant of a wide range of soils types, wet and dry.

***Rhododendron 'Haaga'***

Rhododendron

4'H x 4'W. Zone: 4a. Haaga Rhododendron is smothered in stunning clusters of lightly-scented shell pink trumpet-shaped flowers with pink centers at the ends of the branches in mid spring, which emerge from distinctive rose flower buds. It has green evergreen foliage. The narrow leaves remain green throughout the winter.

***Rhododendron 'Candy Lights'***

Azalea (Lavender, Pink)

University of Minnesota introduction 2001. Light pink, pale yellow streaks, very fragrant. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

***Rhododendron ‘UMNAZ 493’***

First Editions® Electric Lights Double Pink™ Azalea  
University of Minnesota introduction 2015. True pinkink, double-flowering, Buds are hardy to -30F, blooms for 7 weeks. The ‘Lights’ series of azaleas brings the colors of the tropics to Minnesota’s early spring landscape.

***Rhododendron ‘UMNAZ 502’***

First Editions® Electric Lights Red™ Azalea  
University of Minnesota introduction 2015. Fiery red, blooms early, compact, shiny foliage, buds are hardy to -30F. The ‘Lights’ series of azaleas brings the colors of the tropics to Minnesota’s early spring landscape.

***Rhododendron ‘Lemon Lights’***

Azalea (Yellow)  
University of Minnesota introduction 1996. Lemon yellow, narrower and more upright plant. The ‘Lights’ series of azaleas brings the colors of the tropics to Minnesota’s early spring landscape.

***Rhododendron ‘Lilac Lights’***

Azalea  
University of Minnesota introduction 1992. Pinkish-purple, darker speckles on upper lobes. The ‘Lights’ series of azaleas brings the colors of the tropics to Minnesota’s early spring landscape.

***Rhododendron ‘Mandarin Lights’***

Azalea  
University of Minnesota introduction 1992. Beautiful, bright, mandarin-orange, extremely hardy. The ‘Lights’ series of azaleas brings the colors of the tropics to Minnesota’s early spring landscape.

***Rhododendron ‘Northern Hi-Lights’***

Azalea (Cream)  
University of Minnesota introduction 1994. Creamy white, bright yellow upper petal. The ‘Lights’ series of azaleas brings the colors of the tropics to Minnesota’s early spring landscape.

***Rhododendron ‘Rosy Lights’***

Azalea  
University of Minnesota introduction 1984. Deep rosy-pink, abundant blossoms, hardy to -45F. The ‘Lights’ series of azaleas brings the colors of the tropics to Minnesota’s early spring landscape.

***Ribes nigrum ‘Consort’***

Black Currant  
4’H x 3’W. Zone: 4a. Consort is like the Cabernet among the currants. The taste is just divine, and so is the aroma of the berries, leaves and even the branches. Consort Black Currant (*Ribes nigrum*) is a self fertile abundantly productive black currant. These showy plants produce clusters of sweet smelling bell shaped white flowers in spring which attract bees and butterflies. The blossoms are followed by dark black berries perfect for jams, wine, pies and fresh eating.

***Ribes rubrum ‘Red Lake’***

Red Currant  
3-6’ H. Clusters of large bright red berries borne on 2-3-year-old wood. Semi-erect and vigorous. Very productive. Fruits are good for jams and jellies. Self-pollinating. Ripens July-August. 1933 U of MN Introduction.

***Rubus ‘Boyne’***

Red Raspberry  
Boyne raspberry is an early-season variety that is extremely winter hardy. It consistently produces deep-red, medium-sized berries. The medium sweet, aromatic flavor makes it great for freezing and jam.

***Rubus idaeus ‘Fallgold’***

Yellow Raspberry  
After a late summer to fall harvest, a second crop arrives the following spring on the same canes. Excellent fresh or for preserves and pies. The warm yellow berries brighten the garden. Deciduous.

***Rubus idaeus ‘Heritage’***

Red Raspberry  
Everbearing red raspberry is a favorite for its flavor, firmness and fruit size. This variety produces abundant crops of large, sweet, dark red berries that are perfect for eating fresh, canning, freezing, or making jams and jellies. These self-supporting, upright canes are hearty enough to grow in poor soil, but requires a well-drained site.

***Rubus idaeus ‘Killarney’***

Red Raspberry  
Killarney Raspberry is a new hybrid from Manitoba. One of the hardiest raspberry varieties; disease resistant and recommended for colder climates. This variety forms raspberries that are bright red in color, have a good flavor, and freeze well. Because of its edible qualities it lends to the best usage in processing like pies, jams, jellies, and for U-Picks.

***Salix purpurea ‘Nana’***

Dwarf Arctic Willow  
Zone 4a. 5’H x 6’W. A beautiful and popular garden shrub with fine foliage, fine whip-like branches and a consistent, rounded habit of growth; quite hardy, takes pruning well; use for its form and texture to create interest in the garden. Dwarf Blue Arctic Willow has bluish-green deciduous foliage. The narrow leaves turn yellow in fall. The smooth bark and deep purple branches add an interesting dimension to the landscape.

***Sambucus nigra ‘Eva’***

Black Lace® Elderberry  
6-8’H x 6-8’W. Black Lace® elderberry is a perfectly stylish addition to your landscape. Intense purple black foliage is finely cut like lace, giving it an effect similar to that of Japanese maple. Indeed, some designers are using it in place of more sensitive plants since Black Lace is extremely durable and adaptable. Pink flowers in early summer contrast with the dark leaves for a stunning effect and give way to black berries if a compatible pollinator is planted nearby.

***Syringa ‘SMSJBP7’***

Bloomerang® Dark Purple Reblooming Lilac  
4-5’ H. Blooms in spring and then again throughout the summer. It goes through a rest period in the heat of the summer, then flowers. While traditional lilac varieties bloom for a few short weeks in spring, Bloomerang’s fragrant flowers continue until frost.

***Syringa x hyacinthiflora ‘Declaration’***

Hyacinth Lilac  
8’ H. .US National Arboretum introduction with large, deep reddish purple, fragrant flowers and blooms a week to 10 days earlier than the common lilac.

***Syringa meyeri ‘Palibin’***

Dwarf Korean Lilac  
4-6’H x 5-7’W. A dwarf, spreading lilac with reddish purple buds that open to fragrant, pale lilac flowers. Blooms profusely in midseason, typically mid-May, and first flowers at an early age. Use in shrub borders with an evergreen background or plant in groups to form a low hedge. Deciduous.

***Syringa pubescens subsp. patula ‘Miss Kim’***

Manchurian Lilac  
“4-9’H x 5-7’W. The leaves are dark green, elliptic to ovate in shape, and measure 3-5 inches long. In the fall, the leaves turn a burgundy red. The lavender flowers are showy, fragrant, and make an excellent cut flower. ‘Miss Kim Lilac’ attracts butterflies and hummingbirds and is deer resistant.”

***Syringa patula subsp. ‘Klmone’***

Manchurian Lilac  
4-5’H x 4-5’W. Covered in fluffy panicles of pink flowers—so much so that there’s hardly a trace of the leaves to be seen. A spectacular sight to see, these blooms measure 12” long x 9” wide!

***Syringa vulgaris ‘Krasavitsa Moskv’***

Lilac  
10-12’H x 8’W. Zones: 3-7. Highly fragrant, this beautiful lilac produces abundant panicles of double, delicate, pale pink flowers on a vigorous, upright plant. It is stunning in bloom. This amazing lilac is regarded as one of the finest lilac cultivars. Rarely to never fed on by Japanese beetles.

***Syringa vulgaris ‘Sensation’***

Lilac  
Zone 3. 8-10’H x 8-10’W. An outstanding lilac noted for its large trusses of purple-red florets edged in white. A mid-season bloomer that typically flowers in mid-May. Branches are erect and open with rich green foliage. Use to create a beautiful spring flowering hedge, screen, or accent.

***Syringa vulgaris ‘Yankee Doodle’***

Lilac  
6’H x 6’W. Zones: 2-8. One of the darkest purple lilacs with showy clusters of fragrant, dark purple florets that appear in mid-spring. Excellent for cut flower arrangements. Very hardy. Plant near a window or along walkways where fragrance can be enjoyed, or in mixed shrub borders or mass plantings with other lilacs.

***Syringa ‘Bailbelle’***

Tinkerbelle® Hybrid Lilac  
5-6’ H. A compact lilac that exhibits a growth habit and bloom time like Dwarf Korean, but with a pleasing, spicy fragrance and incredible wine-red flower buds that open to pink.

***Syringa reticulata***

Japanese Tree Lilac  
Zone 3. 15-20’H x 15-20’W. Abundant white fragrant flower spikes bloom in early summer, unique, uniform branching habit and thick, dark leaves. Tolerant of urban conditions. Ideal for small gardens and residential landscapes.

***Syringa x hyacinthiflora ‘Bailbridget’***

Virtual Violet® Lilac  
First Editions® lilac with very fragrant flowers and disease resistant foliage.

***Taxus cuspidata ‘Nana Aurescens’***

Golden Dwarf Japanese Yew  
2’H x 8’W. Zone: 4. New growth on *Taxus cuspidata* ‘Nana Aurescens’ bursts on the scene like a splash of brilliant goldenrod. Since second-year foliage goes dark green, each year’s new growth makes another dramatic splash of color when it emerges. The shade tolerant, adaptable, colorful conifer has a wider-than-tall, spreading habit.

***Thuja occidentalis ‘IslPrim’***

Primo® American Arborvitae  
4’h x 1’W. Zone: 4. Rich, deep green summer color combines with the compact textural foliage and naturally sculpted spire-like shape making this new selection an unexpected breakthrough for the hardy common Arborvitae. With a bronzed winter color, a very young tree has proportions perfect for miniscapes or container gardening. As it ages, an elegant small tree develops. The natural character as a specimen is the finest quality a conifer can offer the landscape in either cold or moderate climates.

***Vaccinium corymbosum* ‘MNPINK1’**

Pink Popcorn® Blueberry

5’ H x 5’W. Highbush blueberry that bears attractive pink berries that ripen early to a creamy pink with a dark pink blush. Yellow fall foliage. Red winter branches. 2014 U of MN Introduction.

***Vaccinium* ‘Chippewa’**

Blueberry

2-3’ H x 2-3’W. Firm, large, light blue berries with balanced flavor. Mid-season. 1996 U of MN Introduction.

***Vaccinium* ‘Northblue’**

Blueberry

2-3’ H x 2-3’W. Dark blue fruit. Good blueberry flavor. Glossy, dark green leaves turn to deep bright red in fall. 1983 U of MN Introduction.

***Vaccinium* ‘Northcountry’**

Blueberry

1-2’ H x 2-3’W. Sweet and mild, sky-blue fruit. 1988 U of MN Introduction.

***Vaccinium* ‘Polaris’**

Blueberry

3-4’H x 3-4’W. Zones: 3-8. ‘Polaris’ is known as a ‘half-high’ type of Blueberry, combining the denseness of lowbush selections with the fruit size and larger berry yields of the highbush selections. The result is a plant that will cover itself with fragrant, white, bell shaped flowers in early May and with medium sized, powder blue, aromatic, extremely sweet tasting fruit in late July and early August.

***Vaccinium* ‘Superior’**

Blueberry

3-4’H x 3-4’W Zones: 3-7. 2009 University of Minnesota introduction. Northern Highbush variety was specially bred to offer up loads of delightfully sweet berries in colder climates. Upright growth habit makes Superior an excellent edible hedge. Superior flowers later than most other blueberries, protecting it from late frosts and making it a reliable late-season producer. Berries are lower in acidity than many of its peers with a balanced flavor and delicate sweetness

***Weigela florida* ‘Bokrasopin’**

Sonic Bloom® Pink Reblooming Weigela

4-5’H x 4-5’W. Zone 4. The most bountiful blooming Weigela there is! The hot pink flowers first make their appearance in May and continue to rebloom until the first frost. Deadheading? Not necessary for this Weigela to give a strong show. It will be attracting hummingbirds all season while being resistant to deer.

**MINNESOTA NATIVES****Grown by the Arboretum’s Plant****Conservation Program and partner nurseries*****Actaea racemosa***

Black Cohosh, Black Snakeroot

“Black Snakeroot” or “Black Cohosh” can grow as tall as 6 feet. I’ve even seen it shoot up to 9 feet at Rainforest Gardens in British Columbia. I love the fragrance of its long spikes of fluffy white flowers in midSummer. Easy to grow in full to part shade.

***Adiantum pedatum***

Maidenhair Fern

10”H. A deciduous perennial fern with handsome, black shiny stems and graceful, bright green fronds spreading horizontally in a circular pattern.

***Agastache foeniculum***

Blue Giant Hyssop

24-36”H x 18-36”W. An upright, clump-forming perennial with attractive spikes of small, tubular, lavender to purple flowers from early summer to early fall. They are attractive to bees, hummingbirds, butterflies and beneficial insects.

***Ageratina altissima***

White Snakeroot

24”H. Zones: 3-9. White Snakeroot bears clusters of small, foamy white flowers, often reaching 2 to 4 feet in height. Toothed, somewhat heart-shaped leaves drape elegantly from long stems. Blooming in late summer, this plant keeps its dainty blossoms well into the fall season, oftentimes past the first frost! Fertilized flowers transform into fluffy tufts, and like miniature dandelion seed heads, they whimsically disperse seeds on the wind.

***Allium stellatum***

Prairie Onion

8-18”H. A single, leafless, flowering stem (scape) rises from the center of the rosette of leaves. When in bud, the scape bends downward (nods) at the top, and the umbel faces toward the ground. By the time the flowers are fully mature the scape is erect and the flowers face upward.

***Amorpha canescens***

Lead Plant

18-24”H x 24-30”W A small-growing native shrub with steel blue flowers that brings a welcome splash of color to the midsummer garden.

***Anaphalis margaritacea***

Pearly Everlasting

Pearly everlasting is native to North America and Asia, but as a widely-cultivated ornamental it has greatly increased its range. It is often used in dried flower arrangements. It was used by Native Americans as a substitute for tobacco, and as a medicinal herb.

***Andropogon gerardii***

Big Bluestem

4-6’H x 2-3’W Clumping perennial grass. In spring, glaucous stems and leaves rise from the earth. By late summer plants have bluish-green foliage with purplish tassel-like flowers. Leaves turn various shades of earthy red and orange in fall. Leaves and seed heads develop an amber winter color.

***Anemone cylindrica***

Thimbleweed

12-24”Flowers are small and greenish white but produce long thimble-shaped fruits that are the best ornamental feature, especially in the fall and winter when they start to shed seeds and have a cottony appearance that shines in the low light.

***Pulsatilla patens***

Pasque Flower

3-18”H Flowers are a beloved sight in early spring: the crocus in chinchilla fur according to Eloise Butler. Fruits are an equally showy wildy hairdo plume set above the beautiful deeply cut foliage.

***Aquilegia canadensis***

Wild Columbine

1-3’ H. Lovely pendant red flowers with a center of yellow honeycomb entice ruby-throated hummingbirds to pollinate them. A short-lived perennial best allowed to self sow.

***Arisaema dracontium***

Jack-in-the-Pulpit

“Green Dragon” can get quite tall if given the moist, rich soil and shade that it loves. It’s very easy to grow and puts out a very large spathe with a single five bladed leaf. A mature plant can grow up to 4 feet tall under favorable conditions.

***Arisaema triphyllum***

Jack-in-the-Pulpit

One to two large, glossy leaves, divided into three leaflets, rise on their own stems up to about 2 feet tall. The intriguing blossom of this woodland perennial occurs on a separate stalk at the same height as the leaves. It is a large, cylindrical, hooded flower, green in color with brown stripes. Distinctive “Jack-in-the-Pulpit” formation grows beneath large leaves. A cluster of bright red berries appears in late summer.

***Artemisia ludoviciana***

Prairie Sage

3’H. Zones:3-7. Spreading by rhizomes, Prairie Sage can form dense colonies that give a distinctive silver-green accent to large plantings on sunny sites with mesic to dry soil. Its stems and foliage are covered with woolly gray or white hairs and topped by nodding clusters of yellowish disk flowers that bloom through summer. These flowers attract many pollinators.

***Asclepias exaltata***

Poke Milkweed

3-5’H. Zones: 3-7. Unique among milkweeds, Poke Milkweed (*Asclepias exaltata*) grows in the shade. Aromatic in bloom, the spreading umbels with white to pink flowers weep downward on individual stems, reminiscent of fireworks. The elegant flowers give way to beautiful elongated seed pods.

***Asclepias incarnata***

Swamp Milkweed

3-4’ H. Lovely vanilla fragrance coming from large rosy pink flowers possibly hosting several Monarch or Swallowtail butterflies.

***Asclepias speciosa***

Showy Milkweed

A stout, sparingly branched, pubescent perennial, 1 1/2-3 ft. tall, with large, oval, blue-green leaves and showy, spherical clusters of rose-colored flowers. Flowers occur at the top of the stem and on stalks from leaf axils. A grayish, velvety plant with erect leafy stems and with umbels of star-like pinkish flowers in upper axils and at top. Sap milky.

***Asclepias tuberosa***

Butterfly Weed

12-30’ H. Features clusters (umbels) of bright orange to yellow-orange flowers atop upright to reclining, hairy stems with narrow, lance-shaped leaves.

***Asclepias verticillata***

Whorled Milkweed

1-2’ H. A deep-rooted perennial that forms colonies from underground rhizomes. The leaves are narrow and linear. At season’s end, foliage develops yellow fall color. This late bloomer is among the last milkweeds to go dormant. This makes it a very valuable late season food source for Monarch butterflies and their caterpillars. Bees, beneficial wasps, butterflies and skippers seek the floral nectar, but foliage is unpalatable to deer and rabbits.

***Astragalus canadensis***

Canadian Milk Vetch

3’H. Zones: 3-8. This adaptable species can thrive in a variety of environments including prairies, woodlands, and stream banks. As a garden plant, Canada Milk Vetch provides great leaf texture. The green flowers make an interesting addition to cut flower arrangements. Also a common nectar source for bumblebees and honeybees, and for food for animals including deer, wild turkey, groundhogs, rabbits, and livestock.

***Athyrium filix-femina***

Lady Fern

Highly variable in appearance over its range, Subarctic lady fern is typically a large, clustered fern, 2-3 ft. tall. Its light-green color and twice-pinnate fronds with finely toothed leaflets create the illusion of a dainty fern, despite its large size. Stems are greenish-yellow to red.

***Baptisia alba***

White False Indigo

This 2-4 ft., mound-shaped perennial holds its white, pea-like flowers in erect clusters. Velvety, trifoliolate leaves turn from bluish-gray to black in the fall. A bushy perennial with smooth leaves and white or cream-colored pea flowers in stiffly erect clusters; stem covered with whitish bloom. Clusters of large, black seed pods often remain attached to the naked winter stems.

***Baptisia australis***

Blue False Indigo

Rising 2-4 ft. high from a woody base, blue wild indigo is a bushy, robust perennial. Flowers are blue-purple and pea-like, congested in dense, upright, terminal spikes, 4-16 in. long. Leaves are divided into three leaflets.

***Baptisia bracteata***

Cream False Indigo

10-30"H. Dense cascading raceme of creamy yellow pea-shaped flowers, often touching the ground from the weight of the blooms. Flowers are ½ to 1 inch long, with a broad upper petal (standard) flaring up, cleft in the middle, the large lateral wings below it extending forward, enclosing from above but spreading below to reveal the two keel petals underneath.

***Blephilia hirsuta***

Hairy Woodmint

3'H. Zones: 3-8. Blephilia hirsuta prefers moist woods and savannas; partial sun to light shade, and moist to mesic soils. Hairy Wood Mint has fibrous roots that spread by rhizomes to form dense colonies. Its mint-scented leaves and white flowers are the perfect addition to any shady woodland, woodland edge, savanna, or other partially shaded area. Flowers are pollinated primarily by long-tongued bees, specifically little carpenter bees, mason bees, and leaf-cutting bees.

***Bouteloua curtipendula***

Sideoats Grama

Side-oats grama is a bunchy or sod-forming grass with 2-3 ft. stems in erect, wiry clumps. Purplish, oat-like spikelets uniformly line one side of the stem, bleaching to a tan color in the fall. The basal foliage often turns shades of purple and red in fall.

***Bromus kalmii***

Prairie Brome

Flowering head is an open panicle 4 to 6 inches long, nodding to one side, the branches arching, drooping at the tips with 1 to 3 spikelets (flower clusters) per branch. Spikelets are stalked, oblong-elliptic in outline, slightly flattened, 15 to 25+ mm (to 1+ inch) long, with 6 to 13 florets. One or more sterile florets may be at the tip.

***Callirhoe triangulata***

Clustered Poppy Mallow

16-40"H. Clusters of several short-stalked flowers at stem tips and arising from upper leaf axils. Flowers are 1 to 2½ inches across with 5 petals, bright pink to magenta to nearly red. In the center is a column covered in pale pink stamens with several whitish styles at the tip.

***Caltha palustris***

Marsh Marigold

A succulent plant with glossy, heart- or kidney-shaped leaves and a thick, hollow, branching stem with bright, shiny yellow flowers. Yellow marsh-marigold is a mounded perennial, 1-2 ft. tall, with thick stems; broadly heart-shaped leaves; and clusters of large, showy, buttercup-like, yellow flowers.

***Campanula americana***

Tall Bellflower

3-5'H. Tall Bellflower attracts hummingbirds with bright blue flowers on a tall spike, arising from a base of deep green foliage. Growing three to five feet high, the bright blooms add a splash of mid and late-summer color to the shade garden. Easy to grow.

***Campanula rotundifolia***

Harebell

1-2'H. Harebell (*Campanula rotundifolia*) blooms in early summer and often re-blooms in fall. Blue-violet bell shaped flowers nod on slender, wispy stems up to 12 inches high. While delicate in appearance, Harebell is a tough little plant. Extremely drought tolerant, it loves dry sandy and gravelly soils making it a good species for rock or xeric gardens, and semi-shaded slopes. Harebell is a "circumpolar" native species, found growing around the world in the Northern Hemisphere. The name is said to come from a folk belief that witches used the plant to transform themselves into hares.

***Carex sprengelii***

Long-beaked Sedge

1-3'H x 2'W. Carex sprengelii is a lovely cool season woodland sedge. Plants form small colonies from short rhizomes. Foliage is bright green to chartreuse and semi-evergreen with narrow glossy blades. In early spring greenish-white or pale yellow spikelets are held above the leaves. Pendulous green to brown seed heads with long beaks follow. In the wild, this sedge occurs in partial sun or shade in moist or wet woodlands. In landscape situations, Carex sprengelii is an excellent groundcover or accent.

***Carex muskingumensis***

Palm Sedge

2-3'H. Palm Sedge, Carex muskingumensis, has glossy green leaves that branch out from the main stem, reminiscent of a palm tree. Native to wooded lowlands, Palm Sedge does best in slightly damp soil in sun or shade. Widely used in landscaping, it makes an excellent groundcover and thrives on clay soils. Plant one foot on center for a groundcover or small patch, or use individually as a foliage accent plant.

***Carex pensylvanica***

Pennsylvania sedge

6-12"H x 6-12"W. Pennsylvania Sedge, Carex pensylvanica, is a popular lawn alternative for home landscaping, with fine textured leaves and a creeping habit. Reaching heights of only 8" when in bloom, Pennsylvania Sedge grows actively in spring and fall when soil temperatures are cooler. Planted one foot on center, it fills-in to form a dense low growing turf that doesn't need mowing. Requires a well-drained dryer soil, in partial to full shade.

***Caulophyllum thalictroides***

Blue Cohosh

2-4'H. Zones: 3-7. A choice woodland wildflower treasured for its lacy blue-green foliage and deep blue berries. This beautiful shade garden plant prefers a soil with abundant organic matter from decaying leaves and consistent moisture. A cluster of yellow flowers appears at the branching "Y" of the stem in spring, and gives way to the berries that eventually turn blue. The berries are slightly toxic for humans, and should not be eaten. Late season foliage turns bright green-gold. Once established at a favorable site, Blue Cohosh is a long-lived plant.

***Chamaecrista fasciculata***

Partridge Pea

Sleeping Plant or partridge-pea is a slender-stemmed, 1-3 ft. annual with pinnately-compound leaves bearing many small, yellow-green leaflets which fold together when touched.

***Chamaelirium luteum***

Fairy Wand

12" - 24" spikes of soft fluffy white flowers from a tight basal rosette on this native woodland plant. Male and female flowers are produced on separate plants.

***Chelone glabra***

White Turtlehead

This smooth plant has tight terminal clusters of white (often lavender-tinged) tubular, 2-lipped flowers resembling turtle heads. White turtlehead, a robust perennial, grows 1-4 ft. tall. Its erect stems end in spikes of white flowers, the shape of which suggests a turtle head. The leaves are elongate and arranged opposite each other along the stem.

***Claytonia virginica***

Spring Beauty

Similar in culture and flower as Claytonia caroliniana, but with more elongated and narrow foliage.

***Claytonia umbellata***

Great Basin Spring Beauty

Really cool, globular black berries follow umbels of bright white flowers on 6" to 16" stems. This species is stoloniferous and will make a tidy little display clump in just a year or two. She prefers a moist, cool root run in humusy rich soil.

***Clinopodium vulgare***

Wild Basil

8-24" H. Rose pink to lavender flowers, flowers ½ in loose whorls around the upper stem. Woodland and meadow native blooming in late summer and valuable to pollinators.

***Coreopsis palmata***

Prairie Coreopsis

1-3' H. Yellow flowers 1½ to 2 inches across with 8 to 12 petals. The center is yellow and turns brown with maturity.

***Cymophyllum fraserianus***

Fraser's Sedge

Dense clumps of evergreen leaves. Its leaves are 8-24" long, up to 2" wide, smooth, shiny, leathery, with many faint parallel veins but no midvein; leaf margins are wavy and finely toothed. Flower stalk is 8-24" tall, with 4-6 sheaths wrapped around base and topped by a spike of white flowers. Female flowers are held on lower portion of spike and produce 20-30 white fruit sacs (perigynia) per spike, each enclosing a small, 3-sided fruit. Male flowers are held on upper portion of spike and consist only of stamens. Fruits are 3-sided nutlets, each about 0.1".

***Cypripedium reginae***

Showy Lady's Slipper

3' H. Pink slippers surrounded by white petals and sepals. Minnesota State flower.

***Dalea candida***

White Prairie Clover

15-18" H. Showy white flowers that are sweetly fragrant and very attractive to butterflies.

***Dalea purpurea***

Purple Prairie Clover

24-30" H. Showy purple flowers that have orange contrasting stamens are a favorite of native bees.

***Delphinium exaltatum***

Tall Larkspur

48"H x 12"W. The tall flowering stem has many blue to purple and occasionally white flowers in clusters from July to Sept. that attract bees, butterflies and hummingbirds. This delphinium blooms later and has more lush foliage than other members of the genus. Poisonous to humans.

***Delphinium tricorne***

Larkspur

A lovely dwarf, ephemeral "Larkspur" for the front of a woodland border. Plants form sort of a mound of dark green dissected foliage and shoot up dark purple flower spikes in early Spring. They never need staking and go dormant after spilling their cargo of seed.

***Dodecatheon meadia***

Midland Shooting Star

1-2'H. Shooting Star, *Dodecatheon meadia*, has delicate nodding blooms that seem to fly upward, away from the pointed red and yellow flower center, resembling a shooting star. The leafless stalks arise from a lush foliage base, creating the perfect backdrop for the exquisite flowers. A spring bloomer and true prairie ephemeral, goes completely dormant late summer. Grows in a lightly shaded area. Fall transplanting is best, but early spring planting is also fine. Mature plants can be propagated by division: Dig mature crowns in fall when dormant, then divide and replant.

***Echinacea pallida***

Pale Purple Coneflower

3-5'H. The showy daisy-like flowers of Pale Purple Coneflower bloom in early summer and are a favorite nectar source for pollinators, including butterflies and hummingbirds. Later in summer the large seed heads attract Goldfinches and other birds. *Echinacea pallida* is highly adaptable, tolerating drought, heat, humidity and poor soils, but it will not like soils that are too moist with poor drainage. Once established the deep taproot enables a long-lived, very low maintenance plant that is capable of handling hot dry situations with ease.

***Eryngium yuccifolium***

Rattlesnake Master

Scattered along the stiff, upright stem of this unusual perennial are tough, blue-green, yucca-like, parallel-veined leaves. Smooth, rigid stem bearing thistle-like flower heads made up of small greenish-white florets mingled with pointed bracts. The individual, greenish-white flowers cluster into unique, globular heads. These occur on branch ends atop the 6 ft. plant.

***Euphorbia corollata***

flowering spurge

This a plant that will grow in nearly any soil. It thrives where there isn't competition in any loam, clay, sandy, or rocky material. When this plant is in an area that is drained well, disease is not a problem to worry about. Flowering Spurge is sometimes called native Baby's Breath because of its resemblance to that horticultural variety. It attracts many insects with its pollen and nectar.

***Eurybia macrophylla***

Big-Leaved Aster

12-24"H. Perfect for shady areas with less than perfect soil. Drought tolerant, it thrives in both dry sand and heavy clay soils that possess a modicum of organic matter. Big Leaf Aster is often planted for its large, heart-shaped basal foliage which forms a nice ground cover. Upright stems emerge from the base in late summer, bearing clusters of delicate, bluish-white rayed flowers, from August thru September. Great for stabilizing shaded hillsides and slopes, it spreads by rhizomes to form a ground cover. Aster macrophyllus is a host plant for the Pearl Crescent Butterfly.

***Filipendula rubra***

Queen of the Prairie

A robust perennial, growing 3-5 ft. high. Attractive, deeply cut leaves with 7-9 lobes can be 3 ft. long. Large, feathery clusters of small, fragrant, pink flowers. The large sprays of small pink, fragrant blossoms are its claim to fame. Numerous stamens give the spirea-like flowers a fuzzy appearance.

***Galax urceolata***

Beetleweed

Full shade to part sun for this acid-loving East Coast native. Large, evergreen, glossy leaves and cool white flower spikes in mid Spring. Lovely fall color.

***Geum triflorum***

Prairie Smoke

8-15" H. Prairie Smoke is one of the first prairie flowers to bloom in the spring. 3 flowers on long stalks, generally red but may be a reddish shade of pink, purple or brown. Fruit is a dry seed with a 2-inch long feathery plume. The plumes are reminiscent of smoke blowing in the wind. Good for rock gardens.

***Hierochloa odorata***

Sweet Grass

Vanilla grass or sweet grass is an erect, slender, sweet-smelling grass, 12-20 in. tall., with small seed heads bearing broad, bronze-colored spikelets. The grass spreads by creeping rhizomes which send up few to several leafy shoots. This is a perennial.

***Hibiscus laevis***

Halberdleaf Rose Mallow

The Halberd-leaved rose mallow grows to 6 feet tall with erect stems and leaves. The leaves are alternate and prominently lobed at the base, the lobes wide-spreading and sharp-toothed. Flowers bloom from the axils of the leaves, from the bottom to the top of the stem. The large cup-shaped blossoms, about 3 inches long, are pink, sometimes white, with maroon or purple throats. The 5 overlapping petals open by day and close tightly at night.

***Jeffersonia diphylla***

Twinleaf

Named in honor of Thomas Jefferson, third president of the United States, this early Spring flowering plant has charming white, ephemeral flowers and set a unique seed pod that resembles a little hooded pouch. The plant itself however is not ephemeral at all and provides great foliage in part to full shade all Summer. The common name is "Twinleaf" because of its attractive double leaf structure. Plants are moderate(12-18") in height and will soon form a colony from self seeding.

***Liatris aspera***

Rough Blazing star

2-3'H. Covered with lavender blooms in late summer, Rough Blazing Star is shorter than other *Liatris* species and perfect for medium or dry well-drained soils. Butterflies are likely visitors, along with hummingbirds and other pollinators.

***Liatris ligulistylis***

Northern Plains Blazing Star

12-36" H x 12-24" W Rose-purple showy flowers. Easily grown in average, dry to medium, well-drained soils in full sun to part sun. Tolerates drought, dry soil, shallow-rocky soil. Intolerant of wet soils in winter. Attracts birds, hummingbirds, butterflies.

***Liatris punctata***

Dotted Blazing Star

1-3' H. Erect, unbranched stems may be solitary, but are usually in clusters. Several stems bear narrow, crowded heads with rose-lavender flowers arranged in slender wands. Numerous narrow leaves are crowded along the stem.

***Liatris pycnostachya***

Prairie Blazing Star

2-5' H. The stems are 2-5 feet tall, and nearly half of this is the flower spike. A spike of rayless, rose-purple (rarely white), cylindrical, stalkless flower heads densely crowded on a course, hairy, very leafy stem.

***Lobelia cardinalis***

Cardinal Flower

This 1-6 ft. perennial has showy, red flowers in 8 in., terminal spikes. Each flower has three spreading lower petals and two upper petals, all united into a tube at the base. Erect leafy stems, often in clusters, with racemes of flowers resembling flaming red spires. The lower portion of the erect stem is lined with lance-shaped leaves.

***Lobelia siphilitica***

Great Blue Lobelia

1-3' H. The end of summer, rich blue flowers of this plant are both showy and inviting to many bees. Short-lived and can self sow with profusion where happy.

***Matteuccia struthiopteris***

Ostrich Fern

This 1-6 ft. perennial has showy, red flowers in 8 in., terminal spikes. Each flower has three spreading lower petals and two upper petals, all united into a tube at the base. Erect leafy stems, often in clusters, with racemes of flowers resembling flaming red spires. The lower portion of the erect stem is lined with lance-shaped leaves.

***Meehania cordata***

Meehan's Mint

One of the coolest little ground covers. Even though it's in the Lamiaceae family, it's not aggressive or invasive. Dark green, slightly glossy, 1" cordate leaves are somewhat evergreen. In the early to mid Spring, lavender 1" trumpet like flowers persist over a long period. One of its greatest merits is that it will practically grow in the dark. This makes it especially useful in those foreboding dark corners of the garden where you haven't been able to sustain any plant life.

***Mertensia virginica***

Virginia Bluebells

Erect plant with smooth gray-green foliage and nodding clusters of pink buds that open into light blue trumpet-shaped flowers. The 1-2 ft., branched and arching stems of Virginia bluebells bear pendulous, terminal clusters of lavender-blue, bell-shaped flowers. Large, gray-green, oval leaves line the stems of this perennial.

***Monarda bradburiana***

Eastern Beebalm

1-2'H. *Monarda bradburiana* is a compact clumping perennial wildflower. Plants have gray-green aromatic leaves on strong square stems. In late spring, stems are topped by showy rounded clusters of pale pink tubular flowers speckled with purple. Pollinators flock to the blooms in sunny or partly shaded gardens with average well drained soils.

***Monarda fistulosa***

Wild Bergamot

Wild bergamot, known by many other common names, is a popular and showy perennial. Clusters of lavender, pink or white flowers, looking like ragged pompoms, bloom atop 2-5 ft., open-branched stems.

***Monarda punctata***

Spotted Bee Balm

An aromatic, erect perennial ranging from only 6 in. to almost 3 ft. tall. Rosettes of yellowish, purple-spotted, tubular flowers occur in whorls, forming a dense, elongated spike at the end of the stem or from leaf axils. Each whorl is subtended by large, conspicuous, whitish, purple-tinged, leaf-like bracts.

***Onoclea sensibilis***

Sensitive Fern

Sensitive fern varies in height from a few inches to more than 3 ft. Its sterile fronds, which wither early, are light to brown-mottled green and deeply cut into long lobes which almost reach the stem. Twice-pinnate fertile fronds appear in late summer and, though dead, remain upright through winter. Fiddleheads appear in the spring in shades of pale red.

***Pachysandra procumbens***

Allegheny Spurge

A favorite groundcover for the shade. This plant for all seasons has the most interesting fragrant, white spikes of flowers in early Spring and light, almost olive-green foliage all Summer. Virtually untouched by insects and disease, it begins to pick up a silvery sheen by early Autumn and by the middle of Autumn, look out, every plant has a different pattern of the most brilliant silvery mottling. Not at all invasive like its Asian cousin.

***Panicum virgatum***

Switchgrass

Clump-forming, warm-season grass with open, lacy sprays with small seeds, Aug-Oct. Purple stigmas at flowering time. Switchgrass is a 3-6 ft., rhizomatous, loose sod former with a large, open, finely textured, reddish-purple seed head. Fall color is pale yellow. Bright green leaves occur up and down the stem, turning bright yellow in fall. Switchgrass is a perennial. Grows in large clumps, with many persistent, curly leaves.

***Penstemon grandiflorus***

Large-flowered Beardtongue

1-3' H. This plant produces a basal rosette of lovely blue-green leaves that produce a tall spike of showy lavender or white flowers in late spring. Seedheads hold well in the garden through winter.

***Phlox pilosa***

Prairie Phlox

A dome-shaped cluster to 3 inches across at the top of the plant. Flowers are short-stalked, pink to purplish (rarely white), \_ to \_ inch across, with a long, slender tube, 5 broad, spreading lobes and 5 yellow-tipped stamens hiding inside the tube.

***Phlox stolonifera***

Creeping Phlox

Again, a Phlox species that's had many wonderful cultivars named over the years. This is the straight and not so variable species with early Summer blooming, deep pink flowers. It spreads along the ground by stolons and plants its little rosettes here and there. Flowers stems are about 6" to 8" tall.

***Prosartes lanuginosa***

Yellow Fairy Bells

Nodding greenish yellow bell shaped flowers on a 12" 36" plant in mid Spring. light green, deeply veined foliage. Neat orange berries in late Summer through Autumn. Loves moist woodland conditions.

***Ratibida columnifera***

Long-headed Coneflower

A plant branched and leafy in lower part with long leafless stalks bearing flower heads of 3-7 yellow or yellow and red-brown, drooping rays surrounding a long, red-brown central disk. Its sombrero-shaped flower heads, is usually 1 1/2 ft. tall but can reach 3 ft. Flower petals range from dark red and yellow, to all red or all yellow.

***Ratibida pinnata***

Gray headed coneflower

A slender, hairy-stemmed plant bearing flower heads with drooping, yellow rays surrounding a roundish to ellipsoid, grayish central disk darkening to brown as rays drop off. Gray-head mexican-hat is a 3-5 ft. tall, summer perennial with a somewhat branched stem.

***Rudbeckia fulgida***

Orange Coneflower

This is a perennial coneflower with yellow-orange, slightly curved petals, each toothed at its apex. The 1-3 ft. stems and scattered, oval leaves are covered with bristly hairs. Flower heads are 2-3 in. wide.

***Schizachyrium scoparium***

Little Bluestem

2-3' H. This attractive grass produces purplish plumes with grey/green foliage.

***Senna hebecarpa***

Wild Senna

Wild Senna offers a profusion of buttery yellow flower clusters atop lush green foliage in midsummer. The dark brown seed pods are a favorite of birds, and add great winter interest, too. Fond of clay, it thrives in medium to moist soils, and tolerates periodic flooding. The horizontal root system provides stabilization against high wind velocities, making this tall sun-loving plant an excellent hedge choice. An exceptional plant for pollinator support, Wild Senna is also a host plant for the Cloudless Sulphur and other butterflies.

***Silene regia***

Royal Catchfly

Royal Catchfly is a rare Midwest native plant with brilliant red flowers that are acclaimed for attracting Hummingbirds, and butterflies such as the Black Swallowtail. Typically around 3-4 feet high, it does best in medium, loamy soil. An excellent addition to any sunny garden bed, combine it with other prairie flowers and grasses to provide a bit of support and keep the plants upright.

***Silphium terebinthinaceum***

Prairie Dock

Very large, wide, spade-shaped basal leaves subtend a 3-8 ft. flowering stalk. Bright yellow, composite flower are numerous on older plants.

***Sisyrinchium campestre***

Prairie Blue-eyed Grass

A small, dainty member of the Iris family, white-eyed grass has pale-green, grass-like leaves and blue to white, star-like flowers with yellow centers. The flowers, which occur on slender stems at the same height as the leaves, bloom only on sunny days. The clumped perennial is 8-15 in. tall.

***Solidago ptarmicoides***

Upland White Goldenrod

1-2' H. Open flat clusters of 3 to 60 daisy-like flowers on 1-inch stalks at the top of the plant. The flowers are about \_ inch across with 10 to 20 white petals around a creamy white to pale yellow disk.

***Solidago ptarmicoides***

White Upland Aster

1-2'H. This plant has aster-like, small, pale white flowers in clusters and narrow goldenrod-like leaves. The value of this wildflower is that it's late flowering, provides good pollinator support, grows low in clumps and has an extremely high tolerance to dry and poor soils! It is also tolerant to heat, humidity, and drought.

***Solidago uliginosa***

Bog goldenrod

Bog Goldenrod's range is predominantly in wetlands and marshes of about half the counties in Minnesota.

***Sorghastrum nutans***

Yellow Prairie Grass

3-6' H. One of the dominant grasses of prairies that once covered a large portion of Minnesota. It is a beautiful grass, the golden-brown plumes wafting in the slightest breeze.

***Sporobolus heterolepis***

Prairie Dropseed

1-3' H. Prairie dropseed is found throughout Minnesota's prairie regions. In late summer to early fall when many native grasses are turning reddish brown, its golden color is highly visible. Prairie dropseed is also one of the most fragrant grasses, from small glands at the base of branches.

***Stenanthium gramineum***

Eastern Featherbells

The plant displays small white flowers in a large cluster from June through September. It is native to the southeastern United States and often found in open, rocky woods, wet meadows, pond edges, and sandy bogs. The fragrant flowers attract bees and the foliage is regularly seen as ornamental. Feather Bells tolerates average soil, but performs best in slightly acidic, well-drained soil, rich in organic material.

***Stylophorum diphyllum***

Celandine Poppy

This 12-14 in. perennial with gray-green, lobed and toothed leaves is known for its large, poppy-like, yellow flowers. The stalks are leafy and the flowers are produced in clusters. A plant with yellow sap and yellow flowers, solitary or in small clusters, atop a stem bearing a pair of deeply lobed leaves; other leaves basal.

***Symphotrichum novae-angliae***

New England Aster

New England American-aster is large and showy, growing to 6 or more ft. in height. The perennial's hairy, clasping leaves are arranged densely on its stout stems. Showy, bright, rose-purple flowers with orange-yellow centers bloom in profusion at the tips of the leafy branches.

***Symphotrichum oolentangiense***

Sky Blue Aster

1-3' H. A beloved late season flower critical to pollinators. The lavender-blue flowers with a yellow center are set on airy stems and combine well with native grasses.

***Trautvetteria caroliniensis***

False Bugbane

Trautvetteria forms a 6"-10" plant with a much taller flower stem. Some seemed to reach up to about 18"-36". It prefers light to medium shade but could probably take some direct sun. It flowers over a long period and seems to peak in late June to mid July.

***Tephrosia virginiana***

Goat's Rue

The flowers of goat's-rue resemble bi-colored sweet peas. Lower petals are pink; upper petals are pale yellow. Pinnately compound leaves have 8-15 pairs of leaflets. Stems and leaves are covered with soft, white hairs giving the 1-2 ft. perennial a silvery appearance. Mature plants form attractive mounds. Bicolored, pea-like flowers, with pink wings and a yellow standard, crowded into clusters atop a hairy stem.

***Trillium cuneatum***

Wood lily, sweet Betsy

Trillium cuneatum, commonly known as wood lily or sweet Betsy, is the largest and most vigorous of the sessile trilliums that are native to the eastern U. S. It is typically found in rich woods from Kentucky to North Carolina south to Georgia, Alabama and Mississippi.

***Trillium erectum***

Red trillium

Red Trillium blooms for up to three weeks before giving way to the berry-like fruits, which are eaten by birds and mammals. Although it is one of the hardiest Trilliums, and native to deciduous forests of the Northeast, it needs to receive ample sunlight early in its growing season. For this reason avoid planting it on the north side of buildings, or areas where the sun doesn't warm the ground. Best planted in groups, this spring ephemeral combines well with other low-growing woodland wildflowers such as Virginia Bluebells and Shootingstar. Once established Red Trillium will form a clump with an increasing number of flowers. The established clumps can be divided in summer. Trillium erectum requires a rich soil with consistent moisture and should be mulched with leaves to help maintain adequate moisture and acidity levels.

***Trillium grandiflorum***

Large-flowered Trillium

Large Flowered Trillium, also called White Trillium, is easy to grow and will return faithfully year after year in optimal conditions, spreading gradually by seed if left undisturbed. The flowers become pink-tinted later in the season, and finally give way to berry-like capsules. The foliage of this ephemeral will die-back to the ground by midsummer. Shade

***Trillium luteum***

Yellow trillium

Native to the Great Smoky Mountains and adjacent regions, this classic spring ephemeral bears yellow blossoms atop a trio of leaves mottled with pale shades of silvery-green. The unusual flowers of this Yellow Trillium have a lemon oil fragrance.

***Trillium recurvatum***

Prairie trillium

Perfect for moist clay soil, Prairie Trillium does best in light shade in a slightly damp setting. One of the earliest blooming trilliums, it features unique wine-red flowers atop beautiful large mottled leaves, and blooms at approximately the same time as Virginia Bluebells. Long-lived, this rare plant increases slowly by underground bulbs and can be divided every few years. All trilliums go dormant in summer so plant them with other woodland perennials to share and fill the space until they reappear the following spring. Trillium recurvatum is listed as endangered in Michigan.

***Uvularia perfoliata***

Perfoliate Bellwort

Perfoliate Bellwort is a native perennial wildflower found in moist to somewhat dry hardwood forests along the eastern coast of North America. This variety is becoming increasingly rare in some of its native territory. It grows best in soil that are rich in humus. In North Carolina, it is common in the Mountains and Piedmont, but rare on the coast. Its common name Perfoliate Bellwort arises from the way the stem appears to pierce through the leaf blade. There are typically 1 to 4 leaves below the fork in the stem. There is one leaf per node along the stem.

***Verbena stricta***

Hoary Vervain

The beautiful lavender spires of Hoary Vervain make a distinctive statement in the late summer landscape. Blooms 4 - 6 weeks, forms attractive vertical clumps with groups of long, narrow flowering spikes. An important source of nectar, Hoary Vervain is a desirable component of butterfly gardens, and the leaves are a host food for the Common Buckeye caterpillar and others. Very drought resistant, and non-aggressive, it is easily grown in any well-drained soil in full sun.

***Veronicastrum virginicum***

Culver's Root

The unbranched stems of Culver's-root grow 2-6 ft. tall and are topped by several spikes of densely-clustered, tiny, white flowers. The total effect is candelabra-like. Narrowly oval, dark-green leaves are arranged in whorls around the stem.

***Viola pedatifida***

Prairie Violet

The Prairie Violet is not aggressive like some Viola species and therefore is a nice plant for small, drier gardens or edges. The deep purple to blue flowers emerge on leafless stalks in early spring and can last well into the summer months. Some plants may re-bloom later in the summer.

***Xanthorhiza simplicissima***

Yellowroot

Easily grown in evenly moist, acidic, humusy, well-draining soils in part shade. Will adapt to a wide variety of soil conditions including wet, dry, or clay. Will also adapt to various sun conditions ranging from part sun to full shade. Tolerant of drought once established. Alkaline soils can cause chlorosis. Can spread indefinitely in ideal conditions. Concrete walkways and metal edging can help contain its spread. Will also spread less readily in full sun and drier soils. Hardy in Zones 3-9.

## ORNAMENTAL GRASSES

***Andropogon gerardii 'Blackhawks'***

Big Bluestem

4-5'H x 1-2'W Selected for its stature and beautiful seasonal foliage display, this big bluestem is sure to make a powerful statement in fall as dark green foliage turns dark purple or near black in fall.

***Andropogon gerardii 'Red October'***

Big Bluestem

6' H. Narrow leaves with an upright habit. Begins deep green turning to red then burgundy as fall approaches.

***Bouteloua curtipendula***

Side Oats Grama

Side-oats grama is a bunchy or sod-forming grass with 2-3 ft. stems in erect, wiry clumps. Purplish, oat-like spikelets uniformly line one side of the stem, bleaching to a tan color in the fall. The basal foliage often turns shades of purple and red in fall. This is a perennial warm season grass; clump forming.

***Bouteloua gracilis 'Blonde Ambition'***

Blue Grama Grass

1-2.5'H x 1-2'W A blue-green ornamental grass that has horizontal eyelash-like chartreuse flowers appear in midsummer and age to blonde seed heads by fall. Drought tolerant.

***Calamagrostis brachytricha***

Korean Feather Reed Grass

3'H x 2'W A late blooming species compared to your typical Calamagrostis variety, late summer plumes, mix well with late season flowers and will persist through winter if not cut back.

***Calamagrostis x acutiflora 'Avalanche'***

Feather Reed Grass

4-5' H. Green leaves with white centers. More prominent in the garden than C. 'Overdam.' Bronzy-purple inflorescence in fall.

***Calamagrostis x acutiflora 'Eldorado'***

Feather Reed Grass

4-5' H. A sport of 'Karl Foerster' its green leaves are striped down the middle with white. Soft, feathery greenish-mauve plumes appear in early to midsummer, maturing into stiff wheat-colored spikes, which last into winter.

***Calamagrostis x acutiflora 'Karl Foerster'***

Feather Reed Grass

5-6' H. Best of non-native grasses. Tall clumps. Foliage shows pink tones in fall. Best grown in light shade.

***Calamagrostis x acutiflora 'Karl Foerster' #2***

Feather Reed Grass

-6' H. Best of non-native grasses. Tall clumps. Foliage shows pink tones in fall. Best grown in light shade.

***Calamagrostis x acutiflora 'Lightning Strike'***

Feather Reed Grass

24-36"H x 24-36"W. Exquisite thin green and white foliage with feathery summer plumes that turn a striking gold color in fall. Creates a stunning vertical effect in the landscape as an accent or in a dramatic mass planting. Vigorous and easy to maintain. Thrives in sunny, dry northern climates.

***Calamagrostis x acutiflora 'Overdam'***

Feather Reed Grass

1-3' H. Choice variegated feather reed from Denmark. Leaves emerge with creamy color, intensifying with season into fall pink tones. Full sun or light shade.

***Carex flacca 'Blue Zinger'***

Blue Sedge

8-16"H x 12-24" W. Spreads to form a mat of bluish-green foliage. The plant can be used as a ground cover or in rock gardens. Best growth occurs in the sun, but the plant will grow in shade.

***Carex muskingumensis***

Palm (Swamp Oval) Sedge

Palm Sedge, Carex muskingumensis, has glossy green leaves that branch out from the main stem, reminiscent of a palm tree. Native to wooded lowlands, Palm Sedge does best in slightly damp soil in sun or shade. Widely used in landscaping, it makes an excellent groundcover and thrives on clay soils. Plant one foot on center for a groundcover or small patch, or use individually as a foliage accent plant.

***Carex oshimensis 'Evergold'***

Sedge

12-24"H. RHS Award of Garden Merit. Bright yellow variegation. Previously misnamed as morrowii 'Aureovariegata.' Zone 5.

***Carex pensylvanica***

Pennsylvania Sedge

8-10" H. Delicate, arching, semi-evergreen foliage. Prefers dry, well-drained soils in full to partial sun. Excellent ground cover under oak trees. MN Native.

***Carex vulpinoidea***

Fox Sedge

Fox Sedge, Carex vulpinoidea, is a remarkably adaptable wetland sedge that forms beautiful fine-leaved mounds, two feet in diameter. A spray of bright bronze seed heads creates an excellent midsummer display. Carex vulpinoidea grows in a wide variety of medium-moist to wet soils, including clay. An excellent choice for rain gardens.

***Deschampsia cespitosa 'Schottland'***

Tufted Hair Grass

2-3'H x 12-24"W A robust clump forming perennial grass has tufted narrow foliage that is usually evergreen. Airy panicles of purplish green florets with hair like awns form in summer and turn buff color in the fall.

***Festuca glauca* ‘Elijah Blue’**

Blue Fescue  
8” A fine textured, powdery blue tufted grass that must have good drainage and full sun.

***Hierochloa odorata***

Sweet Grass  
Sweet Grass is an aromatic, cool-season perennial growing 10-24 inches in height - and spreading about 2 feet per year by underground rhizomes. Because of its aggressive, rhizomatous nature it can be difficult to eliminate if it has spread to areas where it is not wanted. Pick a planting site with this in mind.

***Hakonechloa macra* ‘All Gold’**

Japanese Forest Grass  
14: Brilliant yellow foliage (lacks the green streaks of Aureola) forms cascading clumps and brighten a shady nook.

***Hakonechloa macra* ‘Aureola’**

Japanese Forest Grass  
14” H. 2010 Perennial Plant of the Year: Brilliant yellow foliage is streaked with green lines and forms cascading clumps. Turns pink to red in the fall.

***Helictotrichon sempervirens* ‘Saphirsprudel’**

Sapphire Blue Oat Grass  
2’ H. Mid-sized blue-foliaged grass of fine to medium texture. Well-drained soil and full sun. Best blue color. Strong grower.

***Miscanthus sinensis* ‘Purpurascens’**

Autumn Red Flame Grass  
3-4’H x 3-4’W White plumes appear in late summer and fall over bright orange-red leaf blades. Compact grower. Hardier than other Miscanthus.

***Miscanthus sinensis* ‘Gracillimus’**

Japanese Silver Grass  
5-6’ H. Bronze-red inflorescence turns to silver; decorative in winter. October.

***Miscanthus sinensis* ‘Little Zebra’**

Dwarf Japanese Silver Grass  
2-3’H. Greenish-gold stripes on a compact, mounding habit. In the early fall this grass has a reddish, fan-shaped bloom; good for a small landscape. Zone 5.

***Miscanthus x giganteus***

Giant Miscanthus  
8-10’ H. Huge, bamboo-like, long coarse leaves. Rarely flowers. Slightly spreading clump. Good for screen planting.

***Miscanthus sinensis* ‘Purpurascens’ #2**

Autumn Red Flame Grass  
3-4’H x 3-4’W White plumes appear in late summer and fall over bright orange-red leaf blades. Compact grower. Hardier than other Miscanthus.

***Panicum virgatum* ‘Cheyenne Sky’**

Switchgrass  
2-3’ H. Tight, vase-shaped clump of blue-green foliage which turns wine-red in early summer. Wine-red flower panicles appear in late summer. Well-behaved.

***Panicum virgatum* ‘Gunsmoke’**

Switchgrass  
4’H x 3”W. All parts of this grass are very sturdy, and will remain standing thru winter unless snows are heavy. This provides important cover for birds during the coldest days of winter. This grass is very versatile from a design standpoint; it is effective as a specimen, in masses, for screening, alongside ponds or streams, or even in large containers.

***Panicum virgatum* ‘Shenandoah’**

Switchgrass  
3’ H. Develops reddish-purple foliage color by midsummer. Reddish flower heads.

***Schizachyrium scoparium* ‘MinnBlueA’**

Blue Heaven™ Little Bluestem  
48” H x 25-30” W. Little bluestem cultivar that is noted for its blue-gray foliage, burgundy-red fall color and narrow upright plant form. U of MN Introduction.

***Sorghastrum nutans***

Yellow Prairie Grass  
32-48” H. An excellent choice for many low-maintenance gardens. Its beauty lies in the many reddish-brown flowers which are highlighted by brilliant yellow anthers.

***Spodiopogon sibiricus***

Frost Grass  
4’ H. Dark green foliage with the inflorescences held about 1’ above the leaves. The fine textured flowers appearing in the summer contrast well with the bold foliage. Full sun. Foliage reddish-purple in fall.

***Sporobolus heterolepis* ‘Tara’**

Prairie Dropseed  
2’ H. A more tidy/compact dropseed. Seed heads are fragrant, drought tolerant. 12” emerald-green foliage, red fall color. Sunny, dry locations. Late summer. MN Native.

***Sporobolus wrightii***

Giant Sacaton  
3-4’ H x 2’W. Feathery branched seed heads, graceful arching foliage, Drought resistant.

## HERBS

**A-Annual AR-Aroma therapy P-Perennial  
K-Kitchen TP-Tender Perennial DR-Suitable  
for Drying B-Biennial O-Ornamental**

***Allium schoenoprasum***

Chives, Onion  
10” H. Mild onion flavor. P, DR, K.

***Aloysia citriodora***

Lemon Verbena  
24” H. The dried leaves retain their fragrance well and are used in potpourri. A, AR, DR, K.

***Anethum graveolens* ‘Fernleaf’**

Dill  
18” H. Big flowerheads mean more delicious seeds! Good container plant. A, DR, K.

***Artemisia dracunculus* var. *sativa***

French Taragon  
3’ H. Noted for the pungent anise-like flavor and aroma of its leaves. TP, DR, K.

***Calamintha nepeta* ‘Montrose White’**

Catmint  
12-18” H x 10-12” W. Zone: 4. A very long-blooming perennial flower, loaded with small white flowers from summer through fall. It has unparalleled appeal to beneficial pollinators. You will have a hard time finding another plant that attracts as many pollinators as Montrose White, it will be loaded with bees from summer through fall. Montrose White also has fragrant, mint scented foliage. Has been awarded the prestigious title of Perennial Plant of the Year by the Perennial Plant Association for 2021.

***Coriandrum sativum* ‘Cruiser’**

Cilantro  
This impressive variety is a very vigorous grower and extra slow to bolt for a continuous supply of glossy, dark green, tasty greens.

***Cymbopogon citratus***

Lemon Grass  
24” H. (Taller in warmer climates) A clumping grass that is prized for its lemon-flavored foliage used in teas, sauces and soups.

***Foeniculum vulgare* ‘Orazio’**

Fennel  
30” H. Use fresh fennel leaves in salads or with eggs, fish and sauces. The bulbous stem can be steamed, grilled or served raw; it’s like celery with a delicate anise aroma. A, K.

***Laurus nobilis***

Bay Laurel  
A slow-growing, evergreen shrub or small tree, prized for its aromatic, leathery leaves. They are useful in cooking and indispensable in French and other Mediterranean cookery. (Must be kept indoor during cool and cold months.)

***Lavandula angustifolia* ‘Munstead’**

English Lavender  
18” H. Commonly called English lavender, it has been a mainstay of herb gardens for many years. TP, AR, DR, K, O. Zone 5.

***Lavandula x intermedia* (Dutch Group)**

Dutch Lavender  
12-14”H. Dutch Lavender is used for its oil and strong lavender scent that is very relaxing and soothing. Dutch Lavender is more silver in color than Provence and Grosso. Use the fresh cut or dried stems to make hand bouquets that can be placed on the table or left in a windowsill to add color and fresh scent to your home.

***Lavandula x intermedia* ‘Grosso’**

Lavender  
12-24”H. One of the strongest fragrances among lavenders, a vigorous grower producing exceptionally large and rich deep violet flower spikes. A favorite for wands, or sachets as the flowers retain their fragrance and color when dried.

***Lavandula x intermedia* ‘Niko’ Phenomenal**

Lavender  
18-24”H. Zones: 4-9. This extremely fragrant Lavender is dense, compact and very floriferous. Spikes blanket the mound on strong evenly-branching stems perfect for bouquets or drying. Tolerates heat and humidity well. Named a Must-Grow Perennial in 2013 by Better Homes and Gardens. Lavandula Phenomenal™ has a high oil content which results in a strong fragrance.

***Lavandula angustifolia* ‘Potpourri White’**

Lavender ‘Potpourri White’  
12”H x 10-12”W. Good border, container and cut flower plant. Flowers can be used in cooking and potpourri. Attracts bees, butterflies and hummingbirds. Bloom time: summer. Bloom color: white.

***Melissa officinalis***

Lemon Balm  
Melissa officinalis, commonly called lemon balm, is a bushy herbaceous perennial of the mint family that is typically grown in herb gardens and border fronts for its lemon-scented leaves.

***Mentha spicata***

English Mint  
“English mint is very similar to spearmint in its aroma and usage. It makes a great garden mint, being less invasive than other types of mint. It is hardy to zone 4.

***Mentha spicata* ‘Kentucky Colonel’**

Spearmint Mint  
A Spearmint variety used for making Mint Julep. Nice flavor also good in tea, jellies, and for other culinary purposes. Large rounded and pebbled leaves, vigorous growth habit. Easy to grow.

***Mentha spicata***

Spearmint Mint  
30” H. Spearmint has strong flavor and fragrance that is released with simple bruising. It’s the best mint variety for hot and cold drinks. P, AR, K.

***Mentha × piperita***  
Peppermint Mint  
30” H. Green leaves with strong menthol flavor. Use leaves fresh, dried, or frozen in water P, AR, K.

***Mentha x villosa***  
Mojito Mint  
Not as sweet as some mints -it has an unusual savory aroma that makes it ideal for seasoning meats, soups, and spring rolls. Grows to about 2’ high and spreads as far as you allow it to, forming a dense, weed-suppressing ground cover with large, shiny, quilted leaves. Produces white flower spikes in Summer that are much-loved by bees and butterflies. Zone 5

***Nepeta cataria***  
Catnip  
Catnip is a perennial herb belonging to the mint family, lamiaceae. Known for its effects on cats, as it contains a compound called nepetalactone that can induce a euphoric response in many felines.

***Ocimum americanum***  
Lemon Basil  
18” H. Spreading silver-green plant with lemony aroma and flavor is great for potpourris, tea, chicken, fish, vegetables and herb vinegars. A, DR, K.

***Ocimum basilicum ‘Large Leaf Italian’***  
Sweet Basil  
30” H. Medium-dark green leaves up to 4” long. Compared to Genovese, the scent and taste are sweeter. A, DR, K.

***Ocimum basilicum ‘Genovese’***  
Sweet Basil  
24” H. This herb is known around the world for its wonderful fragrance and flavor. The key ingredient in classic Italian pesto. A, DR, K.

***Ocimum basilicum ‘Purple Ruffles’***  
Purple Basil  
24” H. Clove-like, slightly spicy flavor. Use in salads or preserved in oils and vinegars. A pot of purple basil provides surprisingly, striking color in the garden. A, DR, K.

***Origanum majorana***  
Sweet Marjoram  
12” H. Very fragrant with white flower. A, AR, DR, K.

***Origanum vulgare subsp. hirtum***  
Greek Oregano  
6-9” H. Distinct pungent aroma and flavor. Great for pizza, tomato sauce, herb blends. A, DR, K.

***Pelargonium***  
Assorted Scented Geraniums  
Scented geraniums became popular in the early 1900’s and although they didn’t have big showy flowers like their cousins, their surprisingly fragrant foliage make them the shining stars in bouquets, sachets and potpourri bowls.

***Petroselinum crispum ‘Giant of Italy’***  
Parsley  
Flat leaf. 18” H. Huge, dark green leaves with great flavor. Strong, upright stems B, DR, K.

***Petroselinum crispum ‘Triple Curled’***  
Parsley  
12” H. No herb garden is complete without curly parsley. Parsley adds flavor to so many dishes salads and sauces. It’s also an attractive plant in the garden B, DR, K.

***Salvia rosmarinus***  
Upright Rosemary  
30” H. Strong upright growth. Dark green leaf. Heavy aroma, flavorful. A, AR, DR, K, O.

***Salvia rosmarinus (Prostrata Group)***  
Creeping Rosemary  
6-12” H. Perfect for gardens or containers. Rich foliage and beautiful blue flowers. A, AR, DR, K, O.

***Salvia elegans***  
Pineapple Sage  
3’ H. Pineapple sage is noted for the pineapple aroma and flavor of its foliage when crushed. A, DR, K.

***Salvia officinalis ‘Aurea’***  
Golden Sage  
This golden-yellow variegated form of Sage keeps its shape and color beautifully in fall and winter. Superior growth and branching habits.

***Salvia officinalis***  
Common Sage  
2’ H. Leaves used in poultry, pork, tea. P, DR, K.

***Salvia officinalis ‘Purpurascens’***  
Purple Sage  
18” H. Adds color and texture to the garden. Use the same as common sage. A, K, DR, O.

***Salvia officinalis ‘Tricolor’***  
Sage  
15” H. Tricolor sage is a cultivar of common sage familiar to cooks. Grown primarily for its ornamental qualities (tricolor foliage), it also has culinary properties. A, K, DR, O.

***Stevia rebaudiana***  
Candyleaf  
Herbal sugar substitute containing steviosides that are hundreds of times sweeter than sugar without the calories. Leaf powder can be used in place of sugar in drinks, baked goods, desserts, preserves, etc.

***Thymus vulgaris***  
English Thyme  
12” H. This savory herb is a versatile seasoning for soups, chicken, seafood, vegetables, and sauces. P, DR, K, O.

***Thymus x citriodorus ‘Aureus’***  
Golden Lemon Thyme  
12” H. Produces rich, dark green leaves that have an intoxicating lemon fragrance. Looks as good in the herb garden as it does in the ornamental border. A good container plant. P, DR, K, O.

***Tropaeolum minus ‘Baby Rose’***  
Nasturtium  
12”H. ‘Baby Rose’ is a petite-flowered, mounding variety with healthy, dark foliage ideal for containers and small space gardens. Their blooms remain upright throughout the season. The rose color is uncommon in nasturtiums and contrasts beautifully with the dark-green foliage.

***Tropaeolum majus ‘Empress of India’***  
Nasturtium  
12” H. Small, dark blue-green leaves and smoldering scarlet flowers make a striking contrast on this Victorian-era heirloom. The neat mounded habit studded with flowers are lovely in baskets or edging the garden path. Gather some flowers and leaves for the kitchen to add a peppery bite to salads and more.

***Tropaeolum majus ‘Jewel Cherry Rose’***  
Nasturtium  
12” H. Spectacular, zingy-bright new nasturtium with edible flowers, leaves, buds and seed pods. It’s a compact, non-climbing variety. A, K, O.

***Tropaeolum majus ‘Jewel Salmon’***  
Nasturtium  
9-12”H. Frilly blossoms of salmon pink color contrast against the deep green foliage.

***Tropaeolum minus Alaska Mix***  
Nasturtium  
12” H. Gold, orange, salmon and cherry flowers arise from compact plants with attractive variegated foliage. Flowers and tender young leaves add color and a peppery zip to salads. A, K, O.

***Tropaeolum minus ‘Bloody Mary’***  
Nasturtium  
Novel mix of colors. Dramatic 2” flowers in shades of dark red, coral red, cream, and unique bicolors. This mix is generally compact, but contains both mounding and trailing types. Foliage ranges from dark blue-green to medium-green. 2019 Fleuroselect Novelty winner. Ht. 16–20”.

## Vegetables & Fruits

***Artichoke ‘Imperial Star’***  
85 Days. A green artichoke specifically bred for annual production, Imperial Star will produce well-developed artichokes the first year from seed. Plants become 1 1/2–3’ tall and have an open growth habit. Each typically produces 1–2 primary buds, which average 3–4” in diameter, and 5–7 smaller secondary buds.

***Purple Bush Bean ‘Amethyst’***  
The slender pods, each measuring about 6” long, turn to an attractive shade of green once cooked. With its pretty mauve flowers and colourful purple beans, Dwarf Bean ‘Amethyst’ makes an attractive addition to the vegetable plot. Ht: 24”.

***French Bean ‘Fin de Bagnol’***  
The slender pods, each measuring about 6” long, turn to an attractive shade of green once cooked. With its pretty mauve flowers and colourful purple beans, Dwarf Bean ‘Amethyst’ makes an attractive addition to the vegetable plot. Ht: 24”.

***Pole Bean ‘Kentucky Wonder’***  
Heirloom, 65 Days. Very reliable, early maturing, and productive pole bean. An old favorite enjoyed fresh, canned, frozen or dried. Its buffy-brown seeds can also be used dry as an excellent baking bean.

***Common Bean ‘Painted Pony’***  
Heirloom, 60-80 Days. This Mexican heirloom is a choice dual-purpose bean. Harvest at about 60 days for plentiful long, thin, stringless snap beans-or let the pods dry on the bush type plants, and harvest after 80 days for a bountiful crop of dry beans filled with rich nutty flavor.

***Brussels Sprouts ‘Long Island Improved’***  
90 Days. The semi-dwarf plants are stocky with leaves closely spaced, so there are lots of tasty sprouts on the short, self-supporting stems. Introduced at the end of the 19th century, this was once one of the most important commercial varieties.

***Cabbage ‘Stonehead’***  
67 Days. Stonehead takes its name from its very tightly-packed, small round heads.These cabbages reach 4 to 6 pounds on average, with a short core and plenty of thick wrapper leaves to protect the small head within. Green throughout, they keep both their flavor and texture even if you can’t harvest them right away.

***Cabbage ‘Ruby Perfection’***  
85 Days. Mid-late red cabbage. The heads are medium-sized and dense with a uniform high-round shape and good wrapper leaves.

***Cabbage ‘Golden Acre’***

Heirloom, 64 Days. Early summer variety ball head cabbage. With small to medium-sized green, round solid heads on compact plants with few outer leaves.

***Cauliflower ‘Freedom’***

65 Days. This hybrid replaces the old favorite ‘Fremont’ with gourmet flavor, a tighter harvest window and ultra-dependable yields. It can be grown as baby cauliflower or allowed to mature.

***Leaf Celery***

Bred for the leaves rather than stalks, it is a dark green, with thin, rounded, flexible stalks and aromatic leaves and tastes exactly like regular stalk celery, but with a slightly stronger, herbier taste. Leaf Celery is the easiest variety of celery to grow.

***Collard ‘Champion’***

75 days, Vates type collard. Holds quality 2 weeks longer, has improved bolting tolerance, and is more cold tolerant.

***Cucumber ‘Crispy Crunchy’***

44 days. Popular in Europe where gardeners love the true “Cornichon” type pickle. The petite 3 to 5 inch fruit have very small white spines and are very crispy and flavorful. Short season areas will appreciate Crispy Crunchy’s ability to set fruit without pollination (parthenocarp). Yields are impressive, and the vigorous vines keep growing.

***Cucumber ‘Diva’***

58 Days. Seedles, thin-skinned cukes are distinctly crisp, sweet, and bitter-free. High resistance to scab; and intermediate resistance to cucumber vein yellowing virus, and powdery mildew. AAS winner.

***Cucumber ‘Eureka’***

57 Days. A very disease-resistant and is also uniquely versatile cucumber. Unlike most varieties, which are grown specifically for use in pickling or in fresh eating, this cuke can do both.

***Cucumber ‘Spacemaster 80’***

60 Days. If you’ve had trouble growing cukes in your climate, or if you don’t have the space to invest in a sprawling vine, Spacemaster 80 is the solution. This productive plant is only 36 inches long, yet bears a big harvest of slender, smooth 7- to 8-inch cukes. The fruit is crisp and tasty, with a satisfying bite just right in a slicer.

***Cucumber ‘Straight Eight’***

58 Days. All-America winner for 1935! Smooth, straight, deep green 8-inch fruits with rounded blunt ends. Tolerates mosaic virus.

***Cucumber ‘Tasty Green’***

60 Days. These cukes carry the non-bitter gene. Grow straight and 12” long, but quality is best if picked at 8 to 10”. The smooth, dark green fruit are thin-skinned and tasty with no bitterness.

***Eggplant ‘Casper’***

The friendly ghost of eggplants, unusual white skin, delightfully sweet smokey flavour when grilled or roasted. Compact, just 15-18” high, and high yielding - perfect for small gardens. Yields roughly 9 fruit per plant. Harvest in 9 weeks from transplant.

***Eggplant ‘Florida High Bush’***

Heirloom, 75-85 Days. Bred in Florida in the early 1900’s. Vigorous, upright, well-branched plants bear continuously throughout the season. Large purple-black pear-shaped fruits with white flesh are held high off the ground. Disease and drought resistant.

***Eggplant ‘Gretel’***

55 Days. The Gretel eggplant has a narrow oblong shape with thin skin that is glossy white. It has a large harvest window and can be eaten from the baby to fully mature stage, ranging anywhere from 3-9”. Young Gretel eggplants have very few seeds and even the fully grown versions remain sweet and tender. Its delicate skin may be left on as it imparts no bitterness, but rather a pleasant chewy texture. When sauteed, grilled or roasted the interior white flesh becomes creamy, sweet and nutty.

***Eggplant ‘Ichiban’***

50-60 Days. Produces massive crops of slim, 10-inch long, purplish-black fruit. Like all eggplant, this hybrid loves warm weather but also does well in cooler climates and continues producing well into fall. Well suited for containers. Sweet and succulent.

***Eggplant ‘Little Fingers’***

60 Days. The Little Finger eggplants are slender, petite eggplants that are excellent for grilling and cooking. This eggplant has a dark purple skin is thin and tender with a silky flesh. This variety produces few seeds and a mildly sweet flavor. Harvest when the eggplant is young and glossy.

***Eggplant ‘Nadia’***

67 Days. Nadia Eggplant is a hybrid variety with the traditional European, oval shape. Plants produce uniformly-shaped fruits that are 7-8” long and 3-4” wide. At optimum harvest size, plants will weigh about 1 lb each. Fruits are glossy and have a dark purple to black color.

***Eggplant ‘Prosperosa’***

73 Days. Round, deep-violet heirloom from Tuscany. Mild-tasting white flesh. Very productive.

***Eggplant ‘Round Mauve’***

65 Days. Beautiful spherical, rosy-lavender with a thin skin and pure white flesh. Great for cooking, mild, meaty and no bitterness.

***Eggplant ‘Satin Moon’***

50 Days. Purple black, slightly fluted oval eggplant that is 6 to 8 inches long. Its firm, high-quality flesh is mild and flavorful, and its shape lends itself to large, meaty slices for Italian eggplant dishes.

***Ground Cherry/Husk Tomato***

75-90 Days. Ground cherry is prized for jams, pies, and fruit salads, its sweet citrusy flavor is described as “reminiscent of pineapple and brown sugar.” Papery husks enclose the fruits and allow storage for three weeks or more. A prolific, trailing grower that can be grown on a trellis in a container, for easy-to-pick cascades of fruit.

***Horseradish***

The grated root is used to make the condiment ‘Horseradish’. The plant is fully hardy and can be left in the ground all winter to be harvested as required[4]. Alternatively, the roots can be harvested in early winter and stored for later use, they will retain their juicy state for some time if stored in dry sand. Perennial.

***Kale ‘Toscano’***

Heirloom, 30-65 Days. Lacinato or “dinosaur” type. Unique leaf type: extra-dark green, non-curled but heavily blistered (savoyed). Rich, tender leaves have a softer texture than curly green kales.

***Kohlrabi ‘Early White Vienna’***

55 Days. ‘Early White Viennas’ round, luminous light-green, planetary bulbs are packed with creamy white, tender flesh with a sweet turnip flavor. 19th century heirloom’s crisp, juicy flesh and younger leaves are delectable raw or steamed. Harvest bulbs as soon as they’re apple-sized— just over 2” in diameter.

***Kohlrabi ‘Kossak’***

65 Days. This amazing variety can grow up to 10 in. in diameter and weigh up to 10 lbs! Even at this incredible size the flavor remains tender, sweet and delicious with no woody taste! Kossak Hybrid Kohlrabi has a nice, mild cabbage flavor and is excellent eaten raw on vegetable platters, sliced into a salad or grated into a slaw.

***Leek ‘American Flag’***

105 Days. This onion relative has compact stems that thicken but do not form bulbs like onions. The appealing white stems have a creamy yellow heart. Leeks are cold tolerant and can be left in the garden into fall for an extended harvest.

***Lettuce Simply Salad™ City Garden Mix***

Assorted lettuce.

***Lettuce Salanova® Red Butter***

Assorted lettuce.

***Melon ‘D’Artagnan’***

71 Days. Rich, dark orange flesh. This Charentais melon has the traditional aromatic and very sweet flavored flesh.

***Melon ‘Diplomat’***

71 Days. Fruit is produced on healthy, vigorous vines. Thick, aromatic, sweet green flesh of exceptional eating quality. Small seed cavity. Harvest at full slip, when the skin of the fruit is yellow.

***Melon ‘Honeydew’***

90 Days. The fruit is about 6 to 8 inches in diameter and round to oblong. The cream-colored rind is very smooth, opening to reveal light green flesh and a small seed cavity. The flesh is juicy and mouth watering sweet.

***Melon ‘Lambkin’***

75 Days. AAS Winner. Medium-small, oval fruits avg. 3 lb. with yellow skin with green mottling. Very sweet aromatic white flesh. Widely grown in Spain. Lambkin is earlier and more widely adapted than typical Piel de Sapos, with excellent uniformity and good yield. For best flavor, harvest when the fruit turns from green to yellowish green and slips from the vine.

***Melon ‘Melonade’***

70 Days. Very attractive, medium-large, netted fruits with pronounced sutures that are ready to cut from the vine when they are pale green to yellow. Tart flavor — the perfect balance of sweet and sour — sets it apart from other melons on the market. Excellent as a dessert or as an appetizer.

***Melon ‘Milan’***

72 Days. Early Tuscan type with superior flavor. Aromatic, sweet, juicy Italian melon with pronounced green sutures and a small seed cavity. Fruits are oval and avg. 4–6 lb.

***Melon ‘Sarah’s Choice’***

76 Days. Sarah’s Choice is a favorite for it’s delicious and sweet flavor.

***Melon ‘Sugar Cube’***

80 Days. Sugar Cube lives up to its name with intensely sweet flavor. Very uniform fruits and strong disease resistance.

***Onion ‘Candy’***

80-90 Days. Extra sweet and mild. Flat globes 3-4” with tight, light yellow skin. Day neutral variety.

***Onion (Red) ‘Sv4643nt’***

110 Days. Long-day red onion. Large round bulb, medium to dark red; good internal color. Expect medium-term storage.

**Onion ‘Walla Walla Sweet’**

110 Days. Long-day red onion. Large round bulb, medium to dark red; good internal color. Expect medium-term storage.

**Onion ‘White Sweet Spanish’**

115 Days. Onion White Sweet Spanish. A large, easy to grow and reliable Spanish type onion with glistening white skin and mild sweet flavour. An excellent storage onion. Onions from seed are generally better quality than set-grown onions.

**Onion ‘Yellow Sweet Spanish’**

Spanish 110 Days. A garden favorite. Yellow, sweet and mild.

**Snap Pea ‘Sugar Snap’**

58 Days. Superior strain from Johnny’s! From an ongoing collaboration with the family of Dr. Calvin Lamborn, the original breeder of Sugar Snap. A household name for its sweet, crisp pods. Vigorous plants quickly produce a thick stand that requires support. Vines avg. 72” with 1 or 2 pods per node. Yields well over a long season in both hot and cold weather. Remove string from pods before cooking. Needs trellising. AAS winner.

**Pepper ‘Anaheim’**

80 Days. Pungent, long, tapered, medium-thick peppers. Green fruits turn deep red when ripe. Use these pungent peppers fresh or dried.

**Pepper ‘Beaver Dam’**

80 Days. Hungarian heirloom brought to Beaver Dam, WI in 1912 by the Joe Hussli family. Florence Hussli recommends adding crisp sliced rings to a cheese and bologna sandwich, or using for stuffed peppers. Fruits are mildly hot when seeded.

**Pepper ‘Bhut Jolokia’**

90 Days. One of the hottest peppers in the world, bearing extremely hot, red fruit. 1,002,305 SHU. Handle fruits with great care.

**Pepper ‘Buran’**

Heirloom, 90 Days. A Polish heirloom that can’t be beat for sweetness. The 2-foot plants will consistently produce 4x3 inch extra sweet fruits. Wonderful when picked green or left to mature to a shiny red color.

**Pepper ‘California Wonder’**

75 Days. These peppers are thick-walled and blocky, about 4 inches tall and wide, with a crisp, mild flavor and terrific sweetness. They mature from green to red on the plant.

**Pepper ‘Carmen’**

60-80 Days. A high-performing rendition of the classic Corno di Toro (or “Bull’s Horn”) pepper popular in Italy. Early, adaptable, and notably sweet (especially when fully red-ripe) with a shapely tapered silhouette. Begins green, then deepens to a beautiful carmine at maturity. Excellent roasted, grilled, and in salads.

**Pepper ‘Cayenne Long Red Slim’**

Use them fresh or they can easily be dried for winter use. Harvest starts about 75 days after plants are set out.

**Pepper ‘Carolina Reaper’**

90 Days. The Carolina Reaper is officially the World’s Hottest Pepper as ranked by Guinness Records. There is nothing normal about this pepper. It was bred for heat with an average SHU of over 1.5 million and peaks at 2.2 Million SHU! Just looking at it, you know it’s one mean pepper. The Carolina Reaper has a unique stinger tail that is unlike any other pepper. It gets this insane heat from being a cross between a Pakistani Naga and a Red Habanero. Oddly enough this pepper doesn’t just have heat, but excellent flavor as well. Use extreme care when handling.

**Pepper ‘Chervena Chushka’**

Bulgarian pepper traditionally used for roasting; also delicious eaten fresh. Flesh is sugary sweet. Robust plants produce large tapered fruits measuring 2” wide by 6” long. Fruits ripen from green to brown to vivid red. 85 days from transplant. Sweet.

**Pepper ‘Early Sunsation’**

Early Sunsation Pepper is an early-maturing, hybrid bell pepper variety that produces extra-large, bright yellow fruits with a crunchy texture and sweet flavor. Capsicum annum. 70 days to maturity.

**Pepper ‘Flaming Jade’**

75 Days. When you need Serrano peppers to help bring the heat to your recipes, look no further than Pepper Flaming Jade F1, our 2016 AAS Regional Winner for the Heartland and Great Lakes areas. Flaming Jade was praised for its disease resistant, upright habit and uniform plants making it perfect for gardening in larger containers. Plants are laden with a heavy set of large, long, firm fruit throughout the entire growing season, especially in the cooler climates.

**Pepper ‘Emerald Fire’**

2015 AAS Winner! 90 Days. Emerald Fire produces gorgeous, glossy green peppers with thick walls that have very little cracking, even after maturing to red. Gardeners will appreciate the prolific fruit set on compact plants that resist disease better than other similar varieties on the market.

**Pepper ‘Fatalii’**

80 Days. Fiery hot, wrinkled yellow peppers are related to habanero, and are at least as hot if not hotter. The searing heat has an excellent, citrus-like flavor that can be appreciated in the seconds before the heat sets in. 125,000-400,000 SHU.

**Pepper ‘Garden Salsa’**

73 Days. Developed just for salsa, this medium-hot chili pepper turns out to be heavy bearing and delicious. 3,000 Scoville’s.

**Pepper ‘Giant Marconi’**

Heirloom, 62 Days. One of the biggest Italian- type sweet peppers, with a long profile and a slightly lobed end. Peppers ripen from green to red and are sweetest when red.

**Pepper ‘Georgia Flame’**

A piquant pepper from the Republic of Georgia, up to eight inches long, with thick, crunchy flesh. Two-foot high plants produce copious amounts of fruit throughout the season. An excellent salsa pepper. 90 days from transplant.

**Pepper ‘Habanero’**

95 Days. One of the most potent hot peppers €”100 times hotter than Jalapeño! Great for hot sauces and basting. Wrinkled, tapered little fruit turn from green to orange. 100,000 to 300,000 Scoville units.

**Pepper ‘Hot Portugal’**

65-75 Days. Very hot, very thin, very red, and very glossy. 5,000 Scoville units.

**Pepper ‘Jalapeno M’**

75-80 Days. An improved thick-walled jalapeno pepper with the same fiery hot pungency, this uniform strain does quite well in northern plantings. The 3-1/2” x 1” tapered, sausage-shaped fruit are smooth and deep green turning red. Heavy yields are produced on upright plants.

**Pepper ‘Lady Bell’**

72 Days. Produces good yields of sweet bell peppers. Peppers are very sweet, have thick walls, and turn from green to bright red when mature.

**Pepper ‘Lemon Drop’**

100 Days. A tropical, bright lemon-yellow Pepper that grows to only 2” with thin walls and a tapered point. A rare Peruvian heirloom, this adorable little dynamo packs a powerfully big punch at 30,000 to 50,000 Scoville heat units.

**Pepper ‘Lunchbox Orange’**

60-80 Days. These beautiful, mini-sized peppers are delicious sautéed, as an addition to salads and, perfect for a healthy snack. Smooth, bright orange fruits average 2 1/2-3” long by 1 1/2” wide.

**Pepper ‘Mama Mia Giallo’**

70 Days. Mama Mia Giallo Pepper is a hybrid, yellow, Italian roasting pepper. Heavy yields of 7-9 fruits on compact plants. Fruit is sweet and juicy, this variety ripens sooner than many Capsicums so you can enjoy these peppers earlier in the season!

**Pepper ‘Mariachi’**

66 Days. An improved Santa Fe Grande type that offers earliness, superior size, milder flavor, and higher yields. Fleshly peppers are 4x2”. Great for salsa, frying, stuffing, grilling. 500-600 SHU.

**Pepper ‘Mini Bell Red’**

Heirloom, 60 Days. Tiny, red, bell peppers are only about 1-1/2 inches tall and wide. They have thick, red flesh that is very sweet.

**Pepper ‘Mini Bell Yellow’**

Heirloom, 90 Days. 2-inch long, miniature yellow bells. Compact, stocky plants are covered in sweet, slightly tapered, well-flavored fruits. Heirloom type from Ohio.

**Pepper ‘Mosquetero’**

90 Days. Dark green heart-shaped peppers with red flesh which are usually ready for picking from mid summer to early fall. The fruit will often fade to crimson over time. The peppers have a spicy taste and a crunchy texture.

**Pepper ‘Mucho Nacho’**

Heirloom, 75 Days. Fatter and longer than the standard jalapeño and hotter, too! Vigorous plants yield lots of hot peppers that ripen to red when fully mature. 4,000 - 8,000 Scoville units.

**Pepper ‘Orange Bell’**

Heirloom, 90 Days. Super sweet, brilliant orange fruit are blocky with good-sized thick flesh that is flavorful and among the best tasting of all.

**Pepper ‘Pepperoncini’**

Heirloom, 75 Days. The popular little, thin, pickling pepper. 3-5-inch fruit have a superb flavor and just a little heat.

**Pepper ‘Purple Beauty’**

75 Days. Produces loads of beautiful bells on compact, bushy plants. Crisp texture and mild, sweet flavor.

**Pepper ‘Red Knight’**

78 Days. Produces good yields of 4” by 4” sweet bell peppers. This variety has very thick walls and turns red quickly.

**Pepper ‘Red Peter’**

80-85 Days. Flavorful, hot, and fruity, good roasting peppers. 10,000-25,000 SHU.

**Pepper ‘Pathfinder’**

60-65 Days. Strong plants load up with dozens of cylindrical, large, 3 to 3.5 long fruit that quickly turn a blazing scarlet as they ripen. Originating on the mountain ridges north of Hidalgo and Puebla in Mexico, this plant’s bountiful yield of chili’s is perfect for fresh use and really adds a touch of hot legitimacy to Mexican dishes.

**Pepper ‘Shishito’**

60 days. Thin-walled glossy green peppers are popular as tasty appetizers that are most often pan-fried in a little olive oil and sprinkled with salt.

**Pepper ‘Super Chili’**

75 Days. Highly ornamental, semi-compact, 24” plant bearing 2-1/2” elongated fruits with plenty of hot chili flavor. Bred for increased yields, ripens from green to orange to red. 40,000 - 50,000 Scoville units.

**Pepper ‘Sweet Banana’**

75 Days. Sweet, mild banana peppers that mature from yellow, to orange, and then to crimson red.

**Pepper ‘Tepin’**

85 Days. Round, shiny peppers may be tiny, but they pack a lot of heat. Fruits gradually mature from green to red, getting hotter as they turn. Peppers are both edible and orna mental, and look beautiful in containers, gardens, and landscape plantings. 50,000-100,000 SHU.

**Pepper ‘Thai Hot’**

This plant produces large numbers of 1-inch green fruits that mature to blazing red color with heat and flavor to match! 50,000-100,000 Scoville units.

**Pepper ‘Clancy’**

90-105 days. The very first potato seed to win the AAS award. Until now, potatoes have only been available as tubers. The plant will flower and grow most of the summer, then when the plant dies back, you will then find beneath the soil, a beautiful mix of spuds ranging from red to rose in color. Tubers range 3-4 ounces.

**Pumpkin ‘Howden Biggie’**

115 Days. These pumpkins average 40 lbs. and have rich dark orange color. Thick flesh helps maintain their uniform, upright shape.

**Pumpkin ‘Pik-a-Pie’**

85 Days. Semi-bush plant produces good yields of 6 lb. bright orange pumpkin with a large dark green handle. A superior quality variety for making pies!

**Rhubarb ‘Canada Red’**

The bright red stalks of the Canada Red rhubarb variety work especially well in desserts because they have a high sugar content. With these rhubarb stalks, you can make your favorite recipe with less sugar. Perennial.

**Shallot ‘Ambition’**

105 Days. Traditional shallot for long storage. Large, half-long style French shallots with reddish-copper skin and white flesh. Very firm, and suitable for long storage through spring.

**Squash ‘Bossa Nova’**

[Summer] 40 Days. An AAS winner! This new summer squash has an eye-catching appearance, the flesh is sweet and mild in taste. High disease resistance.

**Squash ‘Burgess Buttercup’**

[Winter] 95 Days. The standard buttercup squash. The medium-small, 3-5 lb., fruits have deep-orange, fibreless flesh with a rich, sweet flavor. Avg. yield: 3-4 fruits/plant.

**Squash ‘Butternut’**

[Winter] 85 Days. The fine-textured tan fruits with a sweet, nutty flavor arise on compact vines.

**Squash ‘Dunja’**

[Summer] 47 Days. Shiny, finely speckled, dark green fruit are produced in high yields on vigorous plants. The compact plants offer an open habit for easy harvest of high quality fruit.

**Squash ‘Multipik’**

[Summer] 50 Days. Golden yellow fruit on early, very prolific plants. 7.5-8” long. Straightneck type. Keep picked for best production.

**Squash ‘Spaghetti’**

[Winter] 88 Days. The classic pasta alternative. Skin is ivory changing to pale yellow at maturity. Bake like squash or boil and fork out the flesh, topping the “spaghetti” with your favorite sauce. 3-5 lb. oblong fruit.

**Squash ‘Red Kuri’**

[Winter] 92 Days. A lovely, teardrop shaped mini hubbard with bright orange skin. Red Kuri has smooth textured flesh and a delightfully rich, sweet flavor. Perfectly proportioned for making pies and side dishes for winter meals, these squash typically reach 3–4 pounds each.

**Squash ‘Sweet Dumpling’**

[Winter] 90 Days. One of the sweetest; 1lb fruit has white skin with green stripes. The sweet, tender, orange flesh makes this variety the favorite of many.

**Squash ‘Sweet Mama’**

[Winter] 100 Days. It’s a unique kabocha that produces on a very space-saving short vine. In our trials Sweet Mama was also among the earliest to mature. The dark green fruit reach about 8 inches across and 4 inches tall with striking gray ribs and speckles. Inside, the meaty flesh is a dark yellow with a nutty flavor.

**Squash ‘Table Ace’**

[Winter, Acorn] 78 Days. Semi-bush plant produces good yields of real black-green Acorn type squash. The squash has delicious bright orange flesh.

**Zucchini ‘Dark Green’**

[Summer] 45-65 Days. Early, vigorous plants bear lots of straight and smooth, 6-8” long, dark green fruits with firm, greenish-white flesh.

**Sweet Potato ‘Beauregard’**

90 Days. Developed at Louisiana State University in 1987, this variety may be the world’s most popular sweet potato. It is favored for high yields of uniform, reddish-purple potatoes with tasty, deep-orange flesh that keeps well in storage.

**Swiss Chard ‘Bright Lights’**

28-55 Days. Lightly savoyed, green or bronze leaves with stems of gold, pink, orange, purple, red, and white with bright and pastel variations. Consistent growth rate and strong bolt resistance across all colors makes this a superior mix.

**Strawberries**

Assortment of strawberry varieties will be available

**Tomatillo ‘Toma Verde’**

60-70 Days. Toma Verde is a favorite Tomatillo variety because of its earlier maturation and exceptional sweetness.

**Tomato ‘Abraham Lincoln’**

77 Days. This old-time variety really loads up with an abundance of 6-10 ounce red tomatoes that are packed with great tomato flavor.

**Tomato ‘Amish Paste’**

Heirloom, 85 Days. A long-time favorite heirloom plum. Large for a sauce tomato. Excellent flavor. These meaty tomatoes are good in salads and great for processing. Indeterminate.

**Tomato ‘Azoychka’**

70 Days. A delightful small yellow beefsteak tomato, ripening early in the garden. Smooth, lemon yellow fruits weigh about 8 oz. Very flavorful and pleasantly sweet.

**Tomato ‘Better Boy’**

70 Days. Expect these bright red, rounded fruits to start quickly and continue strong all-season long. The minimum size is about 10 ounces, and some will get much larger. Indeterminate.

**Tomato ‘Big Beef’**

73 Days. Extra-large, 10 to 12 oz. red fruits are firm, juicy and highly flavored. Yields heavily in all regions. Indeterminate.

**Tomato ‘Big Boy’**

78 Days This is a big (16-32 oz.), sandwich-type slicer with smooth, bright red fruit and a flavor that everybody likes. Indeterminate.

**Tomato ‘Black Cherry’**

65 Days. A perfectly round cherry with classic black tomato flavor, sweet yet rich and complex. Fruit picks clean from the stem and is produced in abundance on vigorous, tall plants. Crack resistant. Indeterminate.

**Tomato ‘Black from Tula’**

Heirloom, 75-85 Days. A unique, large 8-12 oz. dark tomato exhibiting a rich, deep purplish-brown color. Very rich, old-fashioned flavor, sweet and spicy. A rare Russian heirloom. Indeterminate.

**Tomato ‘Black Krim’**

Heirloom, 80 Days. This medium-sized, very dark maroon beefsteak, with wonderfully rich flavor, originated in Crimea. Indeterminate.

**Tomato ‘Black Plum’**

82 Days. Small elongated-oval fruits are deep mahogany in color, sweet and fruity tasting. Wonderful for snacking off the vine or adding to salads. Productive and steady large crops. Indeterminate.

**Tomato ‘Blush’**

70 Days. Beautiful, bright yellow snacking tomato. Red stripes appear as blossom-end red marbling develops. Indeterminate.

**Tomato ‘Box Car Willie’**

Heirloom, 80 Days. Prolific yields of smooth, reddish-orange fruits averaging a large 10 to 16 oz. with an old-fashioned flavor. Indeterminate.

**Tomato ‘Yellow Brandywine’**

Heirloom, 90 Days. Superbly rich and delicious-tasting large fruit, the golden variety gives good yields. Indeterminate.

**Tomato ‘Pink Brandywine’**

Heirloom, 90 Days. (aka Pink Brandywine) Large pink beefsteak fruits to 2 pounds. Incredibly rich, delightfully intense tomato flavor. Indeterminate.

***Tomato ‘Caspian Pink’***

Heirloom, 80 Days. Originally grown in Russia in the area between the Caspian and Black Seas. Incredibly sweet and juicy fruit often reach 1 pound, and occasionally larger. Indeterminate.

***Tomato ‘Celebrity’***

70 Days. All-purpose variety with superb flavor, disease resistance and heavy yield on determinate plants. Crack-resistant fruits average 7 oz.

***Tomato ‘Chef’s Choice Bicolor’***

2020 AAS Winner. 75 Days. Large, eye-catching fruits weigh 10 to 12 oz. each, are globe-shaped and absolutely delicious! Heirloom-type, pale yellow tomatoes are brushed with deep red splashes on the blossom end and throughout the exquisite lemony yellow flesh. Vigorous plants are heavy yielders. Scab resistant. Indeterminate.

***Tomato ‘Chef’s Choice Black’***

75 Days. A beefsteak type with a dark green/brown/black hue. Meaty, juicy, full flavored tomato with a hint of saltiness that enhances the taste. Strong, healthy 5-foot tall plants producing early to set yields of more than 30, blemish-free fruits 5 to 6 inches in size, weighing 8 to 10 oz each. Disease resistant and well-behaved form. Indeterminate.

***Tomato ‘Chef’s Choice Orange’***

2013 AAS Winner. 75 Days. Large, bright orange tomatoes that average 12 ounces but can easily reach 1 lb. This variety matures earlier than most orange tomato varieties and is resistant to cracking. This large slicing tomato has a bright orange interior that is meaty with few seeds. Indeterminate.

***Tomato ‘Chef’s Choice Red’***

2018 AAS Winner. 85 Days. Beautiful red, globe-shaped, scar-free, 8 oz. fruits have firm-flesh with just the right balance of acid to sugar creating a flavor similar to heirlooms. AAS Judges rave about the prolific yields. Strong, scab-resistant plants have rich dark green foliage and a neat, manageable habit. Indeterminate.

***Tomato ‘Cherokee Chocolate’***

75 days. 10-16 oz mahogany-colored, beautiful, very flavorful fruits. Productive and vigorous plants.

***Tomato ‘Cherokee Purple’***

Heirloom, 80 Days. An old Cherokee Indian heirloom, pre-1890 variety; beautiful deep dusky purple-pink color, superb sweet flavor, and very large sized fruit. Indeterminate.

***Tomato ‘Chocolate Sprinkles’***

70 Days. Chocolate Sprinkles is the perfect balance of flavor, appearance, yield, and disease resistance. These bite-sized tomatoes have striking, forest green streaks over deep coppery-red and a delightfully sweet taste. Indeterminate plants produce abundant, thick trusses of the scrumptious, crack-resistant fruit.

***Tomato ‘Chocolate Stripes’***

79 Days. Expect plentiful yields of 3-4 inch, mahogany colored tomatoes with dark olive-green striping. Fruits have a delicious, complex, rich, sweet, earthy tomato flavor. Produces well into autumn. Indeterminate.

***Tomato ‘Dr. Wyche’s Yellow’***

Heirloom, 75-80 Days. Heavy yields of one pound golden-yellow tomatoes. Meaty flesh and rich flavor. Indeterminate.

***Tomato ‘Early Girl II’***

54 Days. Compact, patio-type variety. Extreme earliness and huge yields of firm, meaty, flavorful fruits. Fruits are a full 4 in. across. Indeterminate.

***Tomato ‘Fruit Punch Cherry’***

75 Days. Prolific crops of 1 oz., round, pink, thin-skinned fruit that “achieves a new level of sugar-sweetness and a tangy ‘true tomato’ taste”. Crack resistant even in heavy rains. Indeterminate.

***Tomato ‘Garden Peach’***

75 Days. This unique heirloom looks very much like a small peach - it even has slightly fuzzy skin! Small, 2 oz., light-yellow fruits have a delicate, distinctive flavor that’s light, clean and a little bit fruit-like. A prolific producer of juicy fruits that have excellent keeping quality. Introduced to American gardens in 1862. Indeterminate

***Tomato ‘Gold Medal’***

80 Days. A classic heirloom variety. Gorgeous fruits weigh in around 8 ounces, yellow and red striped, amazing fruity flavor. A taste test winner. Indeterminate.

***Tomato ‘German Pink’***

Heirloom, 85-90 Days. This variety originated in Bavaria. It made its US debut in 1883. The luxuriant potato-leaf plants give high yields of 1-2 lb., nearly seedless meaty fruit. Indeterminate.

***Tomato ‘Green Zebra’***

Heirloom, 78 Days. Green Zebra is the result of four heirlooms bred together. Exquisite emerald green skin, dark green vertical stripes, and gently flavorful green flesh. Indeterminate.

***Tomato ‘Giant Red Oxheart’***

75 Days. A Kentucky heirloom. Amazing and beautiful, producing large 1-2 lb. red, oxheart tomatoes with full delicious flavors.

***Tomato ‘Granadero’***

75 Days. Produces very high yields of uniform, bright red, 4-5 oz tomatoes with very good flavor. Ideal for fresh tomato sauces, salsas, and salads. Broad disease resistance. Indeterminate.

***Tomato ‘Hawaiian Pineapple’***

75-95 Days. Very large, up to 2 lbs each. The yellow fruit has red marbling through the flesh and is one of the most beautiful tomatoes. The flavor is very sweet and fruity; good yields! Indeterminate.

***Tomato ‘Hungarian Heart’***

85 Days. Popular for generations because of their excellently flavored, meaty, large tomatoes that provide lots of solid good eating with very few seeds. Luscious pink tomatoes average 16 ounces. indeterminate.

***Tomato ‘Indigo Rose’***

75-80 Days. The 2-inch round fruit have nearly black skin that occurs on the portion of the fruit that is exposed to light, while the shaded portion starts out green and turns deep red when mature. Inside, the flesh reveals the same rouge tone with a superbly balanced, multi-faceted tomatoey flavor. Indeterminate.

***Tomato ‘Italian Heirloom’***

Outstanding variety from Italy. Plants are loaded with red fruits weighing over a pound. One of the most productive varieties. Excellent full tomato flavor. Ideal for slicing and canning—very little waste and easy to peel. Indeterminate, 70-80 days from transplant.

***Tomato ‘Large Red Cherry’***

72 Days. Excellent salad tomato, with clusters of 5 on spreading, hardy vines. Full-season, high yields of deep scarlet, round, 1 to 1-1/4” diameter, flavorful fruits. Indeterminate.

***Tomato ‘Lucky Tiger’***

70 Days. As Lucky Tiger ripens, the green striping becomes more defined and the background turns red as the interior marbling develops. Excellent sweet-tart flavor. indeterminate.

***Tomato ‘Mama Leone’***

85 Days. An excellent plum tomato from Italy. Expect a large harvest of 5-6 ounce bright red meaty tomatoes with very few seeds. Fantastic sauce tomato. Indeterminate.

***Tomato ‘Mortgage Lifter’***

Heirloom, 80-85 Days. Large, smooth, 1-lb. pink fruit have a delicious, rich, sweet taste. Bred in the 1930’s by a West Virginia gardener who planted the four biggest varieties he knew and crossed one with pollen from the other three for six years. Indeterminate.

***Tomato ‘Mountain Fresh’***

79 Days. Smooth, clean fruits, often exceeding 3-1/2”, are 10 to 12 oz., have uniform color and great flavor. Plants provide good leaf cover so fruits are protected from sun scald. Produces good yields. Smooth blossom scar. Determinate.

***Tomato ‘Mountain Merit’***

75 Days. This multi-purpose slicing tomato earned an AAS award for its unsurpassed disease resistance, good flavor and production. Deep red beefsteaks average 3-3 ½ inches across with firm flesh. Hard-working, plants stay healthy throughout the season. Determinate.

***Tomato ‘Opalka’***

75 Days. One of the best paste tomatoes. Fruits are large, at least 5 inches long and shaped like a banana pepper. Plants have wispy-type foliage, but are vigorous and very productive. Polish heirloom. Indeterminate.

***Tomato ‘Orange Banana’***

85 Days. Plants produce good yields of 2-3 ounce plum-shaped orange paste tomatoes with a good sweet-tart flavor. Delicious in sauces and salsa, but also perfect for fresh eating, canning and drying. Has good disease resistance. Indeterminate.

**Tomato 'Artisan'™ Pink Bumble Bee'**

70 days. Excellent sweet flavor. An alluring combination of light pinks, yellows and oranges. Indeterminate.

**Tomato 'Pink Lemon'**

75 Days. As the name suggests, this variety looks like a lemon. Fruits are 4-5 ounces, plum-lemon shaped, meaty, bright yellow with a slight pink burst of color in the center. One of the best tasting yellow tomatoes. Indeterminate.

**Tomato 'Artisan'™ Purple Bumble Bee'**

70 Days. An eye-catching combination of the dusky purple seen in heirloom tomatoes and metallic green striping. Sweet flavor and meaty texture produce a nice accent to any salad. Indeterminate.

**Tomato 'Red Grape'**

70 Days. Produces big yields of grape-size fruit on multiple clusters. Shiny red fruit is consistent for size and shape and has the firm texture and good sweetness that grape tomatoes are known for. Indeterminate.

**Tomato 'Red Zebra'**

Heirloom, 75-90 Days. 'Red Zebra' is thought to be a naturally occurring cross between 'Green Zebra' and an unknown, though certainly red, parent. The beautiful and tartly flavored offspring are gorgeous 2-3", round cherry-red fruits with rich orange streaks. Indeterminate.

**Tomato 'Rocky'**

75 Days. An incredibly large paste tomato, with each meaty fruit growing to 6 inches long and weighing between 8 and 12 ozs. They have a very well balanced, full tomato flavor and are perfect for cooking into sauce, but delicious enough to eat fresh. This is truly an impressive tomato and one to be sure to try. Heirloom variety. Indeterminate.

**Tomato 'Roma'**

73-80 Days. Prized for its use in tomato paste and sauces. Produces a large harvest of thick-walled, meaty, bright red, egg-shaped tomatoes about 3 inches long and with few seeds. Determinate.

**Tomato 'San Marzano'**

80 Days. The long, blocky fruits mature with a small, discreet seed cavity that can be scooped out, leaving all meat. This means much less boiling to get a first class paste. The shape is also good for canning, and excellent for drying. Determinate.

**Tomato 'San Marzano'**

80 Days. The long, blocky fruits mature with a small, discreet seed cavity that can be scooped out, leaving all meat. This means much less boiling to get a first class paste. The shape is also good for canning, and excellent for drying. Determinate.

**Tomato 'Sungold'**

55-65 Days. Ripens in long clusters of 10-15, 1 oz. fruits. The sweet flavor is ready about a week before full coloring. Indeterminate.

**Tomato 'Artisan'™ Sunrise Bumble Bee'**

70 Days. Gorgeous combination of yellows and reds, inside and out. Excellent sweet and tangy flavor. Adds a nice pop of color to any mix, but also stands alone as a premium-quality cherry for snacking and salads. indeterminate.

**Tomato 'Sun Sugar'**

62 Days. This golden yellow tomato has great sugar-sweetness and flavor, superb texture, and a tangy "true tomato" taste. Fruits are a lovely golden yellow, weigh 1/2 oz., and possess thin skins. Indeterminate.

**Tomato 'Supersweet 100'**

65 Days. A delicious treat that is also one of the most nutritious tomatoes available anywhere! Higher vitamin C content than any other tomato. Fruits are 1" globes with bright red skin and flesh. Indeterminate.

**Tomato 'Viva Italia'**

Heirloom, 80 Days. Vigorous plants yield an abundance of 3 oz. fruits that make outstanding soups and ketchup. Determinate.

**Tomato 'Wapsipinicon Peach'**

78 Days. Originated with Elbert S. Carman in 1890 under the name White Peach. This strain came from Dennis Schlicht and is named after the Wapsipinicon River in northeast Iowa. Heavy producer of 2" round fuzzy yellow fruits. Sweet, juicy, well-balanced flavor. Winner of Seed Savers Exchange's 2006 Tomato Tasting. Indeterminate.

**Tomato 'Wisconsin 55'**

Heirloom, 80 Days. Released by the University of Wisconsin in 1946. Bright red, globe shaped fruits. Excellent all-purpose tomato, great for canning. Indeterminate.

**Tomato 'Yellow Pear'**

70 Days. Petite, distinctive salad tomato. Indeterminate.

**Watermelon 'Crimson Sweet'**

80 Days. Released by Kansas State University in 1963. A light green melon with dark stripes, high sugar content and great flavor.

**Watermelon 'Mini Love'**

70 days. An AAS winner. Sweet and firm, oval fruits average 5-7 lbs. Bright red flesh. Very productive.

**Watermelon 'New Orchid'**

80 Days. Sweet, bright orange flesh. Beautiful appearance inside and out. New Orchid's outstanding, sherbet-like taste makes it a real people pleaser. The fruits are a medium-large "icebox" size, avg. 7-9 lb., and oval-round. The skin has dark green, high-contrast stripes.

**Watermelon 'Sugar Baby'**

75 Days. Sweet, fine-textured, medium-red flesh. The round, 12 lb., dark green skinned melons grow 8 in. across.
